*Corkhill Brand Frankfurters are an excellent luncheon dish*

FEW products of the Corkhill Plant are as appetizing as Corkhill Frankfurter Sausage. They are most skillfully blended and have a delicate spiciness that is always delightful.

Remember this. There is no cereal in Corkhill Frankfurters, and no filler. They are prepared from pure, wholesome pork and beef, expertly seasoned—And it's the Corkhill way of seasoning that gives them their distinctive, delicious flavor.

Your dealer has them—or can get them for you if you ask.

## GRAIN SHIPPER LOSES SUIT

A verdict for the defendant by order of the court was given Tuesday by a jury in Superior Court in the case of B. Neale Willson against R. Nelson Stevens, trading as Setvens Brothers, commission merchants.

The plaintiff alleged that he sent a load of wheat on the schooner Helen from Rock Hall to Baltimore for the defendants on August 22. The next day there was an explosion. He asked $1000 damages.

A jury in the United States District Court recently decided the explosion on the Helen was due to fumigating. At that time the owners of the boat were granted a verdict against the fumigator for $4,000.

## MEN'S SEWING CIRCLE PRODUCING RESULTS

The first regular meeting of the Husbands' Protective Association and Sewing Circle, recently organized at Seaford, was held this week. Many of the husbands gave glowing reports of the home conditions since the association was formed. One of the members reported all the buttons were now on his clothes; one did not bring sewing or darning, reporting that he now had a bushel of socks in fine condition; others reported they now had several pairs of pants with no buttons missing; and one said he had four vests that he could now wear in society.

After some discussion, it was decided that the association get n touch with the Diamond State Telephone Company to rent their post hole digger. This will visit the backyards of each member every ten days and dig a hole to bury the tin cans.

Some talked about late suppers and their wives getting home late in the evening, and the followng resolution was presented and passed with little discussion by a unanimous vote: "It is neither ethical, good manners or common decency to be invited to be present at a stated hour and then arrive either five, fifteen, thirty minutes and sometimes an hour late." This seems to be a common trait among the society folks of Seaford and something that good common sense should say is not the proper procedure.

All present voted the meeting a huge success and the next meeting will find a still larger attendance. Several married men in the town, who need the association, have not yet joined, and these "hen pecks" are expected to get under cover in the very near future. It was voted to keep the place and meeting a secret. Address all applications and questions to Box "M" Seaford, Del.

# For Continuous Service

*The Construction Foreman*

TELEPHONE construction never stands still. Future needs of telephone subscribers must be anticipated, existing equipment added to, and a steady program of expansion carried out.

THE Construction Foreman's duty is to oversee the Company's great construction projects. Each of these operations must proceed according to previously prepared estimates and specifications. Each job must be efficiently done, and it must be completed within a previously determined length of time. The Construction Foreman is responsible for the strict carrying out of these plans.

THE Construction Gang—the advance guard of the army which provides you with telephone service—builds the pole lines, lays the conduit, and constructs the underground concrete manholes. With man-power aided by the most modern labor-saving machines, the work of construction goes steadily and unceasingly on

*Another Reason Why—*

Buick Body Construction

In constructing its open car bodies, Buick uses bolts in fastening the metal braces to the wood, instead of ordinary screws. These bolts passing completely through the wooden frame prevent joints from loosening under driving strains. A more than usual number of bolts secure the Buick body to the chassis, holding it rigidly in position and entirely eliminating all squeaks and rattles.

# Heard the Latest

Have you heard any of the comments all around the county about the new doctor in Chestertown? According to folks who have been to him he cures 95 per cent of all human ailments by working on the spine and spinal nerves.

Some say he practices the greatest Health System known. Others call him a fake. Those who praise him have tried him. Or some of their friends have told them of the remarkable results they obtained. Those who "knock" are the kind who knock everything new without trying it. Some day some one will knock at their bed room door, and walk in to find them "knocking" their heads against the bedstead, because they had nothing else to knock. While yet a comparatively new method in this part of the country, Chiropractic is growing by leaps and bounds and winning public confidence and favor.

If you are sick of being sick and want to get well, call on Dr. Dill, the Chiropractor, in Chestertown. You will find him honest and reliable, and anxious to rid you of your troubles. He uses no medicine, pills, massage or electricity. He traces 95 per cent of all human ailments to the spine, the great switchboard of the body.
