TO UPHOLD THE GOVERNOR

The News is glad to announce that the Democratic Organization in Kent has decided to present to the people of this county candidates for the State Convention who stand back of Governor Ritchie and his administration.

Governor Ritchie's absolute determination to adhere to his original plan for nothing less than a substantial reduction in the State tax rate has unquestionably won the hearty approval of the people of Maryland.

In expressing his attitude on the subject of taxation the Governor has been thoroughly cognizant of the fact that many of the plans and proposals submitted to the Legislature, which would automatically increase the rate, were meritorious and worthy. It has been with extreme reluctance no doubt, that he has been compelled to place the stamp of his official disapproval upon them. However, both Governor Ritchie and his party had given their solemn pledge to the people of Maryland that taxes would be substantially reduced. And the Democratic party as a whole should be just as anxious to redeem this pledge as the Governor is determined to do it.

Not only has Gov. Ritchie's plan for reduced taxes met with the approval of the Organization in Kent but his sound doctrine on "State's Rights" finds an echo in the hearts of our people.

For instance, the question of education, as relating to governmental appropriations or resting entirely with the several States for support, the Governor expresses his views in these words:

"How much better it would be if the Federal Government, instead of collecting these vast sums from the people of the States, and then paying back part of them for the local purposes of the States, with the right of Federal control—how much better it would be if the Federal Government kept its hands entirely off all this money, so that the people of the States might have it and expend it themselves for their own roads and schools and health and agriculture, free from any control whatever.

"Who knows, for instance, to what length the Federal Government might sometime go if some of the proposals for Federal Aid to education should be adopted? Education is a local function. It should not be centralized. It is inherently the State's right to see to the education of its own boys and girls, uncontrolled and untrammeled by outside influences.

"Just as it is the State's duty to provide a competent public school system for its children of all creeds and denominations, so when recognized creeds or denominations maintain competent schools of their own, such, for example, as the parochial schools, it is the State's duty not only to leave them alone, but to protect them too, so that religion and freedom of education may be inviolately maintained."

Sidney P. Townshend, Solicitor.

BRANNAN SAYS TANLAC MEETS EVERY TEST

In less than a Month after taking Tanlac he felt like a new man and was able to do hardest work.

"A friend of mine put me on to Tanlac and I am more than glad he did, for the medicine has just the same as made a new man of me," is the striking statement of R. F. Brannan, 765 Maryland Ave., Cumberland, Md., a motorman for the Cumberland Electric Railway.

"Stomach trouble weakened me down to where I simply had to force myself to keep up, with my work. After eating the gas on my stomach would keep me miserable for hours. This gas also caused severe pains around my heart and made breathing difficult. I was also constipated and very nervous, and got up mornings feeling tired and no account.

"Well, I just kept on getting worse every day until I began taking Tanlac, and Tanlac had me over my troubles and feeling like new in less than a month's time, I eat fine and sleep fine, and go to my work without fear of getting tired out. I certainly am strong for Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.
