NEW ADVERTISEMENTS.

TO THE AFFLICTED.

The Greatest Discovery of the Age!

CALDWELL'S HERB BITTERS,

which are now so extensively used by the afflicted and also as a tonic appetizer, are carefully compounded from roots and herbs, whose medicinal properties are well known and they are therefore presented to the public as a

PURELY VEGETABLE PREPARATION.

There are no mineral poisons nor nauseating drugs used in their distillation (which unfortunately is the case with some now in the market) but they are exclusively the production of the woods, the garden and the forrest, selected from Nature's pure laboratory, and therefore carry with them that life, health and longevity originally designed for man.

CALDWELL'S HERB BITTERS!! correct the gastric juices of the stomach, aid the important work of digestion; strengthen the mucus membrane; assist the bowels in the discharge of their functions, and, therefore, guarantee a daily supply of pure and healthful blood. In this they not only effect a positive cure of disease where it already exists, but guard and protect persons in health from the advances of those maladies which prove so fatal to human life. The secret of the success of these Bitters as a curative, lies in their health giving action upon the stomach, and their absorption and expulsion from the system of all vile and dangerous impurities.

NEW STYLE VERTICAL MILL.

THE VICTOR!

For completeness of adjustment, strength, durability and working power, THE VICTOR CANE MILL has no equal. The fluted roll is the important feature that regulates the feeding of the mill. The ridges seize upon the cane as soon as presented, thus relieving the labor so often necessary to force the stalks to an entrance between smooth rolls, and at the same time secures its direct passage to the discharge roll.—They also break the woody fibre at short intervals, and thus rupturing the cells cause the more ready flow of the juice. We also have horizontal mills, for horse, water and steam power.

Cook's Sugar Evaporator.

First Premium at Forty State Fairs!

12,000 IN USE, ALL FULLY WARRANTED.

COOK'S EVAPORATOR is simple, yet scientific in its construction. It consists in an evaporating pan of sheet metal, copper or galvanized iron, placed on rockers with wooden sides, and so divided by ledges as to form a continuous tranverse channel over a heated and cooling surface of from 75 to 125 feet.

It is estimated that 20,000,000 gallons of syrup have been manufactured on the above Evaporator in the past season. We also have Plantation Pans, adapted to a brick arch. Circulars and Pamphlets with full description and price list, sent to all applicants.
