The Firemen's Carnival is progressing in a very satisfactory manner and will prove quite a success on the whole. Last Saturday night the town was filled with the largest number of people ever known to come together here in the history of the town. The number has been estimated to be between 5000 and 6000. The carnival was well patronized and some of our local merchants were benefited as well. Our firemen deserve much credit for the efforts they have made, and are making to bring the affair to a successful end. A number of them. under the leadership of John A. Tobin, J. B. Anderson, R. M. Logan, F. C. Miller and others, have helped voluntarily to repair the pavements where broken and fill in and level up the roadways in the town which was badly needed and which the commissioners seemed to be unable to have done. We move a vote of thanks to our generous and helpful firemen for this much needed public improvement and hope their organization may run ever smoothly and soon be free from debt.
