PAINLESS EXTRACTION OF TEETH
(WITHOUT GAS.)
DR. CHARLES BILLINGSLEA,
DENTIST.

HAVING supplied himself with an Apparatus for *Producing Local Anæsthesia,* takes pleasure in informing the citizens of Westminster and the community at large, that he is prepared to use this latest improvement in the extraction of Teeth. The advantage possessed by this Apparatus over all others, is that it *affects only the part operated on.*

He has also the most improved style of Apparatus for manufacturing *pure Gas*—of course all persons calling on him can choose the method they prefer.

All operations in Surgical and Mechanical Dentistry performed in the most approved style and at moderate rates

Office, adjoining his Father's Residence, near Farmers & Mechanics' Bank,

Westminster, Md,

where he may be found at all times when not professionally engaged at the following places, viz:

UNION BRIDGE.—1st Wednesday of every month, remaining until Saturday
NEW WINDSOR.—2nd Wednesday of every month, remaining until Saturday.
UNIONTOWN.—3rd Wednesday of every month, remaining until Friday Evening.
TANEYTOWN—3d Friday of every month, remaining until Wednesday following.

Dental Improvements.
DR. BEAN'S
Improved Nitrous Oxide Apparatus
DR. GEO. S. FOUKE,
DENTIST.

Having furnished his office, in Westminster, Md., with one of Dr. Bean's Patent Improved Apparatus for the manufacture of perfectly pure

NITROUS-OXIDE GAS,

would announce that he will be at all times prepared to administer this popular Anæsthetic for the

Extraction of Teeth without Pain.

Dr FOUKE would invite the attention of the public to his lately Improved ATMOSPHERIC PRESSURE PLATES FOR ARTIFICIAL TEETH. By means of an improved Air-Chamber, the pressure of the atmosphere for holding teeth firmly and securely in the mouth, is more certainly and effectually attained than by any style or form of plate hitherto used by the profession.

The value and excellence of a set of Artificial Teeth are much enhanced by this new and truly philosophical arrangement.

Dr F continues the Practice of Dentistry in all its Branches, and being a *Pioneer Worker in Hard Rubber* for Dental purposes, he is thoroughly experienced in the manufacture of teeth upon the *Volcanite* base, and is prepared to supply this style of work at very moderate rates.

Westminster, Md., June 7.—tf

The Great Destroyer has come!

Appearance of the Asiatic Cholera in the United States!

THE ZINGARI BITTERS
The Only Sure Antidote for Disease!

As a Preventative it is Infallible!
As a Cure it is Certain!

The appearance of the Asiatic Cholera in the United States has given rise to the just apprehensions of all classes. The National Congress has appointed a special committee to ascertain what means are necessary to insure the proper quarantine at all the ports on the Atlantic coast, while the authorities in the great commercial cities on the sea-board are actively engaged in enforcing such sanitary measures as will secure the cleanliness and promote the healthfulness of the communities in their charge. These proceedings are all laudable. Cleanliness and temperance are the first great essentials necessary to safely guard against attacks from the Cholera, but greater than all these efforts of Congress, more potent than the proceedings of municipal bodies, and infallible beyond all doubt is the

Great Zingari Bitters,

as a sure preventative of Cholera. The discoverer of the component part of this Bitters, an eminent Egyptian physician, had much experience in Egypt, where the Cholera rages with tremendous virulence. He had long seen and felt the want of some remedy which would strike at the root of the disease, and so prevent much of the suffering which the human family has been compelled to endure from this scourge. The result of his thoughts and labors at length presented themselves in the production of the wonderful

ZINGARI BITTERS.

It was not long before this Bitters was recognized and accepted in all parts along the Mediterranean coast, in the south of Europe, among the semi-civilized tribes of Africa, and by the ablest practitioners of the old world, as the only sure and certain preventive or cure for the Cholera. The ZINGARI BITTERS acts on the organs of excretion and secretion, keeping up a perfect balance between them. It is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

For travelers who are subject to all the changes of climate and water, the ZINGARI BITTERS is a companion that should never be left behind. It is for sale by all the druggists in the United States.

BALTIMORE LOCK HOSPITAL.

BALTIMORE, MD.

ESTABLISHED AS A REFUGE FROM QUACKERY.

The Only Place Where a Cure Can be Obtained.

DR. JOHNSTON HAS DISCOVERED THE most Certain, Speedy, and only Effectual Remedy in the World for Weakness of the Back or Limbs, Strictures, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight, Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach, or Bowels—those Terrible Disorders arising from Solitary Habits of Youth—SECRET and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible,

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most excellent talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call upon me with full confidence.

MARRIAGE.

Married Persons, or Young Men contemplating marriage, being aware of Physica, weakness, organic debility, deformities &c., speedily cured

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS.

Immediately Cured and Full Vigor Restored.

This Dreadful Disease—which renders Life miserable and Marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.—The system becomes Deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the heart, Indigestion, Constitutional Debility, a Wasting of the Frame, Coughs, Consumption, &c.

Office, 7 South Frederick Street,

eft-hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

☞No letters received unless postpaid and containing a stamp to be used on the reply. Persons writing should state age, and send portion of advertisement describing symptoms.

The Doctor's DIPLOMA hangs in his office.

DR. JOHNSTON,

Member of the Royal College of Surgeons London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with a derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE

Dr. J. addresses all those who have injured themselves by improper indulgences and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

THESE are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsy, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption.

MENTALLY.—The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

THOUSANDS of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated; having a singular appearance about the eyes, tough and symptoms of Consumption.

R.D JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

By this great and important remedy, Weakness of the Organs is speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved. All impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Trembling, Weakness or Exhaustion of the most fearful kind, speedily cured by Dr Johnston.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not bured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons MUST, before contemplating

MARRIAGE,

reflect that a sound mind and body are the most necessary requisities to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment; or, by the use of that deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affection of the Head, Throat, Nose, Skin, etc., progressing with frightful rapidity till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whose bourne no traveller returns.

ENDORSEMENT OF THE PRESS

The many thousands cured at this institution with in the last eighteen years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the "Sun" and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

Skin Diseases Speedily Cured.

Persons writing should send that portion of the Advertisement which describes Symptoms; also, be particular to enclose a Postage Stamp to be used on the reply and direct in the following manner Dr. J. M. JOHNSTON, of the Baltimore Lock Hospital, Baltimore, Maryland. May 28, '65.—y

ERRORS OF YOUTH.

A Gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will for the sake of suffering humanity, send free to all who need it, the recpie and directions for making the simple remedy, by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence.

MISCELLANEOUS.

ADVENTURE WITH AN ELEPHANT ABOUT "ROGUES."

Wild elephants travel in families.—Every member in the family is a blood relative. These herds, as they are called, contain from ten to twenty individuals; although sometimes there are more than that even. In the depths of the forests of India and Ceylon, large numbers of elephants travel in company from place to place, in search of water, or browse together in the friendliest way; and any one who chanced to see them, if he did not know their habits would suppose they were a single herd. But, on the first sign of danger, he would note the fact that the elephantine regiment was made up of family companies, who would at once form into an independent body and obey each its own chosen leader.

These leaders are said to be elected by "impartial suffrage." There is no distinction on account of "sex or color"—for the females are as eligible to the high office if they show themselves fit for the position.

The family pride of the elephant is excessive. One would, as he reads about them, think that they must imagine that they "came over in the Mayflower," and had grandfathers who "fought at Bunker hill," and that each of them was educated at Hartford College; they are so exclusive in their manners, and treat the rest of the elephant-kind with such cool and "distinguished consideration.'

"If," writes Sir Emmerson Tennant, "by any accident, an elephant, becomes hopelessly seperated from his own band, he is not permited to attach himself to any other. He may browse in their vicinity, or resort to the same place to drink or bathe; but the intercourse is only on a distant and conventional footing, and no familiarity or intimate association is, under any circumstances, permitted. There can be no reasonable doubt that this jealous and exclusive policy not only contributes to produce, but mainly serves to perpetuate the class of solitary elephants, which are known by the term goondahs in India, and which from their vicious propensities, and predatory habits, are called Hora or Rogues, in Ceylon.

A rogue elephant is like a rogue among us—an outcast; and like the human namesake, he revenges himself by giving up his life to mischief. In Ceylon "they destroy plantations; they tread down gardens, they ruin rice fields and cocoanut trees. They hide in the forests in the day time, but sometimes they venture out and boldly carry off booty from the fields, or suddenly rush on the traveler in the thick woods and murder him without mercy. They seem to hate men, and no doubt have causes enough to do so from their point of view. The natives are glad when an English sportsman arrives, and eagerly offer to guide him, in the hope that he may lay low one of these truly elephantine foes.

The natives tell many interesting stories of their adventures with rogue elephants, and from these narratives, as written by a Singhalese gentlemen, I will select one of the best.

The superintendant of a cocoanut plantation near Negombo told a story of an adventure with an elehpant, which shows that four-legged 'rogues' are addicted to sport as well as two-legged hunters.

A 'rogue elephant' had done so much injury to the plantation that the owners determined to kill it. They made up a party of ten persons, who carried six loaded rifles. The leader was Mr. Lindsay, an Englishman who was then living at Ceylon.

As they were quietly walking along the path which led to the spot where the elephant had been seen an hour before, the native who was in advance shouted wildly, "There! there!" and took to his heels. The brute at this time was only thirty or forty yards from the hunters. Every one of them at once followed the example of the native, and ran for his life. The elephant gave chase, screaming at the top of his shrill voice. The Englishman succeded in reaching the branches of a tree in safety; the rest quickly imitated his example.

"As for myself," said the gentleman who told me the story, "although I made one or two superhuman efforts, I could not climb the tree. But there was no time to be lost. The elephant was running at me with his trunk bent down in a curve toward the ground. At this critical moment Mr. Lindsay held out his foot, by the help of which, and then of the branches, which were three or four feet above my head, I managed to scramble to the branches. The elephat hesitatated a few moments, evidently considering what was the best for him to do. His mode of attack shows how sagacious these huge creatures are. First, coiling his trunk around the stem of the tree, he tried in vain to tear it up by the roots. Putting his head against it he endevored to push it over. After pushing for several minutes he found that his efforts were useless. Then in order to weaken its hold, he trampled down all the projecting roots, moving round and round the the tree as he did so. He failed again and again. Seeing a pile of timber near by which had been lately cut down, he carried it, piece by piece, to the root of the tree, and piled it up with as much judgment and skill as if he had served an apprenticeship to a wood sawyer.

After carrying thirty six pieces he mounted the platform, put his hind legs on it, raised the fore part of his body and rested it on the tree, and then reaching out his trunk for his prey. But the stratagem failed, they were still out of reach.

Mr. Lindsay now thought that as fair play was no more than his due, he would try his skill on the elephant, and after two shots, succeeded in killing him. It is only "rogue," or outcast elephants, or female elephants after their young have been killed, that are dangerous to travelers. The ordinary elephant is not like the "rogue" savage, wary and revengeful, or, as Sir S. Baker expresses it, "thirsting for blood, and knowing no greater pleasure than the act of crushing his victim to a shapeless mass beneath his feet."

For the Sentinel.

THE BIBLE CONTRASTED WITH INFIDELITY.

The People, of the West End, are likely to be enlightened, on the subject of Christianity. A debate was held here, calculated to prove, that the Bible is not the word of God, and hence, that, Christianity is all a humbug. After all the long trial that the Bible has had, under all circumstances, in every climate, in every State of society, under all governments, triumphing over all opposition, and proving itself abundantly the living truth of God, some infidels here have found out, that it is a mere fiction and deception. If this is not behind time, what is? I would propose, that their next subject, for debate be to prove, that the Sun does not shine, and gives neither light nor heat to this Earth. Voltaire that infamous French Infidel had around him a large library, of great research. He had high talent, much learning, knew how to use his books, lived to the advanced age of Eighty-four and spent his long life, in trying to put down the Bible. He prophecied that, in fifty years, from his time, the Bible would be out of existance. His common signature to his letters was "crush the Wretch," applied to our Lord Jesus Christ. What was the result? His Infidel Tracts are almost out of print, but in the very room at Ferney, Switzerland, where he wrote his tracts the Bible Society, having purchased the house, erected a printing press, for printing the Bible, which has increased more than ever. Can these Infidels, at West End, with their limited means of reading do more than Voltaire? He failed and so will they. Thomas Paine's Age of Reason, at one time, was going to enlighten the world, and prove the Bible a humbug. What has become of the Age of Reason? We will be obliged, if these infidel debaters will inform us, how many copies of it, were printed the last year, and who prints it. No decent respectable Book establishment will now print that infidel work It won't sell, it won't pay.—Paine was a notorious, filthy, low drunkard. How could he enlighten the world on religion? His horrid death gave the contradiction to his writings. Infidels clamour about reason, that was tried in France, in the age of Reason and Infidelity. What scenes of bloodshed, and lewdness, and robbery, and fraud, and cruelty, sprang from reason. These were the legitimate fruits of Infidelity, and they were so dark and dismal and disgusting, that Hell might blush at their recital, That Age of Reason was enough to convince any one what Infidelity will lead to. Robespierre and Rosseau were miserable leaders, in the work of Reason, and their crimes and vices plainly show, what Infidelity produces. Voltaire himself had an awful death, harrowed by, the pangs of a guilty conscience, He applied to a priest to give him Sacrament, but found no relief. The Bible is now prevailing, in France and Italy. At Florence where a few yeans ago, the Bible could not be circulated on pain of death, now the Bible Society has a press, and prints, the Bible, without molestation. At Constantinople, the Capital of Turkey, where once it was death to distribute Bibles, now the Bible Society is erecting a house, for printing the Bible in Arabic, which will reach Sixty-five million of heathens. In Mexico Bible agents are busily employed in circulating the Bible, which is there eagerly received. When General Scott invaded and took Mexico a lot of Testaments, in Spanish, was sent to Vera Cruz, and the commanding officer there stated the demand for Testaments, was so great, he could not supply them. Why do all natives receive the Bible, why do the poor heathen receive it, why do wise enlightened nations acknowledge the truth of Christianity? Because God has set to his seal that the Bible is his living truth, and that the Lord Jesus Christ is the true and only Saviour. We are sorry, that these Infidel debaters, cannot or will not see the truth as it is in Jesus When sickness and death overtakes them, and they are brought low upon a dying bed, they will need stronger consolation, than their poor Infidelity can give to them. It may be interesting to the public to know, that quite a large amount, of Bibles, have recently been circulated, in Carroll and adjoining counties, and have all been well received. This speaks highly, for the intelligence and religion of the community. Perhaps the Infidel debaters do not know, that last year our American Bible Society issued over 600,000 Bibles and Testaments, and the London English Society upwards of 1,500,000 We have entire confidence, in the Bible, as God's word. We are prepared to prove it to any. It is prevailing now more than ever, and carries along with it its own evidence to the heart, and mind of every one. May Almighty God largely increase his work and multiply and multiply the Bible, till all come to the knowledge and acceptance, and love of the truth, as it is in Christ Jesus.
