## Seed Corn Meetings Create Much Interest

Over one hundred Kent farmers attended meetings on seed corn held at Massey, Chestertown and Rock Hall by the County Agent and Farm Bureau Locals.

The purpose of these meetings was to assist farmers in determining the value of their corn for seed purposes. At all three meetings, farmers brought samples of their corn. The Extension Service Corn Specialist and County Agent demonstrated a new method of inspecting seed corn that has proved very efficient. A new style "Rag Doll" seed corn tester was also demonstrated. Farmers were assisted in inspecting their corn with the new method as demonstrated.

The results of these meetings indicated that the 139 who attended, learned the inspection method demonstrated as well as the new style "Rag Doll" tester. Although many samples of corn were found to be injured, yet some very good seed corn was found, especially at Massey and Chestertown. In nearly all cases, this good seed corn had been separated from the rest of the corn last fall and spread on a barn floor or in a house where it had dried out before cold weather.

## HARRY J. JEFFERS BURNED TO DEATH

Harry J. Jeffers, a former well-known resident of Rock Hall, perished one day last week when an oil tank burned in the tin plate mill of the Bethlehem Steel Company, Sparrow's Point. The public realized they had a living hero, who made a desperate effort to save the fire chief's life.

He is Frank Morrison, chauffeur, of the Sparrow's Point Fire Department, who was with Jeffers on the annealing furnace when the tank boiled over. By the merest chance he eluded the white-hot spray and leaped 30 feet to safety, only to dash back among the flames when he heard his chief's call for help.

In performing this act he suffered burns which doctors say penetrated the flesh to the bone of his left hand, and seared his face, ears and neck. His injuries, it is said, will keep him from work many weeks.

Morrison, his friends say, had run several feet from the flaming pools of oil when he heard Jeffers' cry for help. Looking back, he saw his friend on the ground, enveloped in flames and unable to fight his way out.

Calling two other men to aid him, the chauffeur helped Jeffers to the dispensary, where medical attention was given immediately. It was not until the dying chief was on his way to the hospital, an hour later that Morrison remembered he himself was burned.

PENNSY TRAIN KILLS SIX AT MARCUS HOOK, PA.

William Whitman, driver of the truck, of Chester, and John Newlin, of Marcus Hook, were instantly killed as were two women who were in the closed car. The two men were carried a quarter of a mile on the cow catcher of the locomotive before it was brought to a standstill. Mrs. Gertrude Maury was seriously injured and was unconscious at the time she was rushed to a hospital.

## WASHINGTON COLLEGE'S WONDER TEAM KEEPS ON WINNING GAMES.

Washington College strengthen its claim on the Maryland College basketball championship at College Park Monday night, when it romped roughshod over the Maryland quintet, 28 to 16. This victory boosts the Flying Pentagon's string to 14 consecutive victories, chief among its victims being the Navy five.

Captain Bankert proved his mettle when he outplayed the dangerous Supplee, elongated centerman of the College Park aggregation. Supplee has been the chief threat of the Maryland combination, but the Flying Pentagon leader held him scoreless during his reign on the floor. When Coach Kibler injected his second-string men in the last few minutes of play, Supplee broke away from Lovensky and registered his three tallies.

Maryland threw a scare into the Washington ranks at the start. Ensor and Faber put the visitors in the lead, 4 to 0, before the Flying Pentagon hit its stride. But Carroll, who played the game of his career, came through and with the aid of Dumschott's free throw gave Washington the lead. Faber again deadlocked the count momentarily and then Carroll and McGran once again gave the Pentagon the advantage.

The College Parkers' best efforts were useless, as Coach Kibler's aggregation set a terrific pace and romped off to a 15-to-9 advantage at half time. McGran and Fiore added more tallies from the floor and the Flying Pentagon piled up a safe lead, nevermore to be threatened.

Another scoring rampage saw Washington roll in 9 points while holding Maryland safe. The second-string combination then took up the battle and the College Parkers made a feeble effort to cut down the margin. Referee, Menton; umpire, Haas; time of halves, 20 minutes.

Another victory was won Tuesday night over George Washington University by score of 23 to 14.

Two Big Games Next Week

Two big games of basket ball next week here. The champion Washington College team with Coach Tom Kibler will stack up against St. Francis College on Thursday night and on Saturday night Mt. Paul Menton will act as referee which guarantee a clean game.

Washington played Temple in Philadelphia last night and next Wednesday night will play Haverford College at Philadelphia.

The preliminary game next Thursday evening at Washington College will be between Centreville High and Chestertown High.

Next Saturday the preliminary game will be between Salisbury High and Chestertown High.

## Auto Wercked, Pins Motorist Between Machine And Pole

Herman Lafferty, 21 years old, of Millington, is in the Delaware Hospital in a serious condition as the result of an automobile he was driving crashed into a telephone pole on the State highway near Millington Sunday afternoon. The machine was practically wrecked, while Lafferty was thrown forward and his left arm pinned between the pole and the side of the machine. Passing motorists extricated him from the wreck after some difficulty, it being necessary to lift one end of the automobile. He was placed in the automobile of Harry Smith, of Elkton, and taken to the hospital. His injuries consist of a fracture of the left arm and severe lacerations of the head and face. Several teeth were also knocked out. An operation was performed on the injured man early Sunday night and his condition was reported early Monday morning as being good.
