...his year
...er.

...ing year be your best
...every way.

The newest article on demand in Rock Hall is "The Little Brown Jug." ...e store has sold over $200 recently and the demand continues. They are not used for rum but as buoys for fishermen's nets. Here's a good sermon. Jugs that formerly were used for poisonous liquors that degrade now employed to "lift up" and mark the places of nets loaded with life-sustaining fish!

In the opinion of the leading executives of the United States, there is no note of pessimism regarding the business and industrial outlook for the ensuing year. Conservative optimism is the keynote of practically every forecast. Some anticipate a slowing down in certain industries over the high tide reached during 1926, but are confident fundamental conditions will remain sound. If the farmer was as well organized as the various industries represented by the men quoted land would come into its own.

...1927

A resolution was adopted by the board of Governors of the Del-Mar-Va Eastern Shore Association at a special meeting held in the club room of the Wicomico Hotel, Salisbury, Md., providing for the calling of a Peninsula-wide Congress, to be known as a "Del-Mar-Va Takes Inventory Congress" to be held during the middle or latter part of January.

Figures prepared by Trustees of County Almshouses in all sections of the Eastern Shore apparently reveal the interesting development, that a centralized plant would cost the taxpayers more than what is now expended for individual institutions in each county. This is a phase of the situation which, apparently, had been overlooked. Obviously the Commissioners have been proceeding on the theory that money could be saved the taxpayers. And until a business-like survey of the situation is made, nobody can possibly know whether it would cost the taxpayers more or less.

CONSOLIDATION OF SCHOOLS

Messrs. Editors of Kent News:

Your atricle in Kent News of Dec. 25th on consolidation of schools should be of great interest to people of Kent county. The elimination of small one teacher schools, and the improvement thereby of a central high school is to be commended, but when it comes to the consolidation of High Schools, eight miles apart, isn't it going just a bit too far?

The High School question as agitated by residents of Kent county, at present means a consolidation of High Schools either at Galena, Massey or Millington. Why residents of either Galena or Millington should want to give up their present High School and consolidate at either town is beyond comprehension. Of course if the higher-up authorities say that the two High Schools must be consolidated the natural location should be at Massey. But why is such a course necessary?

Are the residents of Kent county too poor to support the two High Schools at Galena and Millington and give adequate education to their children? Do the tax payers want to pay taxes to run buses for eight to ten miles for forty or fifty High School pupils day in and day out in sunshine and rain for years to come.

A bus runs into Millington from our section of the country. We live two miles from town and have three children to go to school. The bus is too crowded for our children to ride yet we pay taxes that pay for the bus, and have to carry our own in or else have them walk. Would that be the way with High School pupils, too many for one bus, not enough for two, so some can stay home or walk?

Why not transport a teacher of agriculture, manual training or domestic science, that eight miles two days a week? Advocates of consolidation say consolidation is only way that a 1st group High School can be had, and that consolidation means economy.

Consider the expense to country tax payers of a new High School at Massey when either building at Galena or Millington with small expense in comparison, is adequate to care for pupils for years to come if the outlying districts are consolidated properly.

Galena and Millington each need to keep its own High School, and if the tax-payers have any say about it, why not stand up and say so, you tax-payers of Kent county. Do not economise (if it is economy?) on the future of our children you might as well take a town off the map as to take its High School away. Strangers looking for a place to locate inquire as to school and churches if they have a family to bring up. Residents already here will decide its time to move if they can not educate their children conveniently. Talk of boosting Del-Mar-Va, why not start at home and boost Kent county first, by having its school system the best in the State.

A TAX-PAYER.
