LEGISLATIVE NOTES FROM CAPITOL CITY

The Maryland committee which will, in pursuance of the Alderson proposal, meet with a committee from the General Assembly of Delaware relative to reciprocity between the two states as to automobile fees, was appointed Tuesday. From the Senate—Fooks, of Caroline, Beck, of Kent, Withgott, of Talbot, and Roe of Queen Anne's, have been named.

At the solicitation of the Mayor and Town Council of Rock Hall and the Rock Hall Progressive Association Senator Beck has secured the passage of a bill through the Senate providing for the sale of the municipally owned electric light and power plant in that town, which has become inadequate to supply the necessary current for the town lighting.

It is said that service at the plant has been unsatisfactory for some time and the sale of the plant will afford the Town Council the opportunity to engage in a contract with the Chestertown Electric Light and Power Company to supply all the current needed to furnish the town with excellent service at less cost than a municipal plant can be operated.

Negotiations have already been entered into by the Town Council and officials of the Chestertown plant looking to the extension of necessary lines.

Considerable opposition is developing in both houses of the General Assembly against a bill sponsored by State Game Warden E. Lee LeCompte, which makes a number of changes in the present game laws.

The measure, which is now in the Fish and Game Committees of both houses, reduces the season on upland game by five days and lowers the bag limit on squirrel, quail and rabbits.

Robert H. Lawder, chairman of the house fish and game committee, said that representatives of Anne Arundel, Dorchester, Charles and Prince George counties were opposed to a section relating to the establishment of duck blinds. Under its provisions no blind can be erected in or over the waters bordering on a shore owner's property unless the owner has first given his permission.

A number of Senators and Delegates interviewed declared they would oppose a provision which is construed to prohibit the sale of rabbits in the State.

Another section of the bill which is causing objection, gives the Game Warden permission, with the approval of the Conservation Commissioner, to close any section of county to hunting for any period not to exceed one year, upon the request of 100 citizens of the county.

Fifty per cent of these citizens are required to be licensed hunters during the preceding season, and the Game Warden must investigate and publish the petition for a week in one county paper.

After receiving the petition, the Game Warden is authorize dto hold hearings and, if the season is closed to publish due notice of the closing.

The Finance Committee of the Senate decided to report the gasoline tax bills favorably, with amendments making the tax for lateral roads 1½ cents and the tax for the elimination of grade crossings ½ cent, or a total increase of 2 cents over the present 2-cent rate.

By this decision the committee favored the pleas of county residents for lateral roads and cut in half the proposed levy and cut in half the proposed levy for grade-crossings elimination. The committee is composed of ten countians and one Baltimorean, Senator Edward J. Colgan, Jr.

CARD OF THANKS

I take this means of offering my sincere thanks to my many friends who were so kind to me during my recent illness. And to Dr. Simpers I am especially indebted for he went out of his line of duty to give me extra care and attention. LEONARD C. NEEDLES. f19
