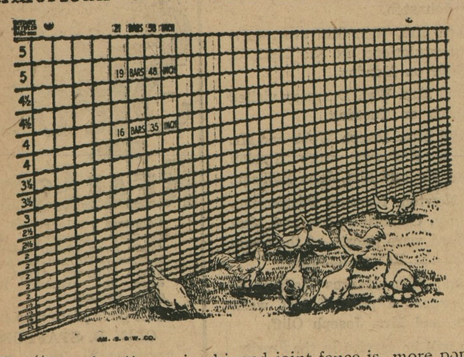
ZINC INSULATED
American Field and Poultry Fence



The "American" genuine hinged joint fence is more popular than ever before as it is built right of the proper materials to insure long and satisfactory service Tension curves are built into the line wires making it possible to stretch the fence as it should be stretched and still provide for contraction and expansion due to temperature changes.

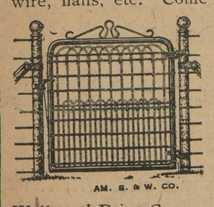
Have already received several cars and have more on the way. Prices lower than you expect Four foot fence as low as 34c per rod, lower fence cheaper in proportion.

BANNER STEEL FENCE POSTS

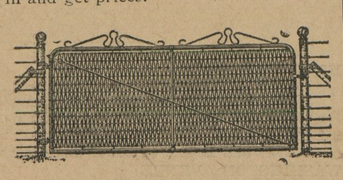
Built like a railroad rail—the strongest form of fence post construction known. Carried in all lengths from 5 ft. to 7½ ft. Cheaper to use than the wooden posts and make a much more attractive fence. We also have the round posts with ornamental tops.

BARB WIRE STAPLES, ETC.

We always have a complete stock of barb wire, staples, brace wire, nails, etc. Come in and get prices.



Walk and Drive Gates



Farm and Poultry Yard Gates

The gate illustrated with fence to match makes a most attractive design for where an ornamental fence is desired. Made of strong galvanized wire in 30—36 and 42 inch heights. Gates 3½ to 10 feet wide.

The gate illustrated above is intended for general farm use, made of close mesch fabric to stop small chickens, pigs etc. Sizes 3½ and 12 feet long. This gate is cheaper to use than the ordinary wood gate and much more attractive in appearance. No hinges to buy as hinges come with all of our gates. Get our prices.

We are headquarters for all kinds of fence and fence materials and will be glad to show you our stock and quote prices on your requirements.

Only five colored inmates remain and arrangements have been made to care for these in colored homes or in one of the State institutions.
