**WHY MORE WOMEN INSIST ON TAILOR-MADE SHOES**

More and more women are demanding tailor-made Shoes. When we made our first announcement of Tailor-made Shoe for women it created a stir of enthusiasm from coast to coast. Women welcomed this new idea of foot service—This opportunity to secure the exact style they want in just the leather they like and a shoe to conform to six separate foot-measurements. And no wonder the Tailor-Made Idea was greeted so enthusiastically. It is needed. Each women's foot is individual. It is no more like another woman's foot than one face is like another. Hence a shoe made to fit every foot cannot fit any foot perfectly. Individual foot treatment is a necessity.

Tailor-Made Shoes provides for this difference.

Any shoe made to the six actual foot measurements to which every Tailor-Made Shoe must conform. If you have a high instep or a low one—A narrow ankle or a broad one—your Tailor-made Shoes will conform to these individual characteristics and in four other places as well, your shoe or slipper will provide for every line of your foot. By taking into consideration these various foot measurements it is possible to provide a slipper that will impart a slenderizing effect without cramping the foot.

Thus not only greater comfort but better style is made available.

You can now secure this new foot comfort through MR. B. A. BRYDEN, of Rock Hall, Representative of The Tailor-made Shoe System, Chicago. Look for adv. in this issue.
