Mr. and Mrs. Leon Lyons, of Wilmington, were guests last week of relatives in town.

Philip Williams and Mr. Bennett, of Baltimore, spent the week-end with Dr. and Mrs. Merritt Brice.

W. C. LOSES TO MARINES

The heavy Quantico Marines ran roughshod over the lighter Washington College eleven at League Park, at Norfolk, Virginia, last Saturday to win, 57 to 0, before a crowd of some 4,000, including a large official party of naval and marine officers of the local stations.

Shapley, O'Neil, Leary and Woods, for the Marines, ran up the bulk of the score. Shapley was out most of the second half, but while he was in the game he appeared able to run with the ball at will.

The Marines were forced to kick only three times during the game, and only once did they have their goal threatened. This was in the second quarter, when Veach, for Washington, recovered a fumble on the Devildogs' 35-yard line. The light Washington outfit was unable to do anything further along that line. However, in the third quarter Washington College again approached the Marine goal with a forward pass Dopson to Burke, placing the ball on the 30-yard line. They were unable to carry it any farther.

Washington resorted frequently to an overhead game when it became apparent that the Marine line would not brak. But the soldiers of the sea appeared just as ready to cut down the passes as they were to disrupt the enemy lines or to frustrate any attempt to penetrate their own. On the other hand, the Marines mixed passing with smashing drives on a weaker line and with long dashes around the ends.

The game was played upon the 135th anniversary of the U. S. Marines.

Marines.		Washington.
Whitefield	L.E.	Burke
Snivley	L.T.	Phillips
Deroe	L.G	Marth
Hart	C.	Sherkey

The Ladies' Aid Society was entertained on Tuesday evening at the home of Mr. and Mrs. James Mulford.

Mrs. Frank Johnson, of Wilmington, was the Sunday guest of her par-s, Mr. and Mrs. W. T. Wood.

The funeral of Briscoe Chrisfield, one of Galena's oldest residents, was held in M. E. Church Wednesday afternoon at two o'clock. Services in charge of Rev. Willis.

Mrs. Michael Burns, of Baltimore, spent several days this week with Mr. and Mrs. James Scotten.

Misses Agnes Mullen, Anna and Mary Beaston, Agnes Newnam and Edna Beaston, of Maryland State Normal School, Salisbury, spent the week-end at home.

Granville McCauley moved his family this week to Jamacia Long Island, where he has accepted a position as station agent.

IN MEMORIAM

In loving remembrance of my dear father, Barrett C. Smith, who departed this life five years ago.

Sad and sudden was the call
Of one so dear and loved by all.
His loving heart had ceased to beat
Before we knew he was gone.
A bitter grief, a shock severe,
To part with one we loved so dear.
God loved him, too, and thought it best,
So he took him home to eternal rest,
But only those who loved him best can tell,
The heartache of not saying a last farewell.

His loving daughter,
1t er.

THE MILK SITUATION

Elsewhere in the News today is a report of the several meetings of dairymen held in Kent this week. When it is seen that Chestertown Cooling Station alone last year paid the patrons $252,000, then the enormity of this milk business will be appreciated.

The Inter-State Milk Producers' Association is the clearing house for all complaints and it has been functioning successfully for some years.

The following delegates have been appointed to attend the annual meeting of the Association in Philadelphia next week: B. F. Rash, Worton; Robert Wallis, Kennedyville; L. A. Sutton, Chestertown.

Edward R. Pennington, who for over eight years, has served a sa director of this association, declines to serve longer. He has made an efficient and sacrificing representative and it is hoped that Kent may find a successor in order that our milk producers may have a director on the Board. The News would add its encouragement to this suggestion and trust that the various locals may become enthusiastic over the candidacy of a Kent countian.

The speakers at the meetings in Kent showed how the Eastern Shore of Maryland compared in production with other, more profitable sections. Cows of the "Border" type are unprofitable. At some points in this district 15 cows are required to produce as much milk as is produced by 10 cows in some more profitable section. In other words producers with the smaller number of cows are producing milk at one-third less cost of care, operation, feeding, etc., than are those in this territory.

It is not increased production that is required, but efficient production. The same quantity of milk produced at a lower cost means more profit for the producer. Increased production would be dangerous, but the same volume of production from a smaller number of cows means more profit for the producer.

"MY MARYLAND"

The entire country has surrendered to the charm and the delightfulnss of "My Maryland," the Sigmund Romberg-Dorothy Donnelly operetta which comes to the Maryland Theatre, Baltimore, for its farewell appearance for one week's engagement starting Monday, November 19, with matinees on Wednesday and Saturday. Seats for all performances are now selling and from the large demand at the box office, capacity audiences will no doubt previal throughout their farewell engagement here. In "My Maryland" there is a male chorus of forty trained voices besides the sprightly ensemble of 30 lovely girls, making the chorus one of the largest ever seen in a musical attraction.

Mr. Romberg, who wrote the score, has to his credit such successes as "Blossom Time," "The Student Prince" and "The Desert Song," but "My Maryland," his latest and newest operetta, surpasses his previous efforts both in popularity and magnitude of its splendor.

Sport continued good this week for Kent County duck shooters and on Monday the season's record was established at Cedar Point, when four shooters accounted for 93. At Ringgold's Point 40 odd ducks were killed.

Dr. Errol Fox, of the Washington College faculty, will address members of the Chestertown Rotary Club next Monday evening on "Chemistry." Dr. Fox is a member of the science department at Washington College. The weekly meetings of the Boy's Club, under the direction of J. Thos. Kibler, will soon be resumed as a part of the Boys' Work program.
