A MERRIER CHRISTMAS

The Post Office Department, in order to facilitate the handling of Christmas mail, has asked that business concerns in large centers suspend, so far as is possible, the mailing of quantities of circulars, catalogues, etc., from December 16 to 23.

If the public will cooperate to the extent of shopping early and mailing early it will help provide a "Merrier" Christmas for many an overworked postal employe, messenger boy, clerk and business man or woman.

DO YOU—?

This is a community in which each one of us is expected to do his share toward making it a better place in which to live.

Each member of the community should take an active interest in all local affairs. Each member should vote on election day. Each member should turn out to every meeting where community development are being discussed.

It is only through such wholehearted cooperation that we can hope to build up and hold the future growth of this community at a mark of which we may all feel proud.

If you have been shirking even a small part of your civic duty in the past, make up your mind right now that for your own good as well as for the greater welfare of the community that you will do your full share in the future.

184,997 OWNERS OF PENNSY STOCK

The capital stock of the Pennsylvania Railroad reached a new high record for widespread public distribution on October 1, when 184,997 holders were registered on the company's books. This marked an increase of 30,582 in the number of stockholders as compared with the same date a year ago and an increase of 28,396 holders over the first of the preceding month. A large portion of this exceptionally heavy increase in the number of Pennsylvania shareholders represents new employe holders added to the lists during September as a result of the employes' stock allotment authorized by the Board of Dirtctors last May.

JUST DON'TS

Don't allow rubbish to accumulate on your premises, especially in your basement or attic. Clean property seldom burns.

Don't burn trash or rubbish near buildings or fences, nor permit children to do so.

Don't put ashes in wooden boxes or against wood. Use metal cans.

Don't change electric wiring without consulting a competent electrician. Don't hang electric light cords on nails or metal.

Don't fail to place metal protections under all stoves or furnaces that are close to walls or bins.

Don't pass stove pipes through ceiling, roofs or wooden partitions.

Don't neglect to have all flues cleaned, examined and repaired at least once a year.

Don't fail to provide screens for open fireplaces.

Don't use gasoline or benzine to clean gloves or clothes in the home.

Don't use kerosene, gasoline or other explosives in starting a fire.

Don't use liquid polishes near open lights. Many contain inflammables.

Don't thaw frozen water pipes by applying a torch or open flame of any kind. Wrap loosely with cloth and pour on hot water.

Don't go into closets with lighted matches or candles.

Don't forget that there is always danger in discarded cigar and cigarette stubs.

Don't allow the "Strike Anywhere" match in your house, use only the Safety "Strike on the Box" match and keep these away from the children.

Don't allow the children to have so-called safe fire-works, especially the sparkler, the base of which is iron wire and it gets red-hot.

Don't under any circumstances allow children to play with fire inside or outside the house.

Don't keep oily mops or oily rags in the house. Keep them in metal containers outside the house.

The Breath of Despair

The youth bent closer—
Her warm breath made him dizzy--
For he was putting on a tire
Near the exhaust of his Lizzie.

How many bees are there in a hive?

The number of bees in the average hive during the time of storing surplus honey is between 50,000 and 75,000. During the fall and early winter the colony decreases in number and by spring it is usually reduced to 10,000 or 15,000.

BOOSTER NEWS

What is this Booster Club? And who is in it? These questions are heard often. Well it is composed of 45 active members, 135 associate members, 96 members of Ladies' Auxiliary, 32 band members together with an operating unit for the Kent County Ambulance.

The additional members are those who are interested in the company and are willing to lend their financial support whenever called upon.

Now the object has been explained before, but in order to bring it to your attention more fully, let it be said, it is for the purpose of creating more interest in all tre different units of the company and to raise sufficient funds to pay all necessary expenses for the company with Band and equipment to attend the Annual Firemen's Convention to be held in Baltimore City in June 1930.

We as a company desire to make a creditable showing on this occasion as one of the representative companies of Kent county and of Chestertown. Special pains will be taken to bring this fact to the readers of the Baltimore, Wilmington and Philadelphia papers.

Our subscriptions are coming along fine, but many have not complied. Our present expenses of the club have all been paid leaving a fair balance on hand. Kindly let yours come in promptly.

BOOSTER.

TWO-ACRE TURKEY RANGE PRODUCES 1500 BIRDS

The world has beaten a path to the Layher brothers two-acre turkey range near Jackson, Mich. For seven years they have been raising from 500 to 1500 turkeys successfully on the same small piece of ground. They have been able to show up the orthodox theory of wide range and fresh fields by religiously practicing sanitary measures during the first ten weeks of brooding. Their success has instigated 20 other turkey ranches.
