SECTION TWO

VOL. 90. CHESTERTOWN, MARYLAND., SATURDAY, AUGUST 30, 1930 NO. 18

Farmer Cornstock was showing a City Feller over the farm. "How many sheep do you think are in that flock " he asked.

After some hesitation the visitor replied: "Oh, about 500."

Farmer Cornstock was astonished. "Absolutely correct." he declared. "How did you do it "

"Well," the City Feller explained, "I just counted the legs and divided by four."

Two Frenchman were discussing theirwives. Said one: "And you mean to say that you let an American tourist kiss your wife and you didn't say a word "

"What could I say?" replied the other. "I can't speak English."

GALENA VICTOR IN 10 INNINGS

Ten innings were necessary to settitle the argument between Galena and Middletown, of the Chesapeake Bay League, and only a wild throw by Williams, catching for the visitors, enabled the home team to break the tie, with the tally by Clendaniel. He had batted for Hadley and was stealing second when the heave by Williams into center field cleared the way for a quick score Galena won, 6 to 5.

Armstrong, hurling for Middletown, was relieved in the fifth inning after two runs had been scored and with the bases loaded. Rawley allowed two more runs. In that inning Peacock singled and stole second. Followed by a single by Lockwood and another by E. Coleman, N. Coleman walked, as did J. Johnson. R. Woodall and Bill Johnson followed with clean hits and four runs crossed the plate before Rawley halted the scoring.

For the home team R. Woodall and E. Coleman garnered two hits apiece, while for Middletown Armstrong, Jolls and Rawley were the heavy swatters.

Loller Hurls Steadily

Steady hurling by Loller, veteran moundsman of Kennedyville, held St. Georges flingers to three runs and the Maryland nine tallied five markers against McCarthy's offerings in a game which was marked by unusual fielding.

Newark Stops Cecilton

Newark earned a 4 to 2 victory over Cecilton by virtue of heady pitching by Whiteman, backed by sterling support and a marked improvement in batting power.

Frank Bristow, on the mound for the locals, was unable to stem the hitting tide and lacked support.

Acadian Memorial

Grand Pre park, in Nova Scotia, has been established as a memorial to the Acadians, whose history is most familiar as a background for Longfellow's "Evangeline."

Hoover Prosperity Is Now With Us

Jouett Shouse, Democratic Executive Chairman, formaly opened the party's Congressional campaign in an oratorial broadside, radioed across the continent, assailing the party in power and particularly the policies of President Hoover.

Nearly a score of stations on the National Broadcasting hook-up carried the speech to millions of people, more perhaps than have heard a Democratic leader since the finish of the 1928 Presidential campaign.

The executive chairman recalled that Mr. Hoover had been in office seventeen months, that his party has been in complete control of the Government and that he has had every opportunity to achieve results with Congress sitting almost continuously

Conditions Are Listed

"And yet what do we witness in America today after this trial period of the great engineer in government," Mr. Shouse asked. His answer to his question was:

"Business depression that has not been approached since 1907.

"Unemployment that finds no counterpart in thirty years.

"Anxiety and distress and absolute want such as the country did not face in the panic of the nineties.

'Fear in the hearts of the masses of the people as to what the future holds.

"Hopelessness on the part of the farmers that amounts to absolute desperation.

" Hatred of other nations because of our selfish economics that will influence them to buy nothing from us that they can buy elsewhere."

"Within the ranks of the Republican party itself we find such division as has not existed since 1910 and 1912," he asserted.

"We find a group of insurgents elected as Republicans to the Senate, the most bitter critics of the existing Administration.

"We find hundreds of thousands of farmers in every section, lifelong adherents to the Republican party . . who say that where they have asked for bread they have been given a stone.

"We find wage earners from New England to California, from Maine to Florida, once seduced by the delusion of the full dinner pail under Republican rule, now treading the streets of our cities in vain search of employment.

"And this, if you please, with the unquestioned and overwhelming dominance of the Government by the party that has prided itself upon the slogan that it is the 'only party fit to rule'; this under the Administration of the man who promised that if elected President he would abolish poverty—the poorhouse would vanish—there would be a job for every man."

Jewish Atonement Day

"Yom" is Hebrew for "day" and Yom Kippur means day of atonement. It is the tenth day of October and is observed by the Jews by fasting and continuous prayer for 24 hours.

Old New York Landmark

The old Madison Square garden in New York was the site of the Hippodrome, opened in 1873 by Barnum. This was supplanted by Madison Square garden in 1879. This location was the original site of the old Harlem railroad station.

BAY BRIDGE PROJECT STILL IS MUCH ALIVE

Although taking care not to block the path of private initiative in the liking of the Eastern and Western Shores, Governor Ritchie's Chesapeake Bay Bridge Commission is collecting data for recommendation to the next Legislature on State action toward spanning the bay, B. Howard Griswold, Jr., chairman, said Saturday.

Mr. Griswold said compilation of the data had not reached the stage from which the commission's probable recommendations could be deduced. He added that they would be submitted to the General Assembly only if the commission was satisfied that private interests would be unable to undertake the task.

Asserting that the commission had not abandoned hope yet that the project would be carried through to completion by private capital, Mr. Griswold pointed out that the ample labor supply and lost cost of building materials made the present opportune for embarking on construction of a bridge across the bay. He said he understood private interests were delaying action until the bond market improved to a point where they could finance the project more readily.

Mr. Griswold, who emphasized that the commission was not committed to any definite location for or means of linking the two shores, but was formed to study the entire situation, pointed out that the building of a bridge between Millers Island and Tolchester by the State would increase the State debt $10,000,000 to $12,000,000, or approximately fifty per cent., and boost taxes commensurately.

He explained that three courses were open: The spanning of the bay by private enterprise, by private enterprise with State aid or by the State itself, and emphasized the necessity of giving private initiative every opportunity to handle the project, adding that if the State undertook to span the bay at one point and private enterprise at another, the two projects undoubtedly would work out to their mutual detriment.

In 1927 the General Assembly authorized the Chesapeake Bay Bridge Company, formed in 1926 with W. Roscoe Bonsal as president, to build a toll span from Millers Island to Kent county. The company also obtained Federal approval.

Facts and Figures on Your Telephone

By EDWIN F. HILL

Edwin F. Hill

Out-of-town telephone calls are on the increase. President Walter S. Gifford, of the American Telephone and Telegraph Company, in a recent statement to the stockholders, says that the number of long distance messages has continued greater than a year ago, the gain during the second quarter of 1930 being slightly larger than that of the first quarter. Telephone users in this country are now making more than 3,525,000 out-of-town calls daily, which is an increase of 253,000 over the number made each day a year ago. This increase in telephone calls is an indication that the service is good and that given adequate facilities people will avail themselves of the opportunity to talk to their business and social acquaintances both at home and abroad.

Capital expenditures for additional plant facilities to provide service of the highest quality and to meet the continuing and prospective growth of the use of wire communications this year, Mr. Gifford says, have exceeded those for the same period of 1929.

The volume of general industrial activities for the first six months of 1930 has continued distinctly below the record levels of 1929, although comparisons with performances in 1928 have not generally made an unfavorable showing, the company having earned $5.71 net income per share for the six months ending June 30, 1930, as compared to $6.15 for a similar period in 1929.

Four Times Honored

Andrew Johnson, seventeenth President of the United States, was the only man in American history t[illegible] tain all four kinds of offi[illegible] Constitution—legislati[illegible] itary and executive [illegible] tailor.

Farmal Price
REDUCED!

We have just received a big piece of power farming news—the McCormick-Deering FARMALL price has been cut $50, and we are at once passing the information on to our customers. The Harvester Company's announcement says:

"We are glad to be able to make a reduction in the FARMALL tractor price at this time because right now t[illegible] farmer is seriously in need of anything that will help hi[illegible] to cut down his costs of crop production.

"Due to manufacturing economies and anticipated redu[illegible] tions in material costs, we were able to reduce prices on [illegible] McCormick-Deering implement lines, effective for [illegible] present season.

"Recently, by the same process, we lowered the price [illegible] the 10-20 McCormick-Deering tractor $40, and cut the 15[illegible] tractor price $75.

"Now, to complete our program of reductions, we announce a $50 cut in the price of the FARMALL.

"These price reductions, made during recent months, mean a saving to farmers of millions of dollars.

"As the original all-purpose tractor the McCormick-Deering FARMALL has won tremendous popularity. More than 100,000 FARMALLS have been built. Already this tractor has created a real revolution in farming. It is the best investment a farmer can make.

"The new price, $825 f. o. b. Chicago, is the lowest ever placed on the FARMALL."

You have probably seen the FARMALL Tractor at work. If not we will demonstrate it at any time, on any job. The FARMALL replaces 6 to 10 horses and 2 to 8 men. It plows 7 to 9 acres a day—double disks 18 to 25 acres—drills up to 45 acres—plants 24 to 46 acres—cultivates 33 to 50 acres and, in later cultivatings, 50 to 65 acre. It handles every farm power job, including row-crop operations. Put the best tractor power to work now—at the new FARMALL price!

If it isn't a McCORMICK-DEERING, it isn't a FARMALL
