A MEMORIAL BRIDGE

The KENT NEWS adds its influence to the efforts being made by Dr. G. Allen Jarman, Senator S. Scott Beck and others to have the bridge over Chester river known as the MEMORIAL BRIDGE. A memorial to the boys from Kent and Queen Anne's who served their county in the late war. A tablet might be placed on the abutment of the Kent side for the boys of this county, and likewise on the other side a tablet for the Queen Anne's boys.

Twenty-five thousand fresh soldiers' graves will be added to the total over which the nation will mourn on Memorial Day this year.

This number of World War veterans have died since last Memorial Day. An average of 70 World War veterans having died each day during 1929, a large part of them from results of their war service.

More than 70,000 veterans were confined to Government hospitals during 1929. A large percentage of these received no government compensation and left dependent families at home, adding another heavy load to the welfare burden of the Legion and Auxiliary. The principal source of income for the support of this welfare work is the annual sale of memorial poppies to be conducted by the Auxiliary this year the Saturday before Memorial Day. The poppies, which are made by disabled veterans, are worn in honor of the war dead and every penny which the public pays for them goes to the relief of the war's living victims.

There is little that we can do to perpetuate the memory of the lads who gave their all and inasmuch as there is no monument of any kind in Kent it seems that here is a splendid opportunity to memorialize these soldier boys. It is hoped the Governor upon his visit here Monday will get back of the project.

While the temperature factor of last week was favorable for the growth of crops, they made little progress owing to the lack of moisture. No substantial rain has fallen since the moderate showers on April 6 to 7.

Last May the first seven days saw .66 of an inch of rain, while this year there has not been more than a few drops on one occasion, with a thunder storm in the distance.

Last week the thermometer reached 93, the highest point so far. In 1929 the highest point reached was 94 and this happened on three days in July and on two days in September. The mean maximum for May last year was 73, but this year May has eclipsed this so far. Only on one day, the third, has the mercury failed to go above 73 during the present month. In fact the mean maximum temperature for the month so far is nearly 86.

The weather bureau has promised showers on several days recently, but failed to materialize. Dusty roads fill the homes with dust, and the housewives find it difficult to keep the places clean.

Farmers are unable to plow, and those who put off plowing find they are unable to do much now.

Score of fresh slant on the prohibition problem.

The government moved last week to suppress the sale of paraphernalia for liquor manufacture.

The drive is being undertaken under the Supreme Court decision that distribution of such equipment is illegal under the Volstead law.

Prohibition Commissioner Doran announced the step saying the action of the Supreme Court in upholding the seizure of bottles, casks and corks in Pittsburg, on the ground that they had been displayed to attract purchasers, who intended to use them in manufacture of illicit liquor, gave the bureau an effective weapon to proceed against every large concern producing such articles.

After the big dealers are "wiped out." Doran said the bureau would "go down the line."

Our first job is to proceed against the big supply house of paraphernalia for commercial home brew and for aging moonshine liquor," Doran said.

All of which may mean MUCH or very, very LITTLE in the scheme of practical and sensible ENFORCEMENT.

RESCIND ORDER MAIL HOURS

Postmaster William G. Smyth announced that the Post Office Department has rescinded its order requiring the mail truck over the Elkton-Chestertown motor route to leave Elkton one hour later than usual and the original service which puts the mails here at 8.45 A. M. is again effective, with Monday last.

The postmaster also announced that effective June 1 there will be a consolidation of the rural routes from the Chestertown Postoffice, by which one route will be abandoned, and its territory divided among three other routes, which it is claimed is being done in the interest of more efficient service.

SHORE DECLAIMERS FRIDAY EVENING

Contestants from the nine Eastern Shore counties will compete here on Friday evening in the annual Eastern Shore Interscholastic Declamation Contest as sponsored by Washington College. The concert was under the direction of Professor John D. Makosky.

The contestants entered thus far are:

FIRE TRUCK HAVE THE RIGHT OF WAY

In response to inquiries made by State Automobile Commissioner E. Austin Baughman, Attorney General Thomas H. Robinson has ruled that according to an act of the Legislature a fire truck shall be given the right of way on the public highways of the State whether it be proceeding to or returning from a fire occuring in town or country districts. Several violations of this law here have recently resulted in heavy fines being imposed upon violators by police justices in Chestertown.

THREE STILLS NEAR GOLT, MD.

Federal agents raided a distillery near Golt, Md., Wednesday, and arrested John Nicklas, aged 33 years. The still was discovered in a woods four miles west of Townsend, and was in full operation. Niklas was arranged Wednesday night before U. S. Commissioner Polk, and pleaded not guilty of manufacturing and possessing liquor. He was held in bail of $3,000 and security being posted for that amount, will appear for trial at the June term of Federal Court. This is the first case in Wilmington under the new ruling on possessing utensils designed to evade the dry law. The raid yielded 1,000 gallons of mash, 12 gallons of alleged finished whiskey, two 35-gallon stills complete with equipment, a large quantity of apparatus used in the distillation of whiskey and two stoves on which the ash was cooked. The plant was hidden in the woods and also contained a fermenter, two 400-gallon mash vats and thirty-seven 50-gallon barrels. Nicklas, who was sitting outside the door of the place, did not see the raiders until they were about 20 yards from him. He beat a hasty retreat into the woods and was captured within a few minutes by the agents.
