DEAL AT HOME WHEN POSSIBLE

Realizing the importance to any community of home-town merchants and business men, The Wilmingtonians, Inc., of "the first city of the first State" first of all urge people here to "buy at home."

Such a message is contained in a display advertisement of the Wilmington organization appearing in today's issue of this newspaper. It is part of a campaign being conducted by The Wilmingtonians, Inc., to increase the trade in the Delaware metropolis both from its own citizens and from the people living in Wilmington's trading area.

The policy of urging people in communities in her trading area to patronize their own business men first is only fair and proper, an announcement from The Wilmingtonians, Inc., states, as this is exactly what that organization is trying to do in its own city.

The Wilmingtonians, Inc., is composed of a group of nearly 150 business and professionl firms and individuals in Wilmington, who have raised a fund of nearly $30,000 to acquaint their own people with the merchandise and services offered there, to build up business from Wilmington's trading area, and to "combat the forces of depression."

The organization, therefore, suggests to local people that they come to Wilmington for those goods and services which they cannot secure at home. The variety of excellent transportation facilities and the wide range of progressive stores and other business establishments in Wilmington are pointed out as things which make shopping there pleasant and satisfactory.

The 151 st anniversary of Barratt's Chapel will be observed Sunday, Sept. 27th, at 2 P. M.. Rev. T. J. Sard, of Asbury Immanuel Church, Crisfield, Md., will preach the sermon.

STUDEBAKER

One by one, the most vaunted hill-climb records of America have fallen before a Free Wheeling Studebaker President Eight, certified by American Automobile Association officials as strictly stock in every particular!

These records effectually settle the question of championship hill-climbing ability just as Studebaker's famous run of 30,000 miles in 26,326 minutes settled the question of speed and stamina superiority.

There is no other such combination of *everything* you want in a car . . . why be content with less than a Free Wheeling Studebaker?
