TOPDRESS WHEAT, HAY LAND AND PASTURE.

It has been demonstrated repeatedly that an economical way to secure increased yields of grain, hay and pasture is to top dress them with a quick acting fertilizer carrying nitrogen or ammonia.

The fertilizer should be applied at once—the sooner the better. The County Agent will confer with any who desire to stimulate growth, and yield to help overcome any "setbacks" incident to the 1930 drought. Take advantage of the results of modern recent research.

Now . . .

Gorham Sterling flatware

as much as

33⅓% less

---than last year's prices

Unprecedentedly low silver bullion costs have made new, amazing low prices possible.

Now fine Gorham sterling flatware is astonishingly close to the price of plated ware.

We can show you famous Gorham patterns at these new low prices. Buy before bullion rises again—here are some typical savings over last year's prices—

	Last Year	Now
12 Fairfax teaspoons	$22	$15
12 Etruscan dinner forks	69	46
12 King Albert butter spreaders	29	20
12 Dolly Madison salad forks	35	24

437 CITIES CHANGE TIME

Watches and clocks of millions of persons will be an hour fast for five months, beginning Sunday.

In 437 cities and towns of the nation, most of them in the eastern states, daylight saving time becomes effective at 2 A. M., Sunday. At that hour up-to-the-minute clocks, in theory at least, should register 3 o'clock.

Daylight time will be observed in New York City and in 177 other communities in the State under local option. Of the larger cities of the State two, Rochester and Syracuse, will continue on Standard time. Almost all communities in New Jersey will advance the clocks, as will many in Massachusetts, Rhode Island and Connecticut. Railroads, except those which carry commuters, will stick to standard time.

The system will remain in effect until the last Sunday in September, when the hour lost in sleep tomorrow will be picked up again. Advocates of daylight time agree that it provides cool morning working hours decreases eye strain, and gives an hour more of recreation in the evening.

If you don't believe advice is free try building a hen coop in a town with about 150 population.

I'll betcha these here outboard motors were thought up by some feller who had just twisted a mule's tail.

REPAIRS

Now is the time to have your car put in condition for the summer.

We are prepared to repair all makes of automobiles. Our mechanics are experts and our shop is fully equipped.

We will give you a contract price on your work and our prices are reasonable.

CHESTERTOWN, MARYLAND

FORMER LOCAL LEADER HONORED BY HANDY ANDY 4-H CALF CLUB.

Members of the Kent County Boys' 4-H Clubs are planning to prove that raising chickens and pigs, feeding calves, milking cows and raising gardens aren't the only things they can do. They are forming a baseball league with the help of Assistant County Agent Stanley B. Sutton.

A regular schedule which will take in every 4-H Club team of the county is being worked out and will begin on Saturday, May 2nd, when the first two games of the season will be played at Millington. The Kent 4-H Clover Calf Club team will meet the Millington 4-H Boys' Club team at 1.00 P. M., following which they will play the Handy Andy line up on the same diamond.

The Kent 4-H Daisy Calf Club team of Worton is getting in trim and will play their first game Saturday, May 9, other clubs will have teams in the league and a real contest is anticipated.

Only boys who are active club members will be allowed to play on these teams.

What a world this is! By the time a big business man is able to take two hours off for lunch the doctor limits him to a glass of buttermilk.

TARIFF MAY HAVE ADVERSE EFFECT ON CANNERIES

Kent canners and growers of tomatoes are going to be very seriously affected if the United States Tariff Commission marks a big reduction in the tariff rate on canned tomatoes.

F. M. Shook, secretary of the Tri-State Packers Association is alive to the danger, and is on the job as he always is when his industry is threatened.

The importation of Italian canned tomatoes fell more than fifty per cent between 1929 and 1930. The decrease was caused by the duty, which was raised from fifteen to fifty per cent. Italian importations canned tomatoes in 1929 totaled 150,199,541 pounds valued at $7,716,485.

The large importations in 1929 were made in the belief that the duty on canned tomatoes would be raised, the Senator declared and the subsequent decline was caused by an increase tax

The proposal to lower the duty, if made effective, will result in another rise in the quantity of imported tomatoes, it is asserted.

KENT 4-H BOYS' CLUBS TO FORM BASEBALL LEAGUE — FOUR ENTERED AT PRESENT.

The Handy Andy 4-H Calf Club at a special meeting held at the home of Mr. and Mrs. John C. Dixon, of near Massey, last Wednesday night, April 22nd, had as their guest their former local leader, George Clendaniel.

Mr. Clendaniel helped organize the club last year and worked faithfully with them until his appointment as Assistant County Agent of Harford County the first of March, this year.

In spite of the rainy evening, 22 members were present and a very interesting program was entered into by all. Mr. Clendaniel told of 4-H Club Work in Harford County and of how glad he was to meet with the Handy Andy Club again. President Richard Sutton presented Mr. Clendaniel with a little gift, a token of their appreciation of what he has done for them.

All joined in singing songs and a real fellowship such as only 4-H Club members can know followed.

Mrs. Dixon served cake and lemonade and all went home having gained much inspiration from the meeting as in the song—"The More We Get Together, the Happier Are We."

RAPE FOR HOGS AND SHEEP

A very popular grazing crop for hogs and sheep is Dwarf Essex Rape—a member of the cabbage and turnip family. Dairy cows will eat it readily but it taints the milk. If grazed by cows at all, it should be for an hour or two just after milking—even then it may taint the milk occasionally.

Use six to eight pounds of seed (Dwarf Essex variety) per acre. It can be sown in rows or broadcast. Seed can be sown now and in six weeks time (six to eight inches in height) it should be ready for grazing by sheep and hogs. Sow several lots—and rotate from one lot to another, so as to give it a chance to recuperate after grazing it down (not too closely). Seed is inexpensive. It furnishes much succulent feed.

Kent countians entering 4-H Pig Club Work or Litter Contest would do well to provide this cheap source of abundant green feed. Properly handled and grazed in rotation, it should furnish feed from June 1st until late autumn.

Alaska extends farther West than Hawaii; part of it is farther South than Germany.

In 1754 Benjamin Franklin became interested in Florida and wrote a long article in the Post (Sat. Eve.) about it.

Bridgeton, N. J., reports a duck that lays black eggs.

CHESTERTOWN SCHOOL NOTES

MISS KERSEY'S CLASSES:—Miss Kersey is a busy teacher this month what with her ninth grade just putting their finishing touches on "Interior Decorating" and beginning sewing. The Juniors are studying balance rythm, and harmony in relation to costumes, while the little Freshman here comes the best part-are preparing to plan and serve a full course breakfast. Miss Kersey, are you inviting anybody?

THERE'S MUSIC IN THE AIR!—Ivon culver, Senior, has turned "Beethoven". Ivon very recently composed a dandy school song that just sets you to humming it without stopping. (You know how some of those songs sort of "stick" in your head) There's a boy who is starting young.

COMING to school Monday morning I saw Mr. Duyer planting some sort of a plant with Mr. Blades standing and watching on.

"Mr. Blades," I questioned, "What kind of trees is Mr. Duyer planting

"Trees!" Mr. Blades echoed, "Those aren't trees Ruth, that's hedge! To think that I don't know the difference between trees and hedges!

Monday morning (I'm taking you through the whole day) Dr. Simmons appeared with his little black box (not filled with pills) and took the picture of the Dramatic Club, Volley Ball Team, Baseball Team, and the principal's in the Senior Class Play. These pictures are going in the Dragon the year book put out by each year's Senior Class. This year's Dragon promises to be an exceptionally good book.

Miss Gitez is secretary of the Tennis Club?

THE faculty and pupils of C. H. S. thank Mr. Leon Brown for his generous donation towards the cost of making the tennis courts. We surely do appreciate both his services and donation.

THE Eastern Shore Division of the Home Economics Association is to entertain the Home Economics Association at Easton, Saturday, May 2. Luncheon is to be served in the Easton High School Auditorium. After luncheon they are going to tour some sections of Talbot county, visiting some of the old colonial homes.

MISS Katherine Scarborough, author of "Homes of Valvaliers," will give an address on "Some Historical Old Homes of the Eastern Shore of Maryland.

Miss Hadaway and Miss Kersey, representatives of Kent county, are on the receiving committee.

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

POULTRY RAISERS MEET JUNE 18TH

With a committee composed of John H. Chambers, of Centreville; Wyatt Pickering, of Denton; Lloyd Holsinger, of Denton; Mrs. W. W. Rambo, of Sudlersville, and Ernest W. Grubb, of Centreville, and Ernest W. Grubb, of Centreville, final plans for the Summer meeting of the State Poultry Association at Pioneer Point Farms Centreville, the home of Mrs. John J. Raskob, on June 18 were completed at a meeting held in Centreville.

W. H. Rice, poultry specialist of the University of Maryland also served with this committee. Governor Albert C. Ritchie and Dr. Raymond A. Pearson, president of the University of Maryland, will be invited to attend. This will be Dr. Pearson's first appearance in Queen Anne's County as president of the State University.

John T. Bruehl, Letha E. Taylor and Mrs. W. W. Rambo were made a committee to have charge of the sale of box lunches. It was decided that a fifty cent box lunch will be served on the ground, and it is said that the American Legion is now interested in arranging for this concession. Funds derived from this source will go toward the purchase of crops for Queen Anne's county's next poultry show scheduled for December.

Plans were formulated for an attendance of 1,000 people at the meeting which will be the first Summer meeting staged by the State Poultry Association on the Eastern Shore.

The program will be divided into a morning and afternoon session. During the morning session, Governor Ritchie, Dr. Raymond A. Pearson and Dr. Thomas B. Symons, director of the Maryland Extension service will deliver addresses.

The afternoon program will comprise lectures by three nationally known poultry authorities who are now being invited by the State Poultry Association to speak at this meeting.

France has a Minister of Tourism, an office established by the Tardieu cabinet, whose business it is to see to improvement in rail facilities and other things which draw more tourists.

If the farmers ever get back on their feet it is certain they will think twice before again asking the government for relief.

PRUDENTIAL'S LATEST POLICY

"The Modified Whole Life and 20-Year Term Policy—with Change of Rate at End of 3 Years and at End of 20 Years"

This official title is necessarily technical but—

Read the following annual premium rates for $10,000 insurance during first 20 years and $5,000 insurance thereafter

AGE	First 3 Years	Next 17 Years	After 20 Years
20	$96.00	$112.95	$71.20
30	121.50	142.95	94.40
40	179.70	211.40	135.45
50	309.00	363.50	205.75

(Premiums Payable Quarterly, Semi-Annually or Annually)

The policy calls for an increase in the premium after three years, but dividends also begin at the end of three years. While future dividends must depend entirely on future earnings, the current earnings of the Company are sufficient to provide dividends at least equal to the increase in premium

This policy will enable the man who has dependents to secure more nearly adequate protection during the years they most need it and at a price he can afford to pay
