MOTH OF CORN EAR WORM IN SOIL

Last year, because of the drought, the ravager of the corn ear worm were quite severe in corn, beans and tomatoes. The worm went into the ground last fall and are now in the pupae stage in large numbers.

They will soon come out in the form of a moth to lay eggs which will cause a heavy infestation of the corn ear worm this summer.

Tillage of land cropped in 1930 in corn, beans and tomatoes now or any time during the next two weeks will destroy most of the moths and thus greatly reduce the crop of corn ear worms. This is a "step in time" control measure that will reduce crop losses. "Prevention is cheaper than Cure."

TWO HURT IN CRASH

Edward H. Dittman, a barber of Chestertown, Md., is in Delaware Hospital, in Wilmington, and Mrs. E. L. Cranor, also of Chestertown, has been returned to her home, both suffering severe injuries in an automobile accident near Mt. Pleasant, on the du Pont highway Sunday. Mrs. Cranor was removed from the hospital to her home Sunday afternoon in the ambulance of Chestertown.

Mr. Dittman had severe cuts and bruises about the body and lost temporary use of his leg. He will remain at the hospital until the extent of his injuries have been fully determined Mrs. Cranor has an injured chest, and hand, and injury to one eye.

Mr. Dittman left Chestertown Sunday morning for Wilmington to spend the day with relatives and bring his wife, who has been on a visit there, home. Mrs. Cranor, who is a friend of Mrs. Dittman, went along. The three expected to return at night after spending a day with friends and relatives.

Near Mt. Pleasant Dittman says he made a turn and his car skidded, finally turning over twice. Passing automobilists rendered aid to the couple, and took them to the hospital.

A PICTURE of a ewe with six lambs has the following under it:

"What'd Mary do if she had all these little lambs?, Bobby Johnson, Jr., wants to know. He is looking over the sextuplets born to the six-year-old Ronney ewe on his father's farm near Woodland, Calif. All the lambs are healthy and frisky. This ewe's feat of bringing six lambs into the world at once is thought to set a new sheep raising record."
