Kent News.

Chestertown, Md. **SUPPLEMENT.** June 3, 1893.

Last of a Thrilling Incident!

Capt. Hill's Body Found — The Man who Went Down to a Watery Grave in a Dreadful Storm that Winter Night when his Companion was Battling for Life and Escaped!

The body of Capt. James S. Hill, of Hayden's, Queen Anne's county who was drowned in Chespeake Bay on the night of March 3, was recovered Sunday. It was identified by a handkerchief on which his name had been worked. James F. Strange and William H. Stewart, of Annapolis, who drove in a road cart near Bay Ridge with Major Medford, of Washington, were the first to discover the body

It was floating about twenty-five yards from shore, face upward. The three men at first thought it was a log and did not ascertain their mistake until the body had been brought ashore by the tide. Ninety-one dollars in money was found tied in the handkercheif. Several keys were also found in the pocket. The face was slightly disfigured, but the body was not decomposed.

He wore a gray gauze undershirt, brown corduroy pants and rubber boots. The body was carried to Annapolis and taken in charge by Undertaker Taylor. A jury of inquest before Coroner George Basit rendered a verdict of accidental drowning.

A reward of $100 and 10 per cent. of the valuables had been offered for the recovery of the body.

Captain Hill was drowned from the schooner Wishton-Wish, which was sunk by collison with ice. The vessel had started from Baltimore with fertilizer consignde to Beck & Walker, Chestertown, and encountered heavy ice five miles from Love Point. Captain Hill and Capt. C. R. Atkinson, of this town who owned the boat between them, were the only persons aboard. The latter, after a thrilling experience, having floated on a piece of ice more than two hours, was picked up by the tugboat Sidney. Since the accident several fruitless searches have been made for the body. Recently a coat belonging to Atkinson was found by an Annapolis oysterman, but nothing had been heard of Capt. Hill until his body was recovered Sunday.

The valuables were turned over to Sheriff Claude. Mr. Atkinson had stated that Captain Hill had in his pockets about $260.

Captain Hill came from Media, Pa., where his father resides. He leaves a widow, who was on a visit to her mother in Wilmington when her husband was drowned. Capt. Atkinson went to Annapolis Tuesday for the body.

A New Industry in Chestertown.

Mr. John S. Vandegrift, one of our enterprising young business men, has determined to go largely into the chicken business in Chestertown. He has been experimenting for sometime on a small scale, and being entirely successful he proposes now to branch out, and those who know him will readily understand the meaning of this. He seldom does things by halves. He proposes to have one of the greatest yards in the State, introducing the very best and most celebrated of the chicken breeds of the habitable globe. He has already secured some stock and a few days ago had a beautiful brood of the "Indian Game" hatched out. They are full blood and said to be the best stock in the world. He has refused $10 each for these little beauties. His Plymouth Rock and Wyandotte are also from first hands in the East, and indeed all his stock can be relied upon. Mr. Vandegrift is now negotiating for a lot or farm upon which will be erected the enlarged buildings, incubators, etc. There is no reason why an industry of this kind, conducted upon a large scale, should not pay handsomely. Capt. R. S. Emory, near town, is one of the biggest poultry raisers in the State and ships hundreds of chickens to the city before the old hen is thinking of setting.

THE fox hunters of Worton find lively sport in hunting a one-eyed fox. The fox recently ran into a cow and came close enough to two boys for one of them to strike him over the head. The dogs find it difficult to follow him on account of the many short doubles he makes.

THE directors of the First National Bank of Havre de Grace have given the employees of the bank two weeks vacaiton and expenses for a visit to the World's Fair at Chicago.

ASPARAGUS brought from $1 to $1.75 per dozen the past week. Some of the farmers in Kent have realized as much as $150 per acre raising "grass."

Don't forget the festivals. Read the dates in another column.

COLLEGE NOTES.

The graduates this year are W. F. Burns, of Talbot Co., A. M. Hanna, of Cecil Co., and E. A. Robinson, of Wicomico county. Their examinations are over and they are now enjoying the senior vacation. Messrs. Burns and Robinson will remain at the college until commencement. Mr. Hanna has already left.

Dr. Reid will leave for the mountains, of West Va., as soon as school closes; Prof. Micou will probably remain in Chestertown; Prof. Proctor will join his family in Illinois; Prof. Jones will probably take in the World's Fair; Prof. Clarke will go at once to Lake Bluff, Ill., to attend the summer school of expression conducted there by Dr. S. S. Curry in connection with the Harford summer courses. Lake Bluff is 30 miles from Chicago, and tri weekly excursions will be made by the School of Expression to the World's Fair. Prof. Burris will probably go to his home in Delaware.

The last game of ball of the season, on the home grounds will be played today. Md. Agr. College is the opponent. Game called at 2 P. M.

An article of over two columns in length relative to the recent game of ball between St. John's and Washington colleges appeared in the May number of *St. John's Collegian*. The following is a clipping containing all that was said about the game itself, the remainder of the production being description of the trip. Humor seems to be the predominant characteistic of the account, and the writer can assure himself that no part of it is more provocation of laughter than the following: The first innings were shut-out for both sides, but at last, about the fourth inning, on an error of Brady's, a run was scored for Washington. From this time, our third baseman and short-stop became demoralized, and lost the game for us by a score of 8 to 1. Jones pitched a *splendid* game, striking out *sixteen* men. He was well caught by Proctor. Dryden on first and Handy on the second have the remaining outs to their credit. Burris, for the Washington College, pitched a *fairly* good game, striking out *eight* men; but most of their playing was done by the basemen and short.

News from Quaker Neck.

Quaker Neck's prospect for peaches is good and if Friend Bartus Trew will examine a little more closely he will change his opinion in reference to a failure. And the colored preacher may reap a larger reward picking other people's peaches at so much per day than if he had a fine crop. We will have a fair crop, allowing an ordinary June fall, and from past experience we have no cause to expect an extraordinary June drop.

Mr. Thomas Cecil, on Capt. Robert Emory's Spaniard point farm in Queen Anne's, has the prospect for the largest crop ever grown on the place, which is saying a great deal. He laughs at the idea of there being any danger of further damage by frost and says nothing but a cyclone will interfere with a good crop.

Mr. Emory Crouch is building a fine store house and dwelling at Vickersville on the outskirts of Cliff City. It is forty foot front and twenty-two deep and will be one of the finest improvements of the season. It will be finished and stocked in time to get some of the peach money to which we are all looking forward.

Very few of the blue fish have been caught here so far this season. The fishermen are of the opinion that they are using the channel at present but will soon come in more shoal water. We will welcome their coming.

The oystermen are preparing to paint their boats and we may soon expect a series of races, or considerable talk about them at least. They all have fast boats but it is hard to get them at the racing business, as the wind never suits two boats at the same time.

There is a rumor to the effect that Prof. Stratton intends to remove to Rock Hall and enlarge his business. We shall be sorry indeed to part with our popular "Mayor."

Mr. Kinsey Thomas has almost recovered from the injuries received several weeks ago.

Bond M. E. Sunday school will hold its Children's Day exercises Sunday night and a very interesting program has been arranged.

The cut worm is playing havoc with corn in this vicinity. RAMBLER.

Items From Golts.

The six months old child of Mr. and Mrs. Mannering died last Tuesday morning. It has been suffering for some time past with some unknown disease. The remains were laid away yesterday in the cemetery at Blackiston, Del.

Mrs. Wm Hall is visiting her relatives in Dover, Del.

Strawberries have come at last. Quite a number have picked already. The prospects are favorable for a good crop. Z.

How to MAKE MONEY!

PROSPECTUS

—OF THE—

CHESTER LOAN ASSOCIATION.

THE CHESTER LOAN ASSOCIATION, located at Chestertown, Maryland, was incorporated in March, 1880, for forty years.

Its object and purpose is to provide a mutual plan for receiving and investing the savings of those who become members for their mutual advantage and benefit.

There are Two Thousand shares of stock, of the par value of two hundred dollars each, making a total capital of Four Hundred Thousand Dollars.

Any number of shares may be taken and paid for at the rate of fifty cents per week, two dollars per month of four weeks, or thirteen dollars every six months, payments to continue until the dividends, which are declared every six months and which average six per cent., added to the total amount deposited or paid in, amounts to the sum of Two Hundred Dollars per share, in about six years and three months, at which time the shares are redeemed, and the whole amount ($200.00 per share) is paid over to the holder.

Any share-holder may borrow, at the rate of six per cent. per annum, the amount of money he has paid in by hypothecating his shares of stock to the association.

Any share-holder may borrow the par value of stock ($200.00 per share) from the association by giving satisfactory mortgage security therefor.

The dues of fifty cents per week must be kept paid up, either by weekly, monthly or semi-annual payments, otherwise if the dues be in arrear there is imposed a fine of ten cents per share per week while such default continues.

New series of stock are issued twice a year, the first week in May and the first week in November, but persons may subscribe at any other time by paying the accrued dues from either of those dates.

You wish to buy a home—a residence—costing say from $400.00 to $1,000.00. You have a regular income of salary or wages of from $5 to $10 a week, or $20 to $40 a month, yet you find it almost impossible to lay by enough to purchase and pay for a home. You have no safe place to put away 50 cents a week, or $1 or $2 a week, where it will be earning you something all the time. Yet you continue to pay rent for a house until you have in a few years paid in rent more than the house cost to build it.

Now, this Chester Loan Association is the very friend you are looking for. Ten years rent at $50 a year is $500; yet at the end of the ten years the house is no more yours than at the beginning of the first year.

Now, if you can spare $1.50 a week, or $6.00 a month, from your wages or salary, take three shares in this Chester Loan Association.

When you have paid in your dues for a year select a good home which you can buy for about $600, cash. Then come and borrow the $600 cash from the association, pay cash for the house and give the association a first mortgage on it, and at the end of six years and three months from the time you first took the shares in the association—if you have kept up regularly the payment of your dues and interest—your home will be clear, your mortgage will be released and you will have saved six years rent and bought and paid for a home.

The person who borrows money out of this association gets his loan for less interest than from any other institution in the State, as the following explanation will show.

As soon as you have taken a share of stock you have the privilege of borrowing from the association $200, the par value thereof.

If you borrow $200 from the association, giving mortgage on your house and lot, the statement would be thus:

Amount Borrowed		$200 00
Costs of Loan, Solicitor for Preparing Mortgage, &c	$4 00	
Justice of Peace, executing	70	
President's Fee	50	
Clerk of Court, recording	2 00	
Total cost	$7 20	7 20
		$192 80
Less one year's interest, paid to association in advance		12 00
		$180 80

You continue paying in your dues of 50 cents per week, or two dollars per month, of four weeks, and at the expiration of one year, or the period you paid interest in advance, you begin paying interest to the association—one dollar per month—inaddition to your dues.

At the end of six years and three months you will have paid to the association:

Dues, 326 weeks, at 50c. per week	$163 00
Interest first year	$12 00
Do. 63 months	63 00
	75 00
Total paid to the association	$238 00

At the expiration of six years and three months the series your stock is in will expire, you stop paying dues and interest, your mortgage will be released, your debt of $200 to the association fully paid, and this is what it has cost you:

Amount borrowed	$200 00
Total cost during 6 years and 3 mos. on the $200, or 3 per cent per annum	$ 38 00

ITS SAVINGS BANK FEATURES AND BENEFITS.

The Chester Loan Association of Chestertown offers the best inducements for the deposit of small sums of money, from fifty cents a week upwards, of any institution in the State.

The interest or dividends actually earned and paid to those who have deposited with it during the past thirteen years has averaged from five and a-half to six per cent. per year.

The depositors receive as dividends all the earnings of the association, except legitimate expenses, which have never exceeded five hundred and thirty dollars in any one year.

The Chester Loan Association will receive your savings as deposits every Monday Evening of the year, once a month, or once every six months, as you choose; and every depositor, no matter how small the sum, receives a just proportion of all the earnings and interest made by the association, and the dividends are declared and placed to your credit every six months. So that if you deposit fifty cents a week, or thirteen dollars every six months, for six years and three months, at the end of that period you will receive back all the money you have deposited, namely | $163 50
Add also dividends, amounting to | 36 50
Making a total of | $200 00

A careful examination of this result shows that you receive for your deposits rather more than six per cent. compound interest.

The investments are made in the most careful and safe manner, under the care and scrutiny of the Board of Directors, composed of five of the most prudent and successful business men in the county, and the association, during the whole thirteen years of its existence, with its large capital of Four Hundred Thousand Dollars, has not charged off Two Hundred Dollars for losses.

During the thirteen years the association has been organized its members and depositors have saved up and deposited with the association | $416,201 71
And the association has earned and distributed among its shareholders and depositors dividends amounting to the sum of | $90,727 19

Of the above sums the association has disbursed and repaid to its shareholders and depositors as follows:

To those in the First Series, which ran six years and one month:

Deposits	$59,624 28
Dividends	16,175 72
379 Shares at $200 each	$75,800 00

To those in the Second Series, which ran six years and two months:

Deposits	$17,536 00
Dividends	4,463 80
110 Shares at $200 per share	$22,000 00

To the Third Series, which ran six years, two months and two weeks:

Deposits	$26,340 04
Dividends	6,459 96
164 Shares at $200 each	$32,800 00

To the Fourth Series, which ran six years, one month and four weeks:

Deposits	$20,243 80
Dividends	5,156 20
127 Shares at $200 each	$25,400 00

To the Fifth Series, which ran six years, two months and one week:

Deposits	$17,976 00
Dividends	4,424 00
112 Shares at $200 each	$22,400 00

To the Sixth Series, which ran six years, two months and two weeks:

Deposits	$46,278 75
Dividends	11,121 25
287 shares at $200 each	$57,400 00

To the Seventh Series, which ran six years, two months and two weeks:

Deposits	$26,619 47
Dividends	6,380 55
165 Shares at $200 each	$33,000 00

To the Eighth Series, which ran six years, two months and three weeks:

Deposits	$12,333 86
Dividends	3,066 14
77 Shares at $200 each	15,400 00

To the Ninth Series, which ran six years and three months:

Deposits	$13,838 00
Dividends	3,162 00
85 Shares at $200 each	$17,000 00

[Concluded on next page.]

SHERIFF'S SALES

For STATE & COUNTY TAXES.

BY VIRTUE OF AUTHORITY vested in me as Sheriff of Kent county, upon whom is laid the duty of collecting by process of law all State and county taxes for the year 1892 unpaid on the first day of April, 1893, in and for the said county, and under the public local and public general laws of Maryland, in such case made and provided, I have seized and taken in execution the following property situated in Kent county aforesaid, to pay and satisfy the State and county taxes due and unpaid by the parties to whom they are assessed; and

Notice is Hereby Given

to the owner or owners, or any other parties interested, that I will expose the same at public auction in front of the Court House Door, in Chestertown, Maryland, on

On SATURDAY, JUNE 3, 1893,

between the hours of 2 and 4 o'clock P. M., and sell to the highest bidder for cash to pay and satisfy the taxes due for the said year 1892, together with all interest and costs due and to become due thereon.

Second Election District:

Thomas Bennett—Lot of Land purchased of W. J. Guinnodo and containing 2¼ acres, on road from Chesterville to Urieville, adjoining land of David Clements and Thomas Hill, for county taxes due $4.90; State, 90c., together with interest and cost due thereon.

J. Nailor and J. Dorsey—House and Lot of Land purchased of Perry Reese and others as per deed recorded in Liber S. B., No. 6, folio 601, for county taxes due $5.44; State, $1.00, together with interest and cost due thereon.

Fourth Election District:

Marshal Jones—All that House and Lot in Chestertown on south side of Spring street, on which the county taxes due is $3.40; State, 63c., together with interest and cost due thereon.

Kitty Miller—House with improvements in Chestertown on which the county tax due is $4.37; State tax, 80, together with interest and cost due thereon.

At the same place, and on the same conditions, as above named

On SATURDAY, June 10, 1893

between the hours of 2 and 4 o'clock P. M., I will sell the following properties for taxes due:

Fourth Election District.

Joseph W. Thompson. All that Lot of Land in Chestertown, Kent county, Md., on the northeast side of High street, and between Kent street and College avenue, and designated on Lot No. 1 of the Watts lots, under direction of George Vickers, trustee, and conveyed to the said Joseph W. Thompson and wife by deed dated April 16, 1888, from John Strattner, and recorded among the land records of Kent county, in Liber S. B., No. 10, folio 457, etc., for county taxes due thereon, $32.01; State, $5.87; together with interest and costs due thereon.

E. J. PLUMMER, SHERIFF.

May 6, 1893—4t.
