EDITORS.

THERE should be no politics in the Water Board.

DEMOCRATIC and Independent Democratic primaries will be held in Queen Annes county today.

FORMER GOVERNOR Edwin Warfield has announced his intention to address his neighbors in Howard County to-day upon the present political conditions. The Governor's re-entry into politics is regarded as significent at this time, and there are many who are already predicting that Mr. Warfield will be the next Governor of Maryland. He made one of the best Governor's Maryland ever had and his friends in the State are legion.

AFTER ONE of the hottest primary fights ever known in Dorchester county the Pittison-Harrington faction of the Democratic party gained a sweeping victory over the Henry-Applegarth, or Organization faction on Saturday. Pattison carried 11 of the 17 districts which insures his nomination for Chief Judge and Emerson Harrington will be the candidate for State Senator. The fight marks the passing of Judge Henry and former Senator Applegarth in politics, and the result of the primaries was a great jolt to the Democratic organization.

THE TOWN COMMISSIONERS visited the backyards and premises of the householders on Friday. In many instances they found everything clean and in proper sanitary condition. This was particularly so of the premises of the colored people. In some places, however, the commissioners found matters in a terrible condition. One of Mr. Barroll's lots, had, unknown to him, been made a dumping ground and was n bad condition, while other places showed evidences of carelessness. As a rule, however, we believe the people of the town are exercising all the precaution necessary to keep their surroundings free from disease breeding accumulations, and are doing everything necessary to prevent an epidemic. This is the only way to prevent disease. Keep clean; keep your yards and premises clean, and do not become unnecessarily alarmed over conditions which do not exist.

Condition of Drinking Water.

A thorough analysis of the town's drinking water has been made at the suggestion of the health authorities, due to the prevalence in our midst of what is pronounced typhoid fever in mild form, and Dr. Simpers has heard from the chemical analysis of the water in the artesian well and the pool. The water in the well is analyzed as perfectly pure, and the water in the pool is pronounced suspicious on account of the presence of nitrates, but there were no indications of typhoid germs. Dr. Simpers, however, has ordered the water board to discontinue using the water in the pool for the present in order to avoid any possibility of causing trouble. This means a lessened supply of water for the time being, and all water users are urged to be as careful with the use of the water as possible, because the town is deprived of the use of about 30,000 gallons a day due to the stoppage of the pool. For this reason the sprinkler has not been in operation during the week, but an arrangement is being made with the superintendent of road work, Mr. Adkinson, whereby both he and the town sprinkler may use the water from the new well for sprinkling purposes. Mr. Adkinson proposes to place a pump at the new well and pipe to the foot of the hill at the pump house to fill the sprinkler which is being used in the construction of the new State road near town, for the free use of the water, and this arrangement will be permanent and will enable the town to utilize the water in the new well without being forced to use the drinking water for sprinkling. Other plans are being discussed by the water board to enlarge the capacity of the artesian well. Meanwhile we urge every one in the town to boil their drinking water. It is well to exercise every precaution, and it is very little trouble to boil the water.

State Health Officer Marshall Price and Dr. Rohrer were in consultation with all the physicians of the town on Tuesday evening ascertaining the character of the cases and the sanitary condition of the town together with the water and milk supply, and everything is being done to prevent the spread of the disease and to eradicate its causes. The milk dairies of Mr. Walter T. Morris and Col. Albert Story have been inspected and found to be in splendid condition, but the source of the trouble is found to be in the lower pool of drinking water, which, owing to an undiscovered leak, allowed the surface water to get in and contaminate the water. The pool has been shut off and it will be repaired at once, and the pool thoroughly cleaned before using. There is nothing wrong with the milk supply, and all foolish and false reports which are sure to injure the town should be stopped. The cause of the disease has been found and the physicians have it under control.

PUBLIC SALE
—OF—
PERSONALTY

A. COHEN,
Sandy Bottom Department Store.

COOKING EXHIBITION
—OF THE—
Great Majestic Malleable and Charcoal Iron Range, One Week,
AUGUST 2d to 7th.

FREE! $7.50 SET OF WARE.

With every Majestic Range sold during this Cooking Exhibition we will give, absolutely FREE, one handsome set of ware as shown. This ware is worth $7.50 if it is worth a cent. It is the best that can be bought. We don't add $7.50 to the price of the range and tell you you are getting the ware free, but sell all Majestic Ranges at the regular price. You get the ware free. Remember, this is for exhibition week only. Ware will not be given after this week. This ware is on exhibition at our store, and must be seen to be appreciated. Come in any day during the week. Make our store your headquarters. Have coffee and biscuits with us.

Come, if you intend to buy or not; the information gained will serve you in the future.

FACTS
About the Great Majestic RANGE.

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickeled Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material, there is practically no expense for repairing the Majestic.

As for baking, it is perfection; not only for a few months, but for all time to come.

A GREAT MAJESTIC RANGE lasts three times as long as a cheap range, but it don't cost three times as much.

PROOF—We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic Ranges are made, will prove to your satisfaction that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.

EVERYBODY WELCOME!

H. R. GRAHAM & BROTHER,
CHESTERTOWN, MARYLAND.
