and look the line over while we have a fair line as we propose cleaning up all Winter Merchandise preparatory to spring invoices. There's something about the cut and finish of Moody & Lusby's Clothes that distinguish the Man or Boy who wears them from the few yet to learn. They cost no more (and quite often not as much) as the ill-fitting garments some handle. We have a fair line yet. But don't wait too long.

OUR CLOTHING FITS IS MADE CORRECTLY

Our Children's and Boys' fit the same as men's, and the cost very much less than city houses will ask you. Why so? We buy from same manufacturers at spot cash prices, and the small expense in handling is why. Think of this and see who is in the best shape to give you the most for your money.

Hats—we sell them; we don't keep them.

Trousers—we set the pace.

Gloves—we have lots on hands of good many people and have a pair left for you and the boy.

Rich Neckwear and all the little things ready and going. Come to headquarters directly opposite the court house.

BETTERTON NEWS.

The village of Betterton is not as quiet as the outside world suppose though this is mid winter the men seem to find something to do, the weather has been fine for all kinds of work, some of the men are getting their nets ready preparatory to fishing in the spring.

Crew's bowling alley is open and the boys who indulge in the sport can be heard quite a distance sending the balls down the alleys the same as in the "Good Old Summer Time."

Our people are on the move for a town incorporation which would be a good thing. As it is sadly needed it would improve the village in many ways and we hope this matter will be pushed to the front and not be given up until it is complete, as the boardwalk was. It was started in good faith, every one thinking it to be just the thing, though, some of the residents would contribute nothing, others subscribed and did not pay so the board walk was laid as far as the money went and has not been completed yet, so we hope the move to incorporate the village will not end in this manner.

Tolchester Railroad.

The announcement in the News of a proposed railroad from Chestertown to Tolchester has awakened renewed interest in the new enterprise. Capt. W. C. Eliason promised any encouragement possible, but decided to hold himself to the excursion business. The road from Tolchester to Chestertown is 11 miles, but it is said that the right of way planned by the new company will cut off two miles. If it is carried through, Capt. Eliason said, it will be likely to prosper during the summer excursion season, a part of the daily crowd of 2,000 excursionists being likely to try the new road just to see where it runs. Mr. Alva A.
