A Fish Law for Queen Anne's Waters.—A law is being drafted and will be presented at the present session of the General Assembly for enactment to exclude non-residents from fishing in Queen Anne's waters otherwise than by hook and line. Fishermen from Rock Hall and other localities of lower Kent county have, for several years past, literally taken possession of Corsica river, the southern shores and estuaries of Chester river by sink nets, haul seines and fyke nets and thus excluded residents of this county from fishing in the waters which rightfully belong to them. The residents of this county are excluded from fishing in the waters of Kent except by hook and line and local and resident fishermen have finally decided to put a stop to the marauding fishermen from Kent in exclusively occupying the waters belonging to this county.—Record.

Summer Weather.—Kent county has been treated to some summer weather the past week, the mercury climbing up into the seventies. Lilacs, hyacinths and other flowers begun to show life and a number of farmers were seen plowing.

Basket Factory for Sudlersville.—Messrs. John Anderson and Ola Stafford, both of Sudlersville, have formed a partnership and have negotiated for the necessary equipments for starting a basket factory in that town. The factory will be located in the Phillips property in the north eastern section of the town. Mr. George Phillips owns a number of lots there, and now that the factory is to be operated, an effort will be made to build up that portion of the village and provide homes for those who want to move there; two new streets will be run out and the lots staked out for dwellings.

THE LARGEST STEAMER IN THE WORLD.

Can you give me some details as to the largest steamer in the world? I have heard that a remarkably large one has been launched.

TRAVELER.

The vessell to which you refer is the new twin-screw steamer of the Hamburg-American Line, the Kaiserin Auguste Victoria, launched recently at Stettin and christened by the Empress of Germany. The Auguste Victoria is the largest steamer in the world, being 700 feet long, 77 feet in beam and 54 feet deep. She will displace, when fully laden, 42,500 tons. Her passenger accommodation will include 550 first-class, 300 second, 250 third and 2300 steerage passengers, while her complement of officers and crew will be 600 men, giving a grand total of 4000 on board. The vessell will be ready for service in May, 1906.

PERMANENT meadows should have an annual dressing of 500 pounds per acre of a fertilizer containing eleven per cent. POTASH and ten per cent. available phosphoric acid.

This will gradually force out sour grasses and mosses from the meadows, and bring good grasses and clovers; thus increasing the quality as well as the quantity of the hay.

Our practical book, "Farmer's Guide," gives valuable facts for every sort of crop-raising. It is one of a number of books on successful fertilization which we send on request, free of any cost or obligation, to any farmer who will write us for them.

FAIRLEE ITEMS.

Social Events are so many in number that it is just a little difficult to remember all.

On Wednesday evening in last week, Mr. and Mrs. H. C. Willis entertained a few of their friends quite royally, and a very nice luncheon was in order during the evening.

On Thursday evening in the same week, Mr. and Mrs. S. G. Lee's hospitality was very manifest in their home near Melitota. Quite a number of friends were present. A sumptuous supper was served. Various games were indulged in, the table decorations were beautiful.

On Friday evening following, Mr. and Mrs. Geo. E. Noland, tendered Conlyn, their son, a pleasant reception. A number of friends were in attendance, and an evening of real merriment and pleasure was enjoyed. Music was an especial feature of entertainment, and it was nicely rendered. Supper was served about 8.30. The menu was fine and was enjoyed to the extreme.

On Wednesday in last week, County Treasurer elect, Mr. W. E. Keyser and wife, gave a very nice entertainment and fine dinner to a few of their friends a pleasant day was spent, and the happy company wended their way homeward early in the evening.

At the fourth quarterly conference of Fairlee and Worton Churches, held in the Fairlee church on last Saturday afternoon, the return of Rev. W. E. Habbart was unanimously asked for by the officials of each church, they voicing the desires of the membership and friends of the churches. Bro. Habbart has accomplished much since he has been on the charge.

The weather has been very springlike. If it continues much longer, we may expect serious consequences to various fruits, as the trees are budding to some extent. Fourteen years ago peach trees were in bloom on the 19th of Jan., and that year the fruit crop was a failure.

The weather having been so moderate people are having their horses clipped. Mr. Webb, near here, has all the modern equipments for the purpose. He has clipped many already.

Mr. T. H. M. Bramble is establishing a farming implement emporium in Fairlee. His recent acquisition along that line, is the agency for the Bickford and Hoffman grain drill, said to be one of the best on the market.

The mild weather is heralded by croaking of Spring or fishermen call them "Herring frogs". When the writer was a fisherman and plied his vocation at Swan Point, the croaking of those frogs was considered an indication that the "run" of Herring was on. Some people have heard the buzzing of mosquitoes, others have seen butterflies and Mr. Samuel Gears killed a snake crawling along on the public highway.

The number of parcels of mail matter delivered by the Rural Carriers from Chestertown, set forth by the NEWS was interesting. Now let us have the figures from Worton, from whence quite a number of carriers start. Ours, Mr. Wallace, handles much mail matter. He is a very courteous and an efficient government official, being nicely equipped with good horses and teams and is invariably on time, heavy roads or good.

The mendicant that traveled over this part of the county last week, asking alms, and setting forth serious misfortunes by the loss of an eye, and general injuries by rail-road accident as set forth by his cards, because of loss of speech, was a "fake". He took passage on the Tolchester Steamer last Saturday, and looked any thing but a beggar. The vacant eye-socket seemed to be filled with an up to date artificial glass eye, he could walk, not staggering, his card saying "I Stagger," and his power of articulation or speech was restored. We should beware of such characters. Many, really, needing help are hindered from obtaining it, because of just such people. This fellow's pocket was well filled with money, it is conceded, when he crossed the Bay.

GOLT ITEMS.

Mr. Arthur Foraker is spending a few days in Wilmington.

Rev. Charles Hastings, of the Dover Academy, filled our pulpit here Sunday in the place of Rev. L. W. Long.

Mr. W. E. Matthews and children spent the first of the week in Wilmington with his wife, who is confined to her bed on account of a severe fall, but at this writing she is somewhat better.

Messrs. Elwood Morris and Robert Johnston spent Wednesday evening at Mr. J. T. Matthews.

Misses Addie Ford and Julia Brinsfield visited Middletown Saturday.

Our school is going to hold a "Country Store and Festival" on Wednesday evening, Jan. 31st. The public are cordially invited to attend.

IN MEMORIAM.

In sad and loving remembrance of our beloved little BOBBIE, son of Mr. and Mrs. T. Romie Strong, who went to live with God eleven long, sad, dreary years ago to-day, Jan. 22d, 1895.

Safely, safely gathered in,
Far from sorrow, far from sin;
God has saved from weary strife,
In its dawn, this fair young life;
Now he waits for us above,
Resting in the Saviour's love;
Jesus grant that we may meet
There, adoring, at Thy feet.
