INEFFICIENCY OF ROAD WORKING SHOWN.

TO THE EDITORS OF THE TRANSCRIPT, GENTLEMEN:

In order that your readers may bear in mind the amount spent by the Road Engineer in each of the Districts from June 13th, 1911, to January 15th, 1912, I give below the figures you published last week:

First District	$2,931.38
Second District	1,359.41
Third District	3,425.82
Fourth District	1,367.20
Fifth District	389.90
Sixth District	1,602.04
Seventh District	590.97
Gibbs' salary	958.31
Office expenses	96.96
Total from June 13th, 1911, to Jan. 15th, 1912	$12,721.99

Since the TRANSCRIPT was issued on Saturday last a number of tax-payers have asked by what authority of law did the engineer assume to pay Mr. Bartus Wilkins for damage to his team in a bridge? Through whose negligence in not keeping the bridge in proper condition was the Wilkins team damaged? If it was the negligence of the engineer, why should the county pay for it? How could it be the negligence of the commissioners, who have no control over bridges? If the engineer can pay Bartus Wilkins for damage to his team why cannot he in the same way pay Harry T. Richardson, in Broad Neck, damages for the injury his horse sustained by falling in a hole on the Hill near Lankford? It is claimed this hole was in a dangerous and neglected condition for weeks before the Richardson accident. These are proper questions and they are repeated, as they have been asked, for the engineer or any one to answer.

So many requests have been made to furnish information as to the money spent in the Third District, the citizens of which seem to be appalled by the fact that $3,425.82 has been spent by the Road Engineer, in this, one of the smallest districts in the county, that I requested Mr. Hicks, the clerk to the commissioners to give me the names and amounts paid to each person who received $5.00 or over. These expenditures of $5.00 and over approach the total by within $35.00. Below are the sums spent by the engineer in the Third District as furnished by the clerk:

Frank Young	$ 49.15	A. Money	$ 18.00
J. H. Crew	46.50	T. H. Bryan	44.35
A. W. Taylor	254.63	Chas. Hurd	60.25
B. F. Davis	168.65	F. H. Mann	14.35
Simon Deshong	65.80	Walter Crew	62.40
Samuel Latham	136.00	Chas. Long	17.50
John Dempsey	214.50	Walter Fowler	45.00
Harry Taylor	38.93	M. W. Adams, shells	569.52
C. H. Crowding	196.60	Birtie E. Tull, Freighting Co.	282.60
C. Crowding	8.25	Geo. E. Sutton	9.45
J. W. Simmons	22.50	W. H. Cooper	46.00
Walter Taylor	68.00	Harry Toulson	14.40
Frank Gilpin	125.75	Carroll Hazazer	11.40
David Cannon	22.55	Samuel Willis	16.20
Geo. Carter	33.55	Jos. R. Usilton	21.60
H. Hurd	17.50	Romie Skirven	64.90
H. Thompson	7.50	Simon Grollman	42.60
Walter Holdson	38.40	Wm. Beaver	44.60
A. Willis	9.00	Harry C. Cacy	19.40
Herman Kernan	13.75	A. P. Soloway	13.20
P. H. Taylor	25.35	J. W. Carter	25.00
G. Coleman	24.00	Turner & Son	132.18
A. J. Toulson	72.10	N. Lieberman	7.11
H. Passwater	12.00	Graham & Clements	75.45
Robert Holdson	57.60		
A. Jones	6.00		
W. Y. Burk	7.00	Total	$3,394.02

A number of tax-payers have remarked that this $3,425.82 spent in the Third District, if judiciously expended on the roads throughout the entire county, could have been made to produce better results and the tax-payers would have received, by its wise expenditure, more benefit than they have from the whole $12,721.99 spent to January 15th, 1912.

There is not in the Third District a single half mile of road, repaired or mended by the engineer, which could not have been just as well mended or repaired by intelligent men like Harry C. Cacy, Joseph R. Usilton, Romie Skirven, Benj. F. Davis or Charles H. Crowding. Neither one of these gentlemen is an engineer nor has he any pretensions to engineering ability or training. Why could not Mr. T. Ben Crew have seen that it was done as well? If he could, why pay him to be commissioner and Isaac Gibbs, Jr., to be engineer? Do we not in contemplation of law, and in fact, pay the commissioners to do exactly what the engineer is suposed to do?

Can any person doubt the proper thing to do is to repeal the present road law for Kent county? Do away with any such palpable exhibition as is shown by the money expended in the Third and other Districts. Beyond question our tax-payers and voters know what all this means. Indeed, we were not ignorant of it last summer, but none of us thought it was so extensive as it turns out to be.

Why not pass a law if nothing else will be done by the so-called "Organization," requiring each commissioner to oversee the repair and maintenance of the roads, but requiring that not more than $15,000 shall be levied in any one year, same to be apportioned to the several Districts? As an experiment this is certainly worth a trial, especially in view of this method of the spending of the people's money in the First and Third Districts—for what?

Very respectfully yours,
HOPE H. BARROLL.

PEOPLE'S COLUMN.

☞The columns of the TRANSCRIPT are open to the proper discussion of all topics of puclic interest or importance. Whether the editors agree with the sentiment expressed or not, the public should and may be heard through the TRANSCRIPT columns—the paper will be the People's Forum from which they may be heard on all subjects—purely personal matters excepted. The Editors are not responsible in any manner for articles that appear in this column.

The following card was received by Hope H. Barroll, Esq., author of the letter relative to the expenditure of the people's money on the county roads which appeared in last week's TRANSCRIPT. It shows the feeling of our tax-payers on this all-absorbing question, and is written by one of our industrious and conservative tax-payers:

Kennedyville, Md.,
Jan. 29, 1912.

MR. HOPE H. BARROLL,
DEAR SIR:

I read in the TRANSCRIPT your letter showing the way our money has been spent. I agree with you. I think a great deal of it has been wasted. I think the commissioners are the peoper ones to manage dirt roads. The First District tax-payer says there are seventy-seven boys on one of the petitions published that don't pay taxes. I am an old boy. You can add my name to the list. I remain,

Yours respectfully,
ROBERT N. BOSTON.

TO THE EDITORS OF THE TRANSCRIPT—Gentlemen:—While you are showing things about the present road engineer's work let me tell you something. I was down the county the other day and I met a man hauling oyster shells in a two-horse team clear up to near Tolchester. He worked from six o'clock in the morning to six o'clock in the evening, hauling two loads a day, 30 bushels to the load. Does Mr. Gibbs know about this? Do you know about it, and does the public know about it?

MOSS BACK.

Chestertown, Md., Jan. 31, 1912.

EDITORS OF TRANSCRIPT:—Dear Sirs; I noticed a letter in your paper from H. H. Barroll criticising amounts spent by me. While the figures are correct, they, I think, are misleading and not stated fairly. Mr. Barroll would lead one to believe the money was spent during the bitter contest of last August, while in fact there was only $3,800 spent from June 13 to the last of August. Since then I have spent nearly $3,500 in oyster shells, and another $1000 in gravel. This work has to be done whenever I can get teams to do it. It is impossible to do any road work in January or February, and very little in March, and the balance on hand will be ample to repair the roads until the first of June. Now, if Mr. Barroll and your paper will give me the support the present Board of Commissioners seem inclined to do, I have no doubt but that I can make a success of the Road Law.

Respectfully,
ISAAC GIBBS, JR.,
Road Engineer.

[The figures given by the road engineer above as indicating what he spent from June 13th, 1911 to Jan. 15th, 1912 total $8,300. He admits that Mr. Barrol's figures showing that $12,721.99 were spent in the same time are correct. There is a difference of $4,421.99 between the engineer's figures and those given by Mr. Barroll, whose figures the engineer says are correct. Then what has become of the $4,421.99, Mr. engineer?—EDS.]
