Fatal Accident.

Last Saturday, as the 11.47 A. M. Union Bridge Accommodation train from Baltimore, on the Western Maryland Railroad, approached this city, the section hands under foreman Thomas Sinnott were at work on the track near Crowl's ice cream factory. When the signal whistle blew they all left the track except Moses K. Fleming, who lingered too long, was struck by the engine and fatally injured. He was brought to the station and Dr. J. W. Hering was promptly with him and subsequently Drs. Jos. T. Hering and George T. Martin. They found that he was cut about the head, and his nose, lower jaw, left shoulder and arm and right leg were broken. He was taken to the Albion Hotel and subsequently to his home on Union street, where he died between 3 and 4 o'clock, P. M., the same day. A coroner's jury was summoned by constable B. W. Buckingham at the instance of acting coroner Geo. W. Matthews, consisting of the the following persons: Isaac C. Baile, foreman; Milton Schaeffer, Albert Zentgraft, Nelson Gilbert, John C. Grumbine, John Greenholtz, Edwin J. Lawyer, Geo. W. Sullivan, Jacob Wilson, David A. Snyder, Nathaniel Shipley, Moses Horning. After the examination of a number of witnesses the following verdict was rendered: "That the said Moses Fleming came to his death by the shock and wounds of being struck by, said to be, train No. 15 of the Western Maryland Railroad, going west, near Crowl's ice cream factory, and from the evidence the jury finds that it was purely accidental." Mr. Fleming, who was a very worthy and industrious man, was probably so absorbed in his work that he did not observe the approaching train in time to escape. It is said he was subject to spells of abstraction or absent-mindedness. He leaves a wife and four children. He was buried at Krider's Cemetery on Sunday afternoon, Rev. J. U. Asper officiating. The services were attended by a large number of citizens, who by their presence attested their respect for the memory of the deceased and their sympathy for his bereaved and sadly afflicted family.

The friends of Harry Lippy, a native of our town, received a message a few days ago of his death and burial, on the 1st day of July last, at his late home, Orange Valley, Cal., five miles from the Pacific coast, where he was successfully engaged in farming and fruit culture. Woodbine Items.

Rev. J. S. Burton and Master Charles Wright, of Washington city, occupied the pulpit at Morgan Chapel on Sunday last.

Camp-meetings have been all the rage for several weeks. Dr. Kilgore's camp, at Mt. Airy, was held in a beautiful grove near the village, and within a few hundred yards of four counties, and was largely attended. While the four counties concentrated their citizens by thousands, Baltimore and Washington cities were largely represented also. The politicians, too, concentrated there and their name was legion. They all had their bibles and seemed very devout. Their story was that if put upon the ticket and elected, they were ready and anxious to do something that would redound to the glory of God and the welfare of all mankind, especially the citizens of this State. But when they go to the races and tournaments the bible is laid aside and the bottle substituted; for they wish to be all things to all men and so secure their election. Their ages ranged from young men all the way down to big boys. And they are they who represent us in the counsels of State. This is why bankruptcy is staring thousands of our citizens in the face.

The farmers are pretty well through with fallowing for wheat. The traction engines are moving in all directions, threshing the crop on hand.

Mrs. Sallie Shipley, who has been sick for several months, is improving and able to walk about the house.

We have heard of large fish stories, but that crane story from your Gamber correspondent, two weeks since, caps the climax. A crane 5 feet 10 inches long and 5 feet 10 inches wide! Great Scott! A bird of such dimensions could gulp down all the carp in Mr. Benson's pond and your correspondent on top of them. And the man who could get such a whopper out of his throat could gulp down the crane as easily as the whale did Jonah.

[Our Woodbine correspondent seems to be in a critical humor and we will turn him over to the tender mercies of the Gamber man, who will probably be able to convince him that the crane story is not apocryphal, notwithstanding it was a fish crane.—ED.]

A Runaway Engine.

Shifting engine No. 88 of the Northern Central Railway was, through some error, about 9 o'clock last Monday morning, standing on the Baltimore and Potomac railroad track, near Lafayette Station, on which an express train from Washington was approching. The engineer of No. 88, seeing the approaching train, reversed his engine, threw open the throttle and with his fireman jumped off. Then No. 88 started backwards toward the tunnel, into and through which it dashed at terrific speed and then on through Union Station and down to Calvert, where it collided with several empty cars and drove one of them through the wall of Nelson, Morrison & Co's meat house, in which it knocked a hole about fifteen feet square. The marvel is that no body was hurt and that the runaway engine made the distance between Lafayette and Calvert Stations, over a perfect labyrinth of tracks, without meeting any obstruction. A number of people were passing through Union Station as it thundered by and some doubtless barely escaped being run down by the ponderous monster in its mad flight. But for the presence of mind of Switchman Osborne, at Centre street, a different story would have to be told of the ending of the strange affair. A train crowded with people had just entered Calvert Station and the runaway engine was following on the same track. The passengers were not yet out of the cars when the switchman saw the engine approaching with the speed of light. Comprehending the situation and the frightful danger of these passengers at a glance, he jumped to the switchbar and at great risk to himself, threw the flying engine to another track. Of course the runaway was completely wrecked and the cars with which it collided badly smashed. The damage inflicted is variously estimated at $12,000 to $18,000, about $6,000 of which was to Nelson, Morrison & Co's establishment.

FERTILIZER PREMIUMS!

The Leading Fertilizer House in the County in Quality, Quantity and Prices.

WE desire to announce to the farmers of Carroll county and our friends generally that we have now ready at our factory for the Fall trade the largest and most complete line of Fertilizers kept in Western Maryland. All our goods are made from the driest and most carefully selected material that can be purchased, and are manipulated with special care and reference to the Fall crop. In their concentrated form they represent a greater percentage of the principal elements of plant food than any other brands on the market, as the guaranteed analysis on each sack will show. Our Dissolved Animal Bone has no superior in the State and our price for it will be found much lower than is asked by the numerous local agents for an inferior grade. Our line of Fertilizers consists of

Raw Bone Meal, Bone Dust, Bone Ash, Diss. Slaughter-House Bone, Diss. Bone Black, Finely Ground Tankage, Dried Blood, Acid Phosphate or South Carolina Rock, Muriate of Potash, Sulphate of Potash or Kainit, Sulphate of Soda, Sulphate of Ammonia,

And a General Line of Agricultural Chemicals.

Farmers' and Grangers' Clubs will find it to their advantage to ascertain our prices before purchasing elsewhere. We have the largest stock in the State outside of Baltimore and we mean to sell it. It may be of service for other houses as well as the farmers to know that we can quote goods from $10 to $60 per ton, and we can assure purchasers that from $5 to $10 can be saved on lots of $100 purchased of us. We desire to have farmers remember that in buying from us they pay a single profit only. We further say to farmers who have been buying from outside agents that if they will bring to our factory one of their empty sacks with the analysis thereon, we will reproduce the same goods from $3 to $5 less per ton than the original price. A credit of $1 per ton will be allowed to any farmer who will bring his own sacks.

We are also offering as a special inducement to the farmers of our county PREMIUMS of $150 for the purpose of introducing our high grade goods. For particulars see our circulars. A full description and analysis will be found in our pamphlets to be had at our office.

READ WHAT WE HAVE TO SAY

We are still selling the well-known

Crown Grain and Fertilizer Drill.

THE CROWN is the only Drill in the market that drives direct from the axle, taking its power from both wheels by ratchets in the hub, thus avoiding all side draft. Will sow right or left or in circles without loss of motion. No gears to alter; no loose wheels to change; no pinions to lose. All regulations made by dial and pointer. Positive Force Feed Grain, Grass, and Fertilizer run. Separate Grass run can be attached either in front or behind the hose in a few minutes. THE CROWN has taken first premium at all fairs where exhibited and the lead in all field trials. THE CROWN is the lightest draft Drill made. In fact, THE CROWN is the best Drill on the market. Mr. C. J. Hull, now living on Rev. Uriah Bixler's Farm, near Westminster, used one of THE CROWN Drills the past season and he will be pleased to show to any one the advantage which THE CROWN Drill has over all its competitors. Any one intending to buy a Drill should examine THE CROWN before purchasing any other.

☞We also have in stock Western Wagons, Plows, Harrows, Feed Mills, Feed Cutters, Corn Shellers, etc.; Forks, Shovels, Hoes and Rakes. The Secret Discovered.

WE HAVE DISCOVERED THE SECRET OF SELLING A NUMBER ONE ARTICLE OF FERTILIZER FOR A SMALL SUM OF MONEY, AND PROPOSE TO GIVE ALL WHO BUY THEIR FERTILIZER FROM US THE BENEFIT OF OUR DISCOVERY.

THE REPORTS WE HAVE RECEIVED FROM THE YIELD OF GRAIN FROM OUR FERTILIZER HAVE BEEN VERY SATISFACTORY, AND IT IS A REMARKABLE FACT THAT WITH THE QUANTITY WE SOLD NO ONE IS DISSATISFIED, BUT ALL ARE MORE THAN PLEASED.
