CHURCH NOTES

Kennedyville M. P. Church, Rev. J. F. Wooden, pastor. Sunday, October 5, will be observed as Rally Day. Service will begin at 10.30 a. m. One special feature of the program will be the presence of the members of the Cradle Roll. All the members and the friends of the church and Sunday school are cordially invited to be present. Preaching in the evening at 7.30. Prayer meeting on Wednesday evening at 7.30.

Six months' trial in the ministry on salary of $50 a month has proven conclusively to W. C. Bowden, pastor of the Georgetown M. P. Circuit that a minister cannot maintain his standing in a community as far society is concerned, entertain his parishoners at dinners and keep a horse to visit his members, and at the same time battle against the high cost of living. Consequently he has left his post and gone south. Two years ago he entered the Maryland Annual Conference.

St. James M. P. Church. Services for Sunday: S. S., 10 a. m.; preaching, 11 a. m.; Christian Endeavor, 7.30 p. m.

Services at Lynch M. P. Church tomorrow as follows: S. S., 2.30 p. m.; revival services, 7.30 p. m.

There was a meeting of the committees of the M. P. and the M. E. Churches held at the M. E. parsonage Wednesday in reference to the evangelistic meetings to be held this winter.

The Woman's Home Missionary Society of the M. E. Church met at the home of Mrs. M. A. Toulson Wednesday afternoon.

The Young Men's Club of Christ M. P. Church were entertained Wednesday evening at the home of Mr. C. C. Jones.

Formaldehyde For Stinking Smut

Mr. H. B. Derrick, county agent for Kent county, says regarding the above:

"Heavy losses can be avoided by treating seed wheat which contains stinking smut with formaldehyde. In 1917 stinking smut destroyed over 21,960,000 bushels of wheat in the United States. In other words, the wheat crop grown in 1917 by U. S. farmers would have filled two freight trains from New York to San Francisco, but the smut crop grown by them would have filled a train from New York to Cleveland. Why not stop our loss in Kent county?

"Directions for treating seed wheat for stinking smut: Spread seed wheat out on a smooth surface, large canvas or clean barn floor. With a common sprinkling pot, spray pump or similar device, sprinkle the seed with a solution of one pint of formaldehyde to 40 gallons of water, at the rate of one gallon per bushel, or wet until the seed will pack in the hand. Shovel over to ensure the thorough wetting of every seed. Cover with blanket or canvas for at least four hours, but no longer. Then spread out to dry. One pint of formaldehyde will treaty approximately forty bushels of wheat."

—There will be more than twice as many voters in the next Presidential campaign as there have been in any other campaign. The total number of voters in 1916 was approximately 14,000,000. Next year there will be 16,000,000 women voters, and there will be an additional 4,000,000 men voters, making a grand total of something like 34,000,000.

were two abnormal conditions appertaining to Life Insurance that came to the surface during the year just passed, concerning which we simply state

THEY FOUND THE BALTIMORE LIFE INS. CO. PREPARED

and we have pride in the manner the conditions were met.

The death claims among those of our policy holders who were in the SERVICE, and the death claims caused by the epidemic of FLUE and PNEUMONIA, approximating a QUARTER OF A MILLION DOLLARS (from those two causes alone) were paid immediately on receipt of proof of death, and not one claim was held in our office seven hours.
