**Four Armories For Maryland**—According to the Baltimore press the legislative plans of the State Legislature contemplate the sale of the old Fourth Regiment Armory site and the use of the funds thus obtained for the building of four armories throughout the state. The administration has apparently made tentative selections of the towns which are to have the new buildings, one of which will be located in Centreville, Queen Anne's Co.

**Wedding**—Miss Mabel Wilson Clough, of Church Hill, Queen Anne's county, was married in Washington on Tuesday to Guyon Gratton, of Rapidan, Va. The ceremony was performed by the Rev. John H. Jeffries, pastor of Ryland M. E. Church. The bride's sister, Mrs. James M. Cain, of Baltimore, was her only attendant. Mrs. Grattan is a daughter of Mrs. Jennie C. Clough, of Church Hill. Mr. Grattan is a dairy farmer of Rapidan.

**Run Over By Log Team**—Mr. Thos. Minner, one of the drivers of the log teams, belonging to Mr. Mogle, that have been carrying logs from woods and swamps of this section of the state, had his legs badly mashed on Tuesday morning near Chestertown. It seems that Mr. Minner fell from the outfit, two of the wheels passing over his legs. While no bones were broken, Mr. Minner's legs were badly mashed and he will likely be incapacitated for several days.

**Business Men's Association**—The business Men's Association met at their headquarters in the Imperial Hotel Bldg Tuesday evening. A large representation of the business men of Chestertown were present. The meeting was addresed by Mr. Dillon, secretary of the Wilmington Board of Trade, and Mr. Cacy, a prominent business man of Wilmington. Some valuable suggestions were made by these gentlemen of how to govern such an organization to make it produce results.

**Damages For Auto Injury**—After 50 minutes' deilberation, the jury in the suit of Oswald C. Kelley, of Otego, N. Y., against the Huber Baking Company, of Wilmington, Del., before the Circuit Court for Cecil County, brought in a verdict Thursday for $1350 in favor of the plaintiff. The suit was brought to recover damages sustained to an auto owned and driven by the plaintiff in Nov., 1920,about two miles north of Elkton. The machine was run into by a large truck owned by the defendant company.

**Mr. Baxter Gets Leg Broken**—Mr. Albert Baxter, a young Queen Anne's farmer, living near Chestertown, and well known here, had the misfortune to break one of his legs on Tuesday. It seems that Mr. Baxter's mules got out of the field on the road and Mr. Baxter had gotton on a horse and gone after them. After catching them, he made them fast to his horse and was on his way home. His horse slipped on the icy road and fell to ground, the mules falling with them. Mr. Baxter received his injury during the mix-up.

**Directors Elected**—At a recent meeting of the Mutual Fire Insurance Co. of Kent County, Mr. P. M. Brooks, of Chestertown, and Mr. D. G. Roe, of Sudlersville, were eelcted directors. H. Price, Betterton; Wm. A. Hyland, Galena. Mr. Fred G. Usilton is president of this company and Mr. Eben F. Perkins, Sec.-Treas. The adv. of the company appears in this issue.

**Fine Herds Must Be Destroyed**—One of the largest dairy cattle owners in Kent county has been informed that every one of his fine herd of cattel, consisting of 27 head, is affected with tuberculosis and must be destroyed. He submitted his cows to inspection by a state veterinarian. He paid as high as $1000 for four of these cows. For the high-priced cows he will receive only about one-third of their value, while he will lose heavily on the remainder and will be compelled to purchase an entire new herd. Many other farmers in the county are badly hit by the inspection.

**French Premier Quits**—Premier Brian, of France, submitted his resignation to President Millerand at the Ellsyee Palace today after making a lengthy statement before the chamber of Deputies justifying his attitude at the Cannes Conference. "You have been complaining for three years," he said, "of not being called upon to share in shaping French policies. I am bringing you what you have been demanding for three years, and it is up to you to say whether you want it or not. As far as I am concerned, I am merely making these explanations to you and do not ask your approval or refusal. Here is France's security. Take it, or leave it."

**Accident At Church Hill**—Owen Mullikin, the 13-year-old son of Mr. and Mrs. Owen Mullikin, of near Church Hill, was run over by an auto driven by Mr. Alfred Merchant, Tuesday morning, in front of the Church Hill High School. The youth was riding in a wagon with other boys and ran across the road to the school. Mr. Merchant, approaching in an opposite direction, put on the brakes and tried to avert the calamity, but did not see the young man until he was right upon him. The boy was hit with great force and the car passed over him. Dr. Norman Dudley rendered him first aid and he was then rushed to Easton Hospital, where it was found that he had a broken arm, severe cuts about the face and head and perhaps internal injuries.

**Dangerous Negro Caught**—Edward Morris, the insane negro of Green Spring, near Smyrna, who disappeared Tuesday night after shooting and seriously wounding two negro children and firing several farm buildings, was captured by a posse of farmers and officers two miles south of Townsend about 11.20 Thursday morning. Suffering from cold and lack of food, Morris appeared to be dazed and walked into the arms of the posse and was taken without resistande. Knowing the desperate character of the negro, the members of the posse were armed and were carefully forming a cordon around the woods two miles below Townsend, when Morris staggered weakly out of the woods to the open road.

### Users of Autos Warned

The Delaware State Board of Health has sent out the following warning relative to exhaust gases from automobiles:

Investigations made by the U. S. government show that gases dangerous to life are frequently present in sufficient quantities to produce disagreeable symptoms or even cause death. The effect of these gases is produced very quickly usually before the victim realizes the danger.

The State Board recommends the following precautions be observed:

Always open the garage door before starting the engine.

Do not allow the engine to run for any length of time in a closed garage.

Do not work near the exhaust of a running automobile engine.

Special precautions as to ventilation are necessary in garage pits.

When the exhaust is used for heating a closed car, the system must be free from leaks.

Persons overcome by exhaust gases from autos and gasoline engines should be removed to fresh air and artificial respiration performed until a physician arrives.
