BENJAMIN FRANKLIN SAID, "THE WAY TO MAKE MONEY IS TO —SAVE IT," AND TO DO THIS—

BUY YOUR FERTILIZER

—OF—

T. R. HUBBARD & SON

Our Celebrated TRUCK PHOSPHATE for TOMATOES, POTATOES, PEAS, MELLONS and ALL KINDS OF VEGETABLES.

For CORN use our SPECIAL PHOSPHATE for that crop. Cheap in price, and those who use it say it will not burn nor fire the plant. Then there is

Our Oat Phosphate, called IMPERIAL, which has been extensively used with very great success. And

Our Fruit Grower for PEACH TREES needs no comment, having been extensively used by many of our largest fruit growers, both in Delaware and Maryland since the year 1883. The base of this goods is a Natural Bird Guano, secured by our senior while on a visit to the West Indies that year.

20 Years in business with a steady increase in trade this our FORTY-FIRST SEASON is a guarantee as to the true merits of all our brands.

Respectfully submitted by

T. R. HUBBARD & SON,

MANUFACURERS OF BONE SUPER-PHOSPHATE, CHESTERTOWN, MD.

W. S. WALKER. H. M. BROWN.

BECK, WALKER & BROWN

FERTILIZER MANUFACTURERS.

OFFER TO THE FARMERS OF KENT AND QUEEN ANNE'S COUNTIES,

Fertilizers of All Kinds.

We would call attention to our SPECIAL BRANDS for the Spring Crops of 1896.

CORN and TOMATOES!

We are also prepared to fill orders for special mixtures for all crops, Potatoes, Oats, Asparagus, General Truck, &c.

Samples of our Special Mixtures for Potatoes, Asparagus and General Truck were taken and examined by State Chemist with the following results:

	POTATOES.	ASPARAGUS.	GEN'L TRUCK.
Available Phosphoric Acid	8.34	8.31	8.35
Insoluable Phosphoric Acid	.90	.86	.75
Ammonia	4.27	3.15	3.57
Potash *actual* (K^2O)	6.56	7.31	4.34
Comparative value per ton in Baltimore.	$35.50	$31.86	$29.96

All of these goods will be in first-class condition, and only the best materials obtainable will be used in their composition. They have been used by a number of our prominent farmers for the past four years, and in all cases have given satisfactory results. We would be glad to refer intending purchasers of Fertilizers to the parties who have used them. All our brands of goods are prepared under the personal supervision of MR. P. B. HOLLIS, who is well known in this community as an experienced agricultural chemist.

☞ BUSINESS OFFICE in the KENT NEWS Building, where we shall be pleased to see our friends and the public. April 4, 1896.

BUY YOUR FERTILIZERS EARLY

FOR

Corn, Tomatoes, Potatoes & Berries.

SPECIAL FORMULAS:

FOR CORN AND OATS.

The Piedmont Guano has been in use many years, and it gives entire satisfaction, as hundreds of testimonials published show. It has been tested alongside of many other fertilizers, and for its price is the best goods on the market.

FOR POTATOES.

The Piedmont Potato Producer, (P. P. P.) is manufactured with special reference to the needs of the Potato crop in all stages of its growth and maturity, and we are confident that there are no goods offered that can excell these brands, and very few, if any, that can equal them in the production of Potatoes, not only in the quality, but also in the quantity of the yield. Farmers should be careful to use such goods that they are confident will pay them. These are the goods you need, and you should use them liberally both broadcast and in the rows, taking care to mix them carefully with the earth, so that it does not come in direct contact with the seed.

OUR TOMATO FERTILIZER.

The greatest caution has been exercised in making this formula, and the materials used are exactly what the Tomato plants need. This we know after having fully tested by the growers of this crop. We have spared no pains to make this brand especially adapted to Tomato culture. We have fine reports from its use alongside of other fertilizers. It produces extra fine crops that paid well for its use. We intend keeping it full up to its present high standard, and will see that all the materials used are of the very best in every respect. If you grow any Tomatoes give this brand a trial, and you will use no other.

FOR BERRY GROWING.

A fertilizer which can never be excelled is the Piedmont Pure Raw Bone Mixture, producing the fruit in its largest and most perfect and therefore, most profitable condition.

WHITE WINE VINEGAR for sale by E. W. F. SIMPERS.

---

sons outfitting for the mines, and should I ever make the trip again, here I would purchase. They keep everything needed for the Yukon and they only. We found on arriving here that we were incomplete in many ways and had to purchase. Juneau is built at the junction of Taku River, Stephen's Passage and the lower end of the Lyem Canal. It is built on broken ground, with its streets following the different depressions of the land. Immediately back of the town or rather overshadowing it are mountains which rise almost perpendiularly. These are covered with a growth of pine, yellow cedar and fur of small size. Of course they are capped with snow, and to the new-comer the noise of an occasional snow slide is rather startling. It starts generally at the summit slowly and gathers strength, body and velocity as it rushes down, bringing rocks, small trees, &c., with it. It is a typical mining town, men out-fitting for a prospecting tour fresh-looking in their heavy blanket coats of all colors, boots with spikes for ice climbing, fur caps and skin leggings; then the prospector who has just returned, weather-beaten and worn-looking, generally with his pack full of specimens of ore, hopeful and bent on a good time, fortune or not. There are several fine stores here, the largest and most prominent being Decker Bros., who keep everything that experience can teach, but especially articles for mining. There is probably $60,000 worth of goods in this one store alone, and they have another large one and warehouse further down town. Valentine & Mather rank second, and several others in order. There are three newspapers, the *Alaska News*, which your humble servant will represent at Circle City. It is edited by Mr. Eugene C. Stahl a most gifted and genial gentleman. I have been the recipient of many favors from him and his accomplished wife, in fact the rule seems to be general hospitality among the leading citizens here. The *Searchlight* is quite an able publication, as is the *Mining Record*, the latter especially devoted to the mining interests, as its names denotes. They are in magazine form. There are two theatres, both free, this being the inducement offered to those who care to tempt fortune at the faro table and other games of chance. There is, of course, no restrictions on these being run openly, and are liberally patronized. Though it is forbidden to bring liquor into the territory the U. S. authorities seem utterly powerless to suppress it, and it is sold in dozens of places. The drug stores do a land office business in this traffic and are patronized by the better element. Strange to say though, I have been here for five days I have not seen *one* intoxicated man. Everyone's mind is bent on mines and mining. Run upon any group of men when you may and that is the bent of their conversation.

The entire country around here has more or less gold in it, and it will be eventually the mining district of America. The court-house stands upon a ledge of rich paying ore, and there is a lawsuit now pending in regard to it. There is one mine, 50 miles from here, called Berner's Bars, the Comit belonging to the Nowell's of Boston, Mass., that has such rich deposits of gold that the laborers are compelled to change their clothes before leaving work, just as they do in the U. S. mint. After each blast the foreman goes alone to pick up the loose gold. Mr. Willis Nowell, the son of the principle owner is superintendent here, and besides being a mining expert is a gifted musician and scholar, besides being the possessor of two Strandevaries violins, valued at $15,000. The Great Treadwell is on Douglas Island, is two miles from here. Space will not allow me to describe it for I have now encroached upon your good nature and time, but suffice to say there is enough ore now in sight to last 20 years, and it is yielding $2,000 per day. This mine was purchased by the great Rothchilds, of Europe, for two millions and a quarter of dollars.

We leave for Dyea tomorrow on the Steamer Rustler, a small affair, and our party will necessarily be packed like sardines. At Dyea our trouble begins, for there we commence our journey for the divide. I shall endeavor to send you a line some time during the summer, describing our journey on the river and the lay of the country of the Basin of the Great Yukon.

Respectfully, SPENCER HARRIS.
