Gulf Dealers Entertained By A. S. Turner, Jr., Thursday

motion picture entitled "The Power Behind the Pump," produced by the Gulf Refining Co., was shown last Thursday evening, June 27th at the Chester River Yacht and Country Club to approximately one-hundred Gulf dealers, employees and their guests The meeting opened with a short talk by A. S. Turner, Jr., local Representative of the Gulf Refining Co. As an introduction to the main picture of the evening, several short subjects were shown.

The main picture of the evening, "The Power Behind the Pump," proved very interesting and instructive. Starting at the very beginning, the actual prospecting to find new oil fields, the picture carried the audience through each successive step, refining, research and distribution until the finished product is finally in the hands of the motorist.

The actual production of this picture was not easy. Nearly two years were required for the actual filming, which required the use of trains, boats, aeroplanes, automobiles and many other forms of transportation to cover thousands of miles of Gulf territory and oil fields, the director and cameraman frequently endangering their lives to get some of the shots.

After the show refreshments were served to those who attended.

Take Advantage of Your Birthright

Our forefathers fought for a great freedom, freedom from oppression that was stifling every just privilege of the individual. July Fourth marks the anniversary of that freedom that was gained so dearly but so completely.

We should aptly commemorate the day and be reminded that we should perpetuate that freedom to full extent for ourselves.

Be Financially Independent

We cannot enjoy true freedom until we are financially independent. Why not start on the road to that goal now at this appropriate time.

We invite you to establish a savings account here, now at this strong bank. Save every surplus dollar and watch the total grow.

You'll be ever thankful if you do.

Every account insured to the amount of $5000 under the government plan.
