Appreciating Farmers'Day Contributors

The Second Annual Kent County Farmers' Picnic, which was held on Aug. 23, was a big success. The committee in charge desires to express, for all the Kent County farmers, their hearty appreciation to the progressive and public spirited business men and individuals who showed their sympathetic interest in the idea of a day of recreation and enjoyment for the Kent County farmers and their families, by the following contributions:

Coal Moving To Consumer

Since the resumption of activity in the bituminous coal fields, production at mines served by the Pennsylvania Railroad System has been proceeding at a record breaking pace.

During the period from September 1 to 19, exclusive of Labor Day, an average of 5,446 cars of bituminous coal a day were loaded along the Pennsylvania's lines. This was 1,575 cars or 40 per cent above the daily average during the first three months of the present year when consumers were stocking up in anticipation of the miners' strike. The magnitude of these figures can be better comprehended by expressing them in a different form.

If the 5,446 cars represented a current average day's loading were assembled on one track they would form a train over 43 miles in length, while in eight days of the period mentioned sufficient cars were loaded to have formed a solid coal train reaching the entire distance from Pittsburgh to Philadelphia.

Indications are that within a short time, when the hard coal mines are again producing to capacity, the movement of anthracite on the Pennsylvania System will top the high figures recorded last March, just before the mines closed. The movement now lacks only 10 per cent of equaling these figures.

Autumn At Hand

Autumn is at hand in Kent county. We would know it even though the calendar had not proclaimed it to be a fact. The cool nights, the almost frosty mornings and the changing colors of the woodlands all proclaim the arrival of fall, which, officially, commenced early Saturday morning, that is, here north of the Equator. In the lands to the southward, of course, it is different. Despite the Monroe Doctrine and the Pan-American Movement, the benighted people below the middle belt persist in their perversity. At the same time that fall arrived on Saturday, the days and nights were equal. All this was brought about by the mere fact that the sun crossed the equator at 3.10 a. m. Theoretically, at the same time the sun was on the horizon at the poles of the earth.

Sun Never Sets On U. S.

In June's longest days, when the sun is setting on one of Alaska's islands it is sunrise on the coast of Maine.

According to recent discoveries by the Coast and Geodetic survey in mid-season, when the length of daylight reaches its maximum in Alaska, the island of Attu the westernmost point of the Aleutian islands is bathed in sunshine, while Nome, Juneau, and Ketchikan are in darkness.

At the moment the sun sets beyond Japan and Atta is in twilight, the red orb of morning is plainly visible from the northeast point of Maine.

During this period the length of night at Point Barrow is two hours and forty minutes, while the dawn and twilight are almost indistinguishable.

—The National Ku Klux Klan, Inc., an organization purposing, according to its charter, "to engage in a work of a patriotic, secret, social and benevolent character" in Delaware, Georgia and elsewhere in the United States, was incorporated in Dover this week, under the laws of Delaware, through the branch office of the United States Corporation Co., a firm having its main office in New York City.

Seattle Has Biggest Church

The First Presbyterian Church of Seattle, Washington, having a membership of 7,066, is the largest church of any denomination in the country, according to the annual report of the church for the year now being prepared. The Central Church, of Brooklyn, with almost 4000 members, ranks second in the denomination, while the number of churches with 1000 or more members has increased from 131 in 1920 to 167. These are less than two per cent of the total number of 9,560 churches in the denomination, but they have 14 per cent of the total membership of 1,757,000, the report states.

A Wish

"I have taken Cardui for run-down, worn-out condition, nervousness and sleeplessness, and I was weak, too," says Mrs. Silvie Estes, of Jennings, Okla. "Cardui did me just lots of good—so much that I gave it to my daughter. She complained of a soreness in her sides and back. She took three bottles of

CARDUI

and her condition was much better.

"We have lived here, near Jennings, for 26 years, and now we have our own home in town. I have had to work pretty hard, as this country wasn't built up, and it made it hard for us.

"I WISH I could tell weak women of Cardui—the medicine that helped give me the strength to go on and do my work."
