The 18th inst. was Shrove Tuesday, said to take its name from an ancient custom in the Catholic Church of going to confession and obtaining absolution; in other words being shrived. Clearing weather followed on Shursday and Thursday night the temperature dropped to 24°. A high, cold wind prevailed yesterday.

Just 158 years ago to-day one of the greatess and noblest characters in the history of the world was born. Volumes and volumes have been written in his eulogy and his fame grows brighter as the years roll away. The greatness of George Washington consisted not so much in pre-eminent ability as in the grand purity and nobility of his nature, for which he will be justly celebrated in all the ages to come. It is fitting that his birthday should be kept as a holiday by the people of the great country of which he was aptly called the father, and Maryland laws have recognized the fact by legalizing it. Hence it will be so observed here by the closing of the banks and public offices.

A committee of the Presbyterian congregation at Randallstown, Baltimore county, has addressed a circular letter to "friends of Christ and His Cause" for help to build a church at that place. In making this appeal the committee says that village, although perhaps 100 years old, has rarely been blessed with religious services by any denomination of Christians. During the last four years or more, Rev. A. M. Jelly, D. D., President of the New Windsor College, has preached there, in a public hall, without salary, every alternate Sunday evening and has organized a congregation of twenty-four persons. A lot in the centre of the village has been purchased and paid for, and now the little band of Christian worshipers appeals for assistance in the erection of a church. The enterprise will commend itself to those who desire the "pro sperity of Zion."

The Gettysburg and Washington Railroad.

Since the termination of the survey of the Westminster route of the Gettysburg and Washington Railroad, about the holidays, many inquiries have been made at this office concerning the probable outcome of that enterprise. No definite answer could be made to these inquiries, as nothing tangible was known here. Those most familiar with the matter, however, were confident that in due time the apparently interrupted proceedings would be resumed, and it now transpires that the engineers have been engaged in office work, preparing maps, making estimates, &c., and placing the project in something like definite shape, Last Tuesday evening Col. J. C. Fuller, the President, and Mr. A. E. Lehman, the chief engineer, arrived in this city, and on Wednesday morning submitted a map of the surveys to the inspection of Messrs. John L. Reifsnider, chairman; Edward Lynch, Charles C. Gorsuch, Charles E. Fink, Samuel Roop, Dr. Charles Billingslea and Col, S. K. Herr, the citizens' committee having the matter in charge here, in the Directors' room of the First National Bank. Several representatives of the press were also present. The map exhibited the original suryey of the direct line from the terminus at Round Top to Washington, and also the line of the Westminster route as surveyed up to this time, showing the entire feasibility of constructing the road through this place. The distance by this route is considerably greater than by the direct route, but its advantages of local traffic are too considerable to be overlooked. The large local travel and traffic between Westminster and the northern and southern ends of the county, that could not fail of development by a railroad traversing the county from north to south, and taking Westminster on its line, are well worth thorough consideration on the part of the projectors of the enterprise and, it is believed, are fully appreciated. The existing facilities of communication between Westminster and the northern and southern districts of the county, are of the most unsatisfactory character. Persons in the extremes of the county, having business with the county seat, are compelled to travel by private conveyance, over bad roads, twelve to twenty miles each way, and make their visits here as few and far between as possible. The inconveniences to which they are subjected are very great. These would, in large measnre, be obviated by a railroad running north and south through the county and Westminster. We believe the road can be secured, but it must be done by the generous and earnest efforts of the people along the line.

Col. Fuller says the road will be built if the people of the country through which it is to pass will give the right of way and subscribe the sum of $5,000 per mile to the stock of the company. The road will be eighty miles or more in length from Gettysburg to Washington, and, if constructed by way of Westminster, will run nearly forty miles through Carroll county. This reveals, in a measure, the extent of the work necessary to be done to bring it here. The gentlemen comprising the committee above mentioned will shortly bring the matter to the attention of citizens interested, either to a greater or less degree, in the enterprise, by direct personal effort. The subject should now be taken into serious and earnest consideration, and every citizen who expects to be directly or remotely benefitted by the construction of the road, should resolve to do all he possibly can to assist in having it built by way of Westminster. To the projectors of the work it must, of course, be a matter of business and not of sentiment. The Westminster route has the drawback of its greater length, but it offers, we believe, more than compensation for this, in the large local business it would bring to the road. If this shall be supplemented by ample subscriptions to the stock the road will most probably, be built this way. The people interested must say whether it shall be done.

Diffenbaugh, Mr. and Mrs. William Zepp, Misses Irene Zepp, Jennie Hesson, Jennie Eckard, Amelia Wampler, Bertie Warren, Annie Babylon, Sallie Gilbert, Maggie Mitten, Mollie Shettle, Florence Hull, Messrs. Miss L. A. Hewitt left home on Monday for a lengthy visit to friends in Baltimore.

Our society met last Tuesday evening at the residence of Mr. L. M. Bushey The program proved, if possible, more interesting than ever before. The exercises opened with instrumental music by Miss Milly Bushey, followed by a reading by Miss Della McQuay. Especially noticeable among the readings that followed were: "Nebuchadnezzar," by C. G. Wilson; "Nobody's Child," by Miss Lizzie Rawlings; "A modest cowslip," by Miss Dora Hess, and "Five things observe with care," by Harry Bushey; all of which were remarkably well rendered. The solo, "A hundred years ago," by Prof. Hess; "The Gypsey's Warning," by Miss Milly Bushey, and "Come little Soldiers," by Miss Annie Hess, were enjoyed by all and received applause. The choruses by the Society were given with much spirit. Altogether it was one of the most enjoyable meetings the society has had. Several new members were admitted. Several matters of interest to the society were discussed and the program for next Thursday was then announced. There will be a debate on that occasion, on the subject "Is marriage a failure?" Although the subject has been much discussed already, and by societies of much greater pretentions than ours, yet we are not without hope of hearing some very novel arguments advanced by the young aspirants for matrimony who have been appointed to debate the subject.

Rev. J. S. The wild geese have not yet flown to the northern lakes. This fact inclines us to the opinion that we may yet have some bad weather, for when an old gander takes the wings of the morning, and soars aloft, stretching his vision across the continent, he feels that he is far above man and knows all about the weather, and where he is going and when he will arrive, just as our railway trains. The first pair of geese we ever saw were given to us when a small lad. We were delighted with them and gave them corn, and while eating it we commenced rubbing the gander on the neck, which he received very kindlp and seemed to appreciate it; and not wishing to slight his better half we began to smooth her neck also. He looked down upon us, "for he was higher than I," and ina moment with rasped pincers we were seized by the ear. Great Scott! Balls of fire rolled from our eyes and we seemed to be whirling around at a speed of a thousand revolutions to the minute.

Society of Christian Endeavor.

The young people of the New Windsor Presbyterian Congregation have organized a "Society of Christian Endeavor," the object of which is, as declared in their constitution, "to promote an earnest christian life among its members, to increase their mutual acquaintance, and to make them more useful in the service of God."

The organization is divided into several committees, and special duties assigned to each. The Social Committee, consisting of Messrs. Wm. L. Stuchell, H. A. Jelly and Misses Grace Wishart, Lena Dielman and Mrs. Frank Snader, arranged a very enjoyable sociable which took place in the Lecture Room of the church on last Friday night, the 14th. The Social Committee received, in a graceful manner. The company was large, and everybody seemed to be happy, and to be having a good time; and this was largely due to the tact and skill of the committee. The following program was announced by the President, Mr. John E. Stuchell, and admirably executed throughout: Chorus, "We'd better bide a wee," led by Mrs. Col. Wishart, with Miss Fannie Thompson as organist; Recitation, "Lady Clare," by Miss Louie Benton; German song, by Miss Lena Dielman; Recitation, "Marco Bozzaris," by Mr. Ralph Graham; Duett, by Miss Grace Wishart and Mr. J. Morris; Reading, "The Lady of the Castle," by Miss Agnes Dielman; Duett, "Come with me," by Miss Lulu Carlisle, and Mrs. Col. Wishart; Chorus, "Auld lang Syne." Refreshments were served and the large company retired about 10½ o'clock, all feeling that the first church sociable, in New Windsor, was a complete success. The company present embraced nearly all the leading people of the vicinity.

The night of the 10th inst., some fiend or fiends made an attempt to burn Pine-Hill school house. He or they placed pine brush beneath the building at two places and set fire to it. As the brush was wet it only burned the leaves off and went out. There have been two school houses burned down at the same place in past years, and great fear is expressed among the patrons that it will be successfully attempted the third time. The pupils take their books home every night. There were about two hundred dollars worth of Sunday School property in the school house, including library and organ; but since the attempt to fire the building all valuables have been removed.

Fire at Bird Hill.

Between 8 and 9 o'clock Thursday evening the house occupied by Mr. Alfred T. Buckingham, as a store and dwelling, in the village of Bird Hill, was totally destroyed by fire, with nearly all its contents, consisting of household effects and a large stock of goods. Full particulars have not been ascertained, but it is known that the fire originated in the garret, from a flue of the chimney, which must have been defective, and was well underway when discovered. The house was a frame structure, and the fire, fanned by a high wind, burned with great rapidity, so that little of the contents of the building could be rescued from the flames. Mr. Buckingham saved his books, and a show case was gotten out of the storeroom. A sum of money amounting to between $150 and $200 which Mrs. Buckingham had in her bedroom, was burned. An accurate estimate of the loss cannot be made, but Mr. Buckingham had recently replenished his stock of goods largely, and probably had $3000 to $4000 worth on hand. The building, it is reported, was not the propeety of Mr. Buckingham, but was occupied under a lease. It was probably worth $1500, so that, including the stock of goods, money, furniture and clothing, most of which was destroyed, the entire loss may reach upward of $6,000. The house and contents, it is said, were insured, but the loss will be much greater than the policies. We have not been able to ascertain where the insurances are placed.

Indications point to a speedy termination of the contest for the postmastership of Westminster, which has been occupying the attention and enlisting the active participation of most of the Republicans in the community for some weeks past. Mr. Wm. He will report the result of his inquiries to the Department, and recommend one of the applicants for appointment, and it is understood that his decision will be final. The appointment will not be long delayed.
