SATURDAY, MARCH 8, 1890.

The death of young Abraham Lincoln, announced on Wednesday, will bring sadness to the hearts of loyal Americans. He bore the name of his great and noble grandfather, and was the only grandson of that grand martyr in the cause of human liberty. His father, Robert Lincoln, is now the only surviving male descendant of the illustrious patriot and statesman, and there is extreme probability that when he dies the male line will become extinct.

In pursuance of his decision on the application for the appointment of receivers of the Chesapeake and Ohio Canal Judge Alvey has selected Messrs. Robert Bridges, of Hancock, Washington county; Richard D. Johnson, of Cumberland, and Joseph D. Baker, of Frederick, to act in that capacity. These gentlemen, under the order of the court, will proceed to ascertain whether it is possible and practicable to repair the canal and restore and maintain it as a water-way. Should they determine and report to the contrary, Judge Alvey will then consider the question of decreeing the sale of this work. In either event litigation must inevitably arise with the beneficiaries of the bill now pending before the Maryland Senate, and which will almost certainly pass. The measure has been amended since it passed the House, by reducing, very largely, the bond required to be given by the Washington and Cumberland Railroad, a proceeding calculated to renew distrust of the bill.

Mortgage Tax Bill

Senator Bennett's bill to tax mortgages, which was reported unfavorably from the committee to which it had been referred, was taken up in the Senate, on Thursday, and substituted for the unfavorable report, by a vote of 12 to 8. Mr. Bennett made a speech in support of the measure, which is one of the most important introduced in the Legislature at the present session, and should receive very careful consideration. The bill was published in the SENTINEL some weeks ago. It is not to be denied that it deals with a most difficult question. The general principle is almost universally recognized and accepted that taxes should be imposed according to the actual means of the tax-payers. But the principle is exceedingly difficult of application Senator Bennett's bill aims to accomplish that purpose in one direction, but it is possible that, while relieving the mortagor from the payment of taxes on mortgaged property to the extent of such mortgage, it may lessen his opportunities to borrow money on mortgage at all, or in some other way work to his disadvantage. The principle is correct. The Legislature must determine whether Senator Bennett's bill, if enacted into law, will make its operation successful.

The State Tobacco Warehouses.

Messrs. Alexander T. Leftwich and John R. Richard have made a proposition to the Legislature to lease the State Tobacco Warehouses, for a term of ten years, at an annual rental of $10,000 per annum, giving bond in the sum of $50,000 for the faithful performance of the contract. The State can hardly do better than accept the proposition. It involves, of course, the abolition of the State tobacco inspection system; but this will be no loss to anybody but the Democratic party bosses and their henchmen, who have swarmed about the warehouses for years, receiving more money than was realized from inspection fees, so that the State Treasury has been regularly depleted of a considerable sum, necessary to make good the deficit.

Well informed persons say that the system of inspection has been rather detrimental than advantageous to the interests of Maryland tobacco growers, and there is no earthly doubt that it has been maintained by the Democratic party, or rather by the managers of the party, more for the purpose of providing for a lot of their dependants than because of any value it might possess as an agency for furthering the welfare of tobacco producers.

The rental offered by Messrs. Leftwich and Ricard is not great considering the value of the State's property in these warehouses. They are eligibly located in the very heart of the maritime trade center of Baltimore and can be used for general warehousing purposes with great advantage. Still, the lessees would run some risk of loss by depression in trade, and perhaps from other causes, and their proposition is, under the circumstances, a fair one and should be satisfactory to the law-makers of the State. It will be, unless the bosses demur and determine that the present absurd, expensive, and unnecessary system of inspection shall be continued. By all means let the lease be made.

Death of Young Abraham Lincoln.

A dispatch dated London, 5th inst., says: Master Abraham Lincoln, son of Mr. Robert T. Lincoln, the United States minister, who has been suffering for a long time from blood poisoning arising from a maligant carbuncle in the left side, below the armpit, died at 7 minutes after 11 o'clock this morning. During the morning the lad was in a comatose condition. He was unable to retain nourishment, and the doctors stated definitely that his death was merely a question of a few hours. He suffered no pain. Mr. Lincoln and his family were at the bedside of the dying boy from early in the morning until he died. He passed away quietly. Upon being informed of the death of Master Lincoln the Queen immediately sent a message of sympathy to Mr. Lincoln. Young Lincoln was 17 years old, and the only son of his father. With his death the male line of Lincolns threatens to become extinct. The body will be embalmed and sent home for interment. The funeral services will be held in Mr. Lincoln's house on Friday next. Only intimate friends of the family and the officials of the United States legation will be invited. The body will be deposited temporarily in the catacombs at Kensal Green, whence it will be transferred to the family tomb at Springfield, Ill. Mr. Lincoln desires that the funeral shall be conducted with the greatest privacy and simplicity.

Washington, March 5.—The President has sent a message of condolence to Minister Lincoln.

National League Convention.

The National Convention of the League of Republican Clubs, which met in Nashville, Tenn., this week, after heartily endorsing the administration of President Harrison, adopted a platform, in substance as follows:

We demand the maintenance of the American system of protection to American industry and labor, the policy that has been identified with every period of our national prosperity. But we pledge our support to a thorough and equitable revision of the tariff, so as to adapt the protection it affords to changed business conditions, and we arraign the Democratic party for the manner in which for years it has prevented the accomplishment of this purpose.

We denounce the practice of the Democratic party in its systematic, persistent and outrageous efforts to deprive Republicans of the South of their right of franchise; we reassert the expressed determination of the Republican party to maintain this right to its fullest extent, and to give all citizens the amplest protection to which they are entitled by the constitution.

We protest against the seating in the American Congress of any applicant—no matter of which party—who presents himself for admission unless his election is untainted either by fraud, violence or assassination.

We are heartily in favor of the general provisions of the interstate commerce act, and we demand the regulation of all railways and transportation lines in such a manner as to insure fair and reasonable rates to the producers and consumers of the country.

We insist upon the suppression of all trusts, combines and schemes designed to artificially increase the price of the necessaries of life. At the same time we favor the protection of all American business interests from destructive and unfair attacks. We emphasize our approval of the liberal and equitable pension laws.

We recognize the dignity of labor and the necessity of proper legislation to protect its interests.

We approve the action of the various Republican legislatures in adopting a system of ballot reform whereby fraud at the polls is prevented and every elector is enabled to vote independently and intelligently.

The meteorological summary for February, at the Baltimore station, shows it to have been the warmest February since the signal service department was established in 1871. The mean temperature was 43. The warmest day was the 26th, when the temperature was 74. The coldest day was the 7th, when the thermometer registered 23 degrees. The nearest approach to the mean temperature of the month was in February 1884, when it was 42. The total excess of temperature for the month was 182. The total precipitation was 4.80 inches, and the number of days on which .01 inch or more of precipitation fell was 13. There are only three greater instances of rain fall for the same month in twenty years. These were 1881, 5.68 inches; 1884, 6.69 inches and in 1889, 5.49 inches. The number of cloudless days were nine, and partly cloudly days seven and cloudy days twelve.

Fire in a Cigar Store.

About 11.30 Monday night the bell on Firemen's Hall rang out an alarm of fire, to which the members quickly responded and hastened with their apparatus to the point indicated, which proved to be the cigar and tobacco store of Messrs. Fowler & Himler, two doors east of the Farmers' and Mechanics' National Bank. The rear portion of the building, which is a frame structure, was ablaze within and the fire had broken through and was rapidly spreading. It took but a brief period for the firemen to get it under control, but brief as it was the damage wrought was very considerable. The main building was only slightly injured by fire, but the walls are badly smoked and the whole interior will need repairing. It is owned by the Farmers' and Mechanics' National Bank, which sustains a loss of $200 or $300, covered by insurance in the Baltimore County Company. The loss of Messrs. Fowler & Himler, upon a careful inventory by Mr. E. P. Brundige, will exceed $1000, upon which the firm holds a policy for $1000 in the Carroll county Company. The origin of the fire is not known.

Finksburg Items.

J. T. Lassell and wife spent several days of last week and this week visiting Mr. Lassell's father, Rev. Mr. Lassell.

N. G. Harden, who has accepted a position with the Oliver Chilled Plow Co., with headquarters at Harrisburg, Pa., has taken up his permanent residence there.

Mr. G. Bradford has completed arrangements for running the canning house at Finksburg station. He expects to put out about 200 or 250 acres of corn.

George Frazier is having lumber sawed for a new barn. Wesley Bond also intends building a new barn immediately.

The "Martha Washington" tea party, that was held in Horner's Hall by the members of Finksburg circuit, was quite a successful affair.

As it is impossible for farmers to make much out of their crops, they are cutting railroad ties. It is estimated that there are three thousand at Finksburg station alone.

Persons who contemplated filling their ice houses this winter have been disappointed thus far, as no ice at all has been harvested in this community.

Thomas Swann, of "Clover Hill" farm, has about sixty head of horses, several of which he has in training for parties in New York, to be used as hunters. The prices for them range from five hundred to seven hundred dollars each. He has a professional jockey from Virginia who is training them.

Oh, cruel fate! How couldst thou tear,
From their fond hearts a flower so fair,
That they had watched with so much care,
Hoping to see unfold?

Why didst thou send the wintry blast,
The chilling winds of death, to cast
The tender flower so fragrant, fair,
Forever from their sight?

God cheer their hearts, in this lone hour;
Give them sweet peace instead of sorrow;
Help them to feel that on the morrow
The sun again will shine.

Help them to look beyond the vale,
To that bright land where not a gale
Will ever their sweet love assail,
To give it pain or sorrow.

The voice is hushed, the smiles are gone;
But oh the soul, with God doth dwell;
How hard it was for us to part
And hear your dying, last farewell,

A FRIEND, A. C. MASSICOT.

FREE ADMITTANCE.

The Hess Manufacturing Company,

WESTMINSTER, MD.,

Calls the attention of the people of Westminster and the surrounding country to the fact that it is now prepared to do all kinds of Carriage and Buggy Work, and would solicit a portion of their trade, believing that they will feel fully justified in according it.

The Company would be pleased to have the people call at its shops, for their own satisfaction, and is assured that they will be really surprised at the wonderful improvements made in Carriages and Buggies, and even Carts, at this establishment.

The Company says to everybody: Do not believe that because John Koon made your buggy he ought to repair it; and do not think that Sam Jones' is the best place to get work done, because you have always had it done there. Just take a little time and walk around and see if there isn't another shop in town. You might learn something; and if not, it will cost you nothing.

A great many times people have called at this Company's shops and, after seeing the latest styles, said: "I am sorry I bought so soon. I AM sorry I bought so soon. I did not know the Hess Company did that kind of work."

Now, take this into consideration; talk to your neighbors about it, and say: "Let us go down to the shops of the Hess Manufacturing Company." "What for?" "To see the latest styles." "Where did you say?" "Why down at the shops of the Hess Manufacturing Company. It has the greatest assortment in town." "Is that so? Where is its factory?" "On the corner of Green and Liberty streets. Yes, and it keeps a large stock of Single and Double HARNESS."

Now, the Company desires to say, if the above meets your approval, it will be pleased to have you call, and any information you desire will be given to the very best ability of its manager. With sincere respect,
JOHN G. HESS, Manager.

A FEW POINTERS FOR THE FARMER.

The season for sowing Fertilizers is now at hand and farmers will see many cheap Fertilizers advertised claiming great merit. We desire, however, to call their attention to the fact that we are the largest buyers of

RAW MATERIALS

in the county, and are manufacturing and shipping our goods over 800 miles from home and are able to meet competition at that distance. We are shipping into three different States and our goods have been subjected to the analysis of the three different State chemists, who have proved them as represented. This being the fact, we know that we can

SAVE TO THE FARMER

who deals directly with us from $2 to $5 per ton on our goods when the analysis is taken into consideration. We further wish to state that we make a

Special Mixture for each Crop

Corn, Oats, Potatoes and Vegetables, according to their chemical requirements, and are not like the patent medicine man who sells one kind of medicine to cure all ills that human flesh is heir to. We also

MIX FORMULAS

as desired by the farmer himself. We ask you to call and see us before buying elsewhere, and try our goods along side of the socalled cheap Fertilizers, and see for yourself where you get the best value for your money. We also are headquarters for CLEAN MICHIGAN CLOVER SEED AND NO. 1 WESTERN TIMOTHY SEED, at very low prices.

Skin Diseases

SKIN AND ITS DISEASES.

The DERMATOLOGICAL AND NEUROTIC INSTITUTE was established here seven years ago for the special purpose of treating and curing Diseases of the Skin and Nervous Diseases by DR. C. W. BENSON, and his success is well known. Patients come from every county in the state, as well as city, to be cured, and they are not disappointed.

It makes no difference how bad, obstinate or long standing the case may be, if it is curable, he will cure it, having devoted eighteen years to the treatment and cure of these diseases. Skin diseases and nervous diseases are difficult and hard to diagnose and cure except by an experienced specialist, and people waste much money in advertised medicines and going to doctors who cannot, in the nature of things, know much about the special diseases, and who, as a rule, are not prepared nor have the remedies for their proper treatment. Dr. Benson at his institute is thoroughly prepared in every particular to diagnose and treat Skin Diseases and Nervous Diseases successfully, and all sufferers from any form of these troubles, whether in adults or children, will save time, money and much suffering by placing themselves under the care and treatment of Dr. Benson, who is a graduate of medicine of the University of Maryland, and who practiced medicine in a general way for ten years; but eighteen years ago gave it up, and became a specialist in these diseases. He has a laboratory in his building, and all medicines he prescribes are prepared under his own supervision.

SKIN DISEASES

Includes the treatment of the Hair and Scalp, Loss of Hair, etc., as well as the Eczemas, Tetters and Acne or Pimples, Black-heads and all kinds of Skin troubles, from a roughness of the Skin to the worst forms of eruptions and sores.

SUPERFLUOUS HAIRS.

Dr. Benson permanently removes them from ladies' faces, lips, etc., with the electric needle, and guarantees them never to return. Also, Warts, Moles and all blemishes are permanently and perfectly removed by the Electrolysis without blood or leaving any mark whatever.

NERVES! NERVES! NERVES!

Who is it that does not at times wish they had no nerves? Nothing renders a person more wretched than to be nervous or to suffer from some form of nervous disease, and nothing leads to more trouble and disaster than neglected nervous diseases. They are the origin of insanity and suicide, of paralysis and despondency, loss of power, prostration and exhaustion, and should not be neglected. Why remain wretched and miserable and in danger of worse troubles when you can be cured? There are no classes of diseases that yield more promptly to proper treatment in the hands of a specialist who understands them than nervous diseases. Since specialists have devoted their time to the study and cure of nervous diseases, great strides have been made in curing them. Diseases that were a few years ago considered incurable are now cured without difficulty, and many who were hopeless sufferers, as they thought, are now rejoicing in perfect restoration. So much for science and specialists.

Electricity has worked a reformation in the treatment of nervous diseases, and has accomplished wonders. But skill, practice and experience is required to apply it with effect. The different kinds of electricity and batteries vary as much in their effects upon the system as different kinds of medicine do, and the doctor who uses one battery for all kinds of disease might, with as much propriety, use one kind of medicine for all diseases. Dr. Benson has every form and kind of battery, and is prepared to use electricity in any and every way; also Electric Baths.

In writing, give full particulars.

Fertilizer-:-for-:-Oats

One of the first questions a farmer asks himself in the spring is, what Fertilizer shall I use on my Oats? We have secured this space to answer that question for him. We would be glad to have every farmer, who is going to sow Oats, call and examine the grade of Fertilizer we have had put up for our customers and study the analysis, which is plainly stamped on each sack. We most positively assert that no one can offer Fertilizers at a lower figure than we. With the general and varied business that we have we claim, and our customers will bear us out as to the truth of the assertion, that we are in a position to offer the farmer who gets his Fertilizers of us special inducements. We have done this in the past and propose to continue it. From 75 cents to $1.00 per acre is all you need to spend for Oats if you get your Fertilizer of us.

We have also just received a lot of

Choice Michigan Clover Seed

the best State in the Union to buy Clover Seed. We are selling quantities of it.

Also Seed Oats, Timothy Seed, Orchard Grass Seed, &c., &c.

☞We buy anything a farmer has to sell. Why not take your other trade to the house you sell your produce? It will be to your advantage.

CLEARANCE.

A Clean Sweep all over the House.

Bargains without a Parallel.

We begin at once a stupendous Clearance Sale of our entire store preparatory to taking stock. The continuous mild weather has left us fearfully overstocked, so that it becomes absolutely necessary to cut prices and profits down to a minimum. In fact we find it necessary to sell some things at COST and some under. DRESS STUFFS, COATS and Heavy Winter Wearables all come under the cost and under cost.

Anticipating an enlarged trade we stocked up more heavily than we ever did, and while our business has broken over last year's record still we are in a tight place so far as heavy stuffs are concerned. This coming week, therefore, you can look forward to obtaining bargains—genuine bargains—such as you have seldom, if ever, obtained in Westminster.
