SATURDAY, MARCH 27, 1909.

THIS community sympathizes with the families of the late George W. Hatcherson and Mrs. John P. Nicholson, whose deaths are reported elsewhere in the NEWS. They were two of God's noble beings and their removal from our midst will be sadly felt. The double funeral today means a double loss and a double sorrow, in which all who know the deceased share.

THE village of Lynch is said to have the best streets and side walks of any town in the county. "It would be well for the Chestertown Commissioners to come up and get a few pointers," remarked a resident there. Mr. Harry Cacy had charge of the work.

MR. JOHN BELL, of Chestertown, has a card in the NEWS today announcing his candidacy for Treasurer, subject to the Democratic voters of Kent County. Mr. Bell is President of the Board of Trustees of the Kent County Almshouse and has always been a tireless Democratic worker.

THE whole country rejoices over the return of the kidnapped boy Willie Whitla, and of the capture of the two men and the woman implicated in the crime. They had the money in a satchel which had been paid them as a ransom. If there is a crime above all others deserving of hanging it is that of kidnapping.

THE law passed by the last Legislature requiring telegraph companies in this State to transmit with all telegrams the time of filing, has been upheld by Judge Gorter, in Part 2, of the Criminal Court. Judge Gorter held that the law applies only to telegrams sent within the State and that no charge must be made for transmitting the time of filing. The case will be taken to the Court of Appeals by the Postal Telegraph and Cable Company, which had a test case made up for the purpose of determining the validity of the law.

EASTERN SHORE TRADE.

Aroused by the excellent results of the Eastern Shore Publicity Campaign, Baltimore's commercial, industrial and financial interests are at last taking cognizance of the immense advantages offered by the Eastern Shore's nine counties and are taking active steps to show their appreciation of the necessity for immediate and strenuous action.

Merchants and manufacturers of the Monumental City are eager to wrest from Philadelphia the fast growing trade of this thriving section. They now realize in a much livelier manner the necessity for strugling to retain in Baltimore the trade that has drifted away from it in past years and is now playing an important part in nourishing the Quaker City.

Assistance of great magnitude and vital importance has been promised the Eastern Shore Publicity Campaign and capitalists have assured its representatives that financial support will be speedily forthcoming. It is particularly the desire of Baltimore to establish a trans-Peninsula trolley system on the Shore and the money to build this, they say, can be easily raised, Baltimore taking the greater bulk of stock and asking some small help from the Shore.

With all these offers and proofs of interesting assistance from Baltimore, the promoters of the Eastern Shore Publicity Campaign feel well pleased with the results so speedily accomplished. But there is still much to be done and Baltimore's interest must not be permitted to wane. The time for action is ripe and it must not be allowed a premature death without lasting benefits.

Mr. Jarrell had the cattle tested and the six were found to be infected with tuberculosis. These cows were bought from a cattle dealer who brought the herd from out the State before the law required testing of all such cattle. ON account of the high price of eating potatoes during the last three years, and on account of the great shortage in seed potatoes this spring, farmers, in their anxiety, are apt to buy their seed potatoes, without giving the subject the same careful attention they usually do. Under these conditions unscrupulous dealers everywhere abuse the farmers, and foster up on him inferior seed potatoes. Read Bolgiano's offer on Page 1.
