CHESTERTOWN, MD.

TO WATER TAKERS.

In order that the citizens of Chestertown may have nothing but pure water, upon the advice of the Health authorities the lower pool has been cut off. This action reduces the water supply over 30,000 gallons per day, and has caused the discontinuance of the sprinkler.

It is therefore earnestly requested of all water takers not to allow hydrants or spigots to run any more than necessary and to be as economical as possible in the use of water. It is absolutely necessary that this notice be observed, otherwise there may be a dearth of water, and no one wishes such a condition. The analysis of the present supply was perfectly satisfactory.

Yours to serve,
WM. B. USILTON, MGR.
jy31. Chestertown Water Department.

m6-3t Chestertown, Md.

TROLLEY ROAD IS COMING!

The Promoters Making Headway—They Visit Washington to Have Survey of Chesapeake Bay Made.

The promoters of the new Baltimore and Eastern Shore Railway Company made a formal request of the United States Board of Engineers for Rivers and Harbors in Washington Monday for a preliminary survey of the Chesapeake Bay for the purpose of establishing a channel for a ferry between Bay Shore Park and some point opposite on the Eastern Shore. The delegation returned confident that it had made a favorable impression, and that the request would be granted.

The delegation, consisting of members of the Travelers and Merchants' Association, and prominent business men and engineers, left the city promptly at 10 o'clock in the morning, and was on hand at the Colorado Building in Washington at 11, and introduced at once to the government engineers by Major Squiers. For one hour and forty minutes the members of the party presented the purposes and the possibilities of the new company. Mr. William H. Fehsenfeld, the president of the Travelers and Merchants' Association, and president of the Red "C" Oil Company, headed the delegation and was the first speaker. He pointed out the need of a railway to connect the Eastern Shore with the city of Baltimore, gave data concerning the trade of the section and the present disadvantages of transportation. The present inadequate steamboat service between Baltimore and the Eastern Shore, he said, was a serious drawback to the proper development of the Eastern Shore, and he reviewed the notorious difficulties of passenger travel between Baltimore and towns on the Eastern Shore. The freight service, he said, was equally inadequate, the service at times being sufficient, and at other times so insufficient that many cases could be cited where the freight had rotted or decayed on the wharves, because the steamboats could not convey the stuff to market.

Counties Want It.

He read the resolutions of several boards of county commissioners, urging the citizens of their respective counties to assist the new road in every way, and stated that in nearly every case the owners of the right of way had donated the necessary land. In Baltimore, he said, there was every reason to believe that the Mayor and the City Council would tender the use of the splendid new Center Market buildings, which had been erected only a few years ago at the expense of many thousands of dollars, for use as the Baltimore terminal of the new road. He explained the plans of the road, and then pointed out the necessity for its construction. The Pennsylvania Railroad, he said, owned practically every steamboat line out of Baltimore, and he maintained further that the schedules and their rates were so manipulated as to divert traffic from Baltimore, its natural goal, to Philadelphia, in the interest of the Pennsylvania Railroad.

Mr. Fehsenfeld impressed the board with the fact that the new line was not being pushed by speculators, but was the outcome of public sentiment. To show the widespread public interest in the subject, clippings from the Baltimore papers and the Eastern Shore, telling of the project, were exhibited. Mr. Fehsenfeld was supported in his statements by Mr. T. D. Pennington, Mr. R. A. McCormick, Mr. E. T. Jones, Morton Dukehart and Clarence W. Perkins.

Little Dredging Needed.

Messrs. Penniman and Dukehart, who are well-known engineers, told of the feasibility of the proposed road. The 16 miles of track from Baltimore to the ferry point on this side of the Bay—Bay Shore Park—they pointed out, has already been constructed and is being used. By charts, the depths of the Chesapeake Bay at various points were shown and there is a natural channel running from a point just outside Bay Shore to a point just south of Tolchester, in Kent county. This, they declared, will do away with the necessity of extensive dredging, as the only points that do not allow a depth sufficient for ferry are just in the vicinity of Bay Shore and the point on the Kent county shore. The government board is asked to determine by surveys and a study of the currents the possibilities of keeping open a channel through these sandy sections.

The delegation made strong efforts to show that the proposition will be of great benefit to the country in general. Mr. Fehsenfeld showed that, while the road lay entirely in the State of Maryland, it would be a most important link in interstate commerce, for it would tap Delaware as well as Maryland for its traffic of origin, and will reach Washington, New York, Pittsburg and the entire West in its points of ultimate delivery.

Mr. Perkins, who presented the legal points involved in the project, upon returning to the city, declared that he personally had no doubt that the Board of Engineers would report favorably on their request. "I feel sure," said he "that the members of the board were favorably impressed with the matter we place before them and that they will grant the survey of the proposed route. We were treated with the greatest courtesy throughout the proceedings."

Those who made the trip to Washington yesterday were Messrs. William H. Fehenfeld, T. D. Penniman, R. A. McCormick, E. T. Jones, Clarence W. Perkins, Alexander H. Mc Dannald, D. A. Moffitt, Charles Hopper, David M. Fulton and Charles H. Knapp. The members of the Board of Engineers for Rivers and Harbors present at the hearing were Col. D. W. Lockwood, Col. John G. D. Knight, Col. Smith S. Leach, Col. W. C. Langfitt and Col. W. J. Borden.

Kind Words About Thompson.—They say that my old friend "Mike" Thompson will not don the blue suit of a big league "Um," but that he will stick to his berth at Washington College. It tickled me that my old "college chum" had been slated for the job, for I knew that with him callin' balls and strikes possible foolishness would be eliminated from the game. The ex-Georgetown star is known all over the country as one of the fairest officials who ever refereed an athletic event and if "Mike" has really refused to fill Hurst's shoes, the American League is the loser. The Eastern Shore collegians undoubtedly hail "Mike's" decision to "stick" with much joy.—*Balto. News.*

Miracle or Fincastle Wheat.

MR. JOSEPH GUEST, of our town, who sold to a small number of our farmers some of this splendid wheat, reports results from a few users. Some are phenomenal results, others are not so good; but considering the unfavorable season for wheat in this section, all did well. See his adv. and if interested write to the users, inclosing stamp for answer, and find out the method used in cultivating this wheat. It will post you how to till it for results. The following are the results:

W. W. Smith, St. George's, Del., reports 3 bushels from 22 ounces seeding.
C. I. Barto, Cordova, Md., 58 pounds from 1 pound seeding.
Arthur Rivers, St. Michaels, Md., 51 pounds from 1 pound seeding.
C. L. Dood, Chestertown, Md., 120 pounds from 2 pounds seeding.
Thos. Bryan and J. D. Urie, Chestertown, Md., 200 pounds from 4 pounds seeding.
Wm. Bryan, Morgnec, Md., 90 pounds from 2 pounds seeding.
J. F. Leaverton, Fairlee, Md., 36 pounds from 1 pound seeding.
C. W. Rhinehart, Fairlee, Md., 120 pounds from 4 pounds seeding. Mr. Rhinehart writes: Let it get too ripe—lost much by shattering and birds.
Dr. J. A. Carlton, Palmetto, Ga., reports the phenomenal result of 8 bushels (480 lbs) from 29 ounces seeding.

Any one wishing to ascertain the true facts as to mode of culture and results may write to any or all above names enclosing a self addressed envelope, stamped, for answer.

Above I give worst and best results.

I am authorized to take a limited number of orders for this wheat at $1.25 per pound, cash. One thing is *sure*—it is a *good wheat* and no *fake*.

Cured Hay Fever and Summer Cold.

A. S. Nusbaum, Batesville, Indiana writes: "Last year I suffered three months with a summer cold so distressing that it interferred with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold by all druggists.
