Baltimore, 1884.

Mr. C. P. Knight, Sole General Agent N. J. E. Paint Co.—Dear Sir: In January, 1878, our store was painted with the Liquid Enamel Paint made by the New Jersey Enamel Paint Company. We need finds that generally show the effect of exposure, but the paint has retained its color, gloss and freshness. We shall take pleasure in using it in future.

Yours truly,

FARMERS

BUY THE

BEST FERTILIZER.

THE Farmers' Fertiliser Company is again in the market with its well-tested Brands of Fertilizers. Its superintendent has made special efforts in selecting the

BEST MATERIAL

in the market and can now safely say that the best Fertilizer in the county can be had only at the above Company's factory. The Farmers' Fertilizer Company claims that the farmer will

SAVE THE AGENTS' FEES

which are from $3 to $5 per ton. All that it asks the farmers to do is to call and be convinced that this Company means business and will do what it says and will not be undersold. Especial attention paid to

FORMULAS.

Bring your sacks and save $1.00 on every ton. See the Company's superintendent and he will give you any information concerning formulas willingly and free of charge.

Skin Diseases

SKIN AND ITS DISEASES.

The DERMATOLOGICAL AND NEUROTIC INSTITUTE was established here seven years ago for the special purpose of treating and curing Diseases of the Skin and Nervous Diseases by DR. C. W. BENSON, and the success of the Institute, patients come from every county in the state, as well as city, to be cured, and they are not disappointed.

It makes no difference how bad, obstinate or long standing the case may be, if it is curable, he will cure it, having devoted eighteen years to the treatment and cure of these diseases. Skin diseases and nervous diseases are difficult and hard to diagnose and cure except by any experienced specialist, and people waste much money in advertised medicines and going to doctors who cannot, in the nature of things, know much about the special diseases, and who, as a rule, do not even have the proper facilities for their proper treatment. Dr. Benson at his institute is thoroughly prepared in every particular to diagnose and treat Skin Diseases and Nervous Diseases successfully, and all sufferers from any form of these troubles, whether in adults or children, will save time, money and much suffering by placing themselves under his care and treatment at once. Dr. Benson, who is a graduate of medicine of the University of Maryland, and who has had many years of general way for ten years; for eighteen years has given it up, and became a specialist in these diseases. He has a laboratory in his building, and all medicines he prescribes are prepared under his own supervision.

SKIN DISEASES

Includes the treatment of the Hair and Scalp, Loss of Hair, etc., as well as the Eczemas, Tetters and Acne or Pimples, Black-heads and all kinds of Skin troubles from a rough case of the Skin to the worst forms of eruptions and sores.

SUPERFLUOUS HAIRS,

Dr. Benson permanently removes them from in dies' faces, lips, etc., with the electric needle, and guarantees them never to return. Also, Warts, Moles and all blemishes are permanently and perfectly removed by the Electrolysis without blood or leaving any mark whatever.

NERVES! NERVES! NERVES!

Who is it that does not at times wish they had no nerves? Nothing renders a person more irritable than to be nervous or to suffer from some form of nervous disease, and nothing tends to more irritable and disaster than neglected nervous diseases. They are the origin of insanity and suicide, of paralysis and locomotor ataxy, two of the most terrible and agonizingly, and should not be neglected. Why remain wrecked and nervous and ill, a victim of these troubles when you can be cured? There are no classes of diseases that yield more promptly to proper treatment in the hands of a specialist who understands them, than nervous diseases. Many specialties have devoted their time to the study and cure of nervous diseases, great strides have been made in curing them, and diseases that a few years ago considered incurable are now cured without difficulty, and many who were hopeless sufferers, as they thought, are now relieved in perfect restoration. So much for science and specialties.

Electricity has worked a reformation in the treatment of nervous diseases, and has accomplished wonders. But only those who are experienced in its use need to apply it with effect. The different kinds of electricity and batteries that are used by the different specialists require a different kind of treatment, and the kind which will benefit one will injure another, and the kind which will benefit one class of diseases might, with as much propriety, be used in the treatment of any disease. Dr. Benson has every form of electricity and is experienced in what electricity is any and every way; also Electric Baths.

In writing, give full particulars.
