Novelties in Paper.

Railroad car wheels made of paper are more durable than iron.

When strong fibre is used paper can be made into a substance so hard that it can scarcely be scratched.

Black walnut picture frames are made of paper and so colored that no one can tell them from the original wood.

An Italian monk has succeeded in constructing an organ where the pipes are made of paper pulp. It has 1,400 pipes of various sizes.

The latest idea is to use paper instead of wood for lead pencils, by using a patent preparation by which it can be cut as easily as the softest wood.

The ceiling of the Assembly chamber at Albany, N. Y., is made of papier mache. It is a model of its kind, and appears so like marble as to deceive the most expert eye.

Cracks in floors around the skirting board or other parts of a room may be neatly filled by thoroughly soaking newspaper in paste made as thick as putty and forced into the cracks with a paste knife. It will soon harden and can be painted.

A store in Atlanta, Ga., has been built entirely of paper. The rafters, weather-boards, roof and flooring are all made of thick compressed paper boards, impervious to hot water. On account of the surface of the paper being smooth and hard it cannot catch on fire as easily as a wooden building. It is found warm in cold weather and cool in hot weather.

A paper piano has lately been exhibited in Paris. The entire case is made of compressed paper, to which is given a hard surface, and a cream white brilliant polish. The legs and sides are ornamented with arabesques and floral designs. The exterior and as much of the interior as can be seen when the instrument is open are covered with wreaths and medallions painted in miniature.

A new mill for the manufacture of paper from moss has been recently established in Sweden. Paper of different thickness and pasteboard made of it have already been shown, the latter even in sheets three quarters of an inch thick. It is as hard as wood and can be easily painted and polished. It has all the good qualities, but none of the defects of wood. The pasteboard can be used for door and window frames, architectural ornaments and all kinds of furniture.

Poor London children certainly enjoy much amusement and recreation which there parents never anticipated in their youth. The latest philanthropic idea is to give "Happy Evenings" to board school children, so as to teach the little ones healthful play and keep them out of the streets. This plan has been most successful in Lambeth, and now Mrs. Jeune, who has had so much experience with the poor, has started the movement in Marylebone. The children go through a regular programme of amusements, dances alternating with familiar nursery games, under the superintendence of the teachers and of various ladies and gentleman who come to assist.

"Funny thing at one of the hospitals last month," said an undertaker. "What was it?" "O, a doctor who loves to see his name in print had a long account of a delicate surgical operation he had preformed removing a tumor, I believe. The whole thing was minutely described, and the doctor was praised highly. But no mention was made of the fact that my services were required, for the patient died the next day. Any one reading the item would have supposed that the sufferer had been restored to perfect health."

It has been estimated that more than 400,000,000 human mummies were made in Egypt from the beginning of the art of embalming until its discontinuance in the seventh century. Herodotus and Diodorus agree in the statement that there were three grades of embalming. The first cost about $1,225, the second about $375 and the third was very cheap.

Say, waiter, I reckon you've taken my order all wrong. I ordered a spring chicken and a bottle of '71 claret. Here you've gone and brought me a '71 chicken and a bottle of spring claret.

One of the suggestions for the Chicago world's fair is a gigantic iron tent covering 200 acres, with an iron tower in the center 1,500 feet high, corresponding to the tent pole.

God has given men two eyes; if he lose one he hath another. But man hath only one soul; if he lose that the loss can never be made up again.

When a man gets famous it would seem that every man in the country used to play marbles with him at school.

Every to-morrow has two handles. We can take hold of it by the handle of anxiety or the handle of faith.

The town of Addison, in Maine, has seventeen couples who have been married fifty years and over.

No one but a blind man ever passes a mirror without looking in.

FERTILIZER! FERTILIZER!

A FEW POINTERS FOR THE FARMER.

The season for sowing Fertilizers is now at hand and farmers will see many cheap Fertilizers advertised claiming great merit. We desire, however, to call their attention to the fact that we are the largest buyers of

RAW MATERIALS

in the county, and are manufacturing and shipping our goods over 800 miles from home and are able to meet competition at that distance. We are shipping into three different States and our goods have been subjected to the analysis of the three different State chemists, who have proved them as represented. This being the fact, we know that we can

SAVE TO THE FARMER

who deals directly with us from $2 to $5 per ton on our goods when the analysis is taken into consideration. We further wish to state that we make a

Special Mixture for each Crop

Corn, Oats, Potatoes and Vegetables, according to their chemical requirements, and are not like the patent medicine man who sells one kind of medicine to cure all ills that human flesh is heir to. We also

MIX FORMULAS

as desired by the farmer himself. We ask you to call and see us before buying elsewhere, and try our goods along side of the socalled cheap Fertilizers, and see for yourself where you get the best value for your money. We also are headquarters for CLEAN MICHIGAN CLOVER SEED AND NO. 1 WESTERN TIMOTHY SEED, at very low prices.
