AN OLD PRINTER VISITS HAVRE DE GRACE DURING P. O. S. OF A. CONVENTION

John W. Barnes, of Chestertown, Md,, was a welcome caller at the Ledger office this week. He was in Havre de Grace as a delegate representing the Chestertown Order of the P. O. S. of A., which has been in convention in this city.

Mr. Barnes, who is 66 years old, is the foreman in the composing room of the Chestertown Transcript, which position he has held for 50 long years. He entered the Transcript at the age of 16, and has a reputation throughout the State as one of the best and fastest compositors who ever "picked up a stick."

The writer, who served his apprenticeship under Mr. Barnes, has always held this grand old printer in high esteem, and he is known to everyone in the printing craft of Chestertown as "a glutton for work." No less than fifty boys have learned the trade of printing under Mr. B. in the Transcript office, and among them he has turned out many high-class printers. One thing above all else in his pupils was promptness, and he maintained a strict disclipine at all times in the workroom, for which he has been highly praised time and again by "his boys" who are now out in the world earning their living at a trade which ranks third in the industries of the country.

Probably, kind reader, this will not be of especial interest to you, and if such is the case, then consider it as a tribute by the writer to one of the finest, squarest, most hard-working printers he ever expects to meet, and it is the writer's wish that good old Mr. Barnes will "carry on" for many years to come in the work he loves. —From Havre de Grace Ledger.
