PAINT FACTS

They are simply adding Linseed Oil to L & M Semi-Paste Paint Quickly done. Saves you Money

Illustration describes how to make

BEST—PURE—PAINT
For $2.82 a Gallon
L & M SEMI-PASTE PAINT

is White Lead and Costly White Zinc to assure longest years of wear, as proven by 50 years of utmost satisfactory use.

LEAST COST—because in Semi-Paste form, and therefore you mix 3 quarts of Linseed Oil into each gallon, and so make 1¾ gallons Pure Paint for $2.82 per gallon.

Do your floors reflect the true atmosphere of your home?

Hardwood floors add so much to the charm of a home. In the hall, for instance, they surely make a pleasing impression on the entering guest.

In *one* day a ready-to-use CROMAR Hardwood Floor can be installed right over your old hall floor—(an impossible feat with ordinary hardwood flooring). Simply because CROMAR is filled, varnished and waxed at the factory—finished *before* the laying, *not after*.

CROMAR is finished by speedy, patented machines. That makes it a better floor—and inexpensive as well.

Let your Retail Lumber Dealer prove it. Get in touch with him today, and in the meantime write to us for complete literature—we'll mail it at once.

Cultivated Chestnuts

Edward W. Emory, one of the most extensive growers of the cultivated chestnut in this county, is shipping large quantities of the nuts to city markets and is receiving fancy prices for them. The yield this year is good, but like almost all the natural trees, the cultivated tree is beginning to feel the effects of the disease known as "blight" and is dying. So far as is known there are but two natural chestnut trees living in Kent county and they have a good crop of nuts. They are located near Rock Hall. It is believed however that the chestnut tree will "come back," as there is a wealth of young growth in the woods which shows no signs of being affected by the blight.

FALLS WITH HEAD IN BUCKET OF HOT WATER

Jerry Miller, Jr., son of Jerry Miller, of this county, is in a Wilmington hospital in a critical condition as the result of a fall at his home in Newark. He was seized with an epileptic attack in the kitchen of his home and fell to the floor, his head, falling in a bucket of scalding water. He remained in this position for sometime when he was discovered by two colored women who heard his groans. He was taken to a physician who advised his removal to the hospital. It is feared he will lose the sight of both of his eyes as a result of the accident.

George E. Sutton, who is campaigning on all the Pennsylvania fair circuits with his mare "Princess D," is keeping in the money in every race in which he has started, winning second money in nearly every event from Harrington, where he started the season, to Nazareth, where he started recently. Mr. Sutton has recently refused an offer of $2,500 for his horse, which is one of the fastest pacers on the peninsula.

Pullet Makes Unusual Record

A 7-months-old Plymouth Rock pullet, in the flock of W. J. Massey, Price, has established an unusual record, She is now the mother of 11 sturdy chicks, which she hatched out from a litter of eggs laid during the early part of August. It is unusual for pullets of this age to begin laying, but Mr. Massey has several that began at the age of five months.

Double Braking Efficiency
Buick Four-Wheel Brakes

Buick four-wheel brakes, because they double the braking surface brought into action, increase the braking efficiency of the car practically 100 per cent.

The action is simple, positive and rapid. A slight pressure on the service pedal (the method of operation is unchanged) and all four wheels are retarded—the car is quickly, smoothly and safely brought to a stop. With these proved Buick four-wheel brakes a stop is made in a much shorter distance with a minimum of skidding danger.

Obtaining braking friction at four contacts with the road increases the braking power and lessens the wear on each brake lining and each tire.

The 1924 Buick models, with four-wheel brakes, a more powerful engine, beautiful new bodies and numerous other advanced features fully exemplify the Buick policy of incorporating every improvement that will give greater safety, comfort and satisfaction to the owner.

Party Line Courtesy

Courtesy in the use of the telephone is nowhere more necessary or more appreciated than on a party line. Both parties on the line expect and should receive good service and as little interruption as possible.

If you are on a party line and desire to be considerate of the other person on the line, we would suggest that you eliminate as far as possible lengthy telephone conversations. They are annoying not only to your neighbor, but also to persons desiring to reach him, and sometimes may result in delays of serious consequence.

When you pick up the receiver on a party line and find another person talking, the courteous thing to do is to replace the receiver as quietly as possible and wait a reasonable length of time before trying again to use the line.

The observance of these suggestions by party line users will result in better telephone service and better feeling between those on the same line.
