The Governor has declared Monday, Nov. 12th, a legal holiday.

M. B. Nichols, ex-mayor of Easton, died Wednesday evening, aged 69.

Parran L. Jones, well-known Republican of near Princess Anne, has been appointed postmaster of that city, and assumed his new duties on Monday last. Announcement of his appointment came as a great surprise, inasmuch as he and the other Republican aspirants for the position had failed to pass the Government test which was given some months ago. Thus the civil service examination proves a farce again.

GOVERNOR RITCHIE DESERVES ANOTHER TERM

It is not often that a candidate for Governor is supported by all of the leading Baltimore papers. Yet, in the present campaign, the Sun, the Evening Sun, the American and the Baltimore News are supporting Governor Albert C. Ritchie for re-election. This is an unusual state of affairs, and to say the least, is a powerful endorsement of the present Governor and his sterling record, and shows that the big city dailies recognize (above political parties) excellent service rendered to the people.

Albert C. Ritchie has made a good Governor. Industrious to an unusual degree, of sound judgment, progressive and mindful of the State's needs, he has discharged his various duties in a signal manner. Few candidates ever made more of greater promises than did Ritchie prior to his election. He promised more money for education, more roads, help for the feeble-minded, re-organization of the State departments, fewer elections. Every one of these promises has been kept. During his term, gradually, one after the other, each one of these events has been accomplished, and in a most thorough, efficient, money-saving and conscientious manner.

The remarkable part of Governor Ritchie's record is, that with all he has been able to bring to pass, the many beneficial and worthwhile improvements, that at the same time he has been able to reduce the State tax rate from 36 to 30 cents. Such a thing is almost beyond comprehension.

People may vote for Ritchie because he has done things. A few of them will do so not only because he has done things, but because he has done things economically, reducing the tax rate at the same time.

If ever a public official deserved support of the men of all parties, Albert C. Ritchie is that man.

Ritchie has been on trial for four years. He has made good. The people of Maryland are now on trial. Will they show their appreciation of exceptional public service by endorsing him again? We think they will, and in no uncertain terms.

JOKER IN PLATFORM

Democrats Have Already Done What G. O. P. Promises.

Even stern and staid old-time Republicans and Democrats are guffawing loudly over the "joke" pulled off by the Republican "bosses" and delegates who attended the Republican State convention when they solemnly inserted a plank in their platform pledging the establishment of a tuberculosis sanitorium for colored people.

The "joke" arises from the fact that while the colored leaders and delegates were decorously planning this great boon for the colored element of the party the Democrats of the state has already established, equipped, and opened one of the most useful institutions for colored people in the East. It is now being used as a State institution, and appropriations were made by the Democrats so that any colored patients unable to pay for treatment would receive free board, lodging, and medical attention at the expense of the State.

ELECT THE ENTIRE TICKET

While on the surface everything seems to be quiet and unruffled in both the Democratic and Republican camps in Kent, yet there is a great deal of work going on, and both parties are doing their best to be ready for the fight of ballots on election day.

At the approaching Election the voters of Kent have an opportunity to continue local affairs of government in the hands of intelligent, capable, trust-worthy public officials, just as the voters of the State have an opportunity to continue for another three years, the strong, constructive government which has characterized Governor Ritchie's administration. If proper administration of the State's affairs is to continue, and good government brought to Kent county, in local affairs, the Democratic State and county ticket must be elected in its entirety.

The State ticket can very properly stand on the record of the Ritchie administration. The Governor has made his record, and it is upon that record that the Democratic party asks his re-election. His running mates are all men of big capabilities, well known in public life, and measure up fully to the responsibilities which the administration of state affairs impose. William S. Gordy, Jr., the candidate for State Comptroller, is now closing his first term in that important office, and has made a record which certainly should ensue his re-election. Thomas H. Robinson the candidate for Attorney-General, has been prominent in public life for many years, and is one of the leading lawyers of the State, well qualified in every way for the important position to which he aspires. And the candidate for Clerk of the Court of Appeals, James A. Young, is a man of exceptional standing and most admirably fitted for that responsibile post. Taken all in all, it would be extremely difficult for the State Democracy to offer a better combination of aspirants for public service than the Ritchie ticket, which is now before the public.

In the County ticket the Democratic party has done equally as well, and the election of every nominee will bring to Kent County a high character of public service.

The election of our candidate for State Senate and one member of the House is assured because the Republicans have seen fit not to name a candidate against them. In W. B. Copper as Senator the Democrats have a worthy representative and the whole county one in whom they can repose confidence.

For Legislature the candidates are Capt. Charles R. Kerr, a man of high character and a representative waterman. His home is in Rock Hall. Ellsworth C. Bowers is recognized as an energitic business man with wide acquaintance and has represented Kent county in the Legislature for two sessions.

For State's Attorney S. Scott Beck, Esq., has no opposition. He has filled this position with indomitable energy and ability.

Samuel J. Johnson, of Massey, and Ringgold Jones, of Rock Hall, deserve the votes of every Democrat. They are both farmers and men of keen judgment and will make ideal men for Commissioner.

The present Orphans' Court, Messrs. Scott, Thompson and Hudson, will have no opposition. They have made faithful officials.

For Treasurer, George W. Sutton, of Kennedyville, merits the vote of every one of the affiliated Democrats. He is a man of family, a practical farmer and business man and won in a fair and open primary. He is conscientious to the highest degree, straight forward and a gentleman who will give his best attention to the duties of the office.

William W. Goodman, Democratic candidate for Sheriff, measures up in every way to the position to which he has been nominated, and would make an exceptionally good official if placed in that important office. A man of high character, and ideal qualifications for the office. Will Goodman offers the voters of this County an opportunity to place a good man on the job.

With a line-up of this character, the Democratic party goes before the public. The ticket is good in every respect and its triumphant election on November 6th, will promote the welfare and the best interests of Kent as a whole.

It should receive at least 750 majoority. Let's see how large a vote Kent can give this year.

NETS HER $3,520.000

The 176 shares of stock, with a par vale of $100 each, of Mrs. Louisa Wildi, of New York, in the Helvetia Milk Condensing Company has been purchased for $3,520,000. The stock was bought by other large stockholders. Mrs. Wildi's stock was left her by her husband, one of the organizers of the company. It represented about one-third of the entire stock of the company, which 38 years ago, was arganized with an original investment of $15,000.

It was also announced that recently the company obtained nine shares of the stock from Timothy Majonnier of Chicago, for $20,000 a share.

This company owns and operates the condensing plant at Greensboro.

A report from the Eastern Shore that the Ku Klux Klan is preparing to make war upon the Democratic ticket in the coming fall election, for whatever reasons may inspire it, is something to bring more discomfort to the Republicans than to the Democrats, and it is reasonably sure that no wise politician in the Republican party will welcome Ku Klux support for Mr. Armstrong. Of course, an active bid by the Republicans for that kind of support is unthinkable, but, if, without active bidding, it gets to be understood that the Democratic Kluxers are lining up for the Republican ticket, there is going to be a rush, double or triple in size, of normally inclined Republicans into the Democratic fold.—Baltimore American.
