Kent News

SATURDAY, NOVEMBER 24, 1923

WELL, WHAT'S THE NEWS?

IT IS REPORTED

THAT

A $75,000 Pullman car is being built in Chicago for Henry Ford; and it is said it won't have to be cranked, either.

THAT

The hunter who will willfully or deliberately violate the game laws is a poor sportsman. It is only by hearty co-operation that game can be propagated and developed Hunters owe that co-operation to the sport

THAT

Senator McIntosh, of Baltimore County, will likely be President of the Senate. The Snow Hill Messenger suggests Hon. Franklin Upssur, of Worcester, for Speaker of the House. The prospects are poor for the Eastern Shore landing either place altho it has men able to fill them.

THAT

American farmers paid in all forms of taxes a total of $1,436,000,000 in 1922, according to a statistical report just issued by the National Industrial Conference Board of New York. Accepting these statistics at their face value, they reveal that the farmers paid somewhat more than 20 per cent of all taxes collected by the Federal, State and local governments. Here would be a good place for Treasurer Mellon to put some of his surplus and relieve the farmer of some of his burden.

THAT

With twenty states operating Presidential primaries it will not be long—as a fact not more than six months—before the national candidates will become known and the dark horses smoked into the paddock. The first primary is that of New Hampshire which will be held March 11. North Dakota follows a week later and then the whole system gets into rapid operation. Maryland has its Primary Monday, May 5th.

THAT

Reduction of income taxes, removal of the tax on theatre admissions, telegrams and telephones, abolishment of the so-called "nuisance tax" on Jewelry and luxuries and a general paring down of Federal taxation, recommended by Secretary of the Treasury Mellon, to become effective on January 1, will have strong support. He revealed that during each of the fiscal years 1922 and 1923 the Federal Government collected $310,000,000 more than is expended, and pointed out the means by which this vast sum may be returned to the persons who paid it. To our mind a tax on jewelry and luxuries is a proper one and should not be repealed.

THAT

The Eastern Power Co. is buying new plants, consolidating the Electric Light & Power Companies to supply Eastern Shore. By securing the Home Company with a line to Chesapeake City already established and in operation, the new company is now laying its plans to extend its line down the Eastern Shore. The Eastern Power Company which is getting part of its current from McCalls Ferry, Pa., power plant will after the completion of the gigantic hydro-electric plant at Conowingo, furnish the electric current for the companies it has acquired. It will not be long before every farm house between Chestertown and Chesapeake City will have current.

THAT

Something like 22,000 manuscripts have been submitted to the Bok Peace Award; a resolution adopted by the American Council of the World Alliance for International Friendship. Through the Churches, demanding that the U. S. take steps to join the League of Nations and the World Court; a resolution adopted by the House of Bishops of the Protestant Episcopal Church, at a meeting in Dallas, Texas, declaring that it is the "immediate and imperative duty of the United States either to join the existing League of Nations or to proceed immediately to organize some other effective association or council of nations;" a dispatch from London disclosing that British women intend to make the League of Nations the cardinal issue in the approaching British election, with a view to influencing the United States into joining. All these appeared in the press one day. What does it mean?
