A cough is a warning that you need SCOTT'S EMULSION

Heavy adverse voting in every county in the State caused defeat of the proposed Constitutional amendment to permit increase in the salaries of judges in Baltimore City to $10,000 a year, official tabulation shows. The proposal lost by 5569 ballots in the State-wide vote, despite a favorable majority of 17,530 in the city. The total vote for the amendment was 61,525 and against 67,094. Governor Ritchie's total majority was 40,400, the canvass showed. The city gave him a majority of 41,252, but Attorney General Armstrong carried the counties by the slender lead of 852. It was a wrong perpetrated on the city by the counties. If Baltimore wanted to increase the pay of her judges it was not for the counties to deter her from doing so. Many took this view and did not vote on this amendment.

And the results have been better than we had hoped for.

CORNELL BRAND BUTTERMILK LAYING MASH is prepared according to the latest scientific methods, containing all the necessary requirements for egg production, and costs but little more than the cheapest mixture that can be made, but as an egg producer and health promoter, it is worth more than double the cost of the majority of mash feeds being fed to-day.
