The Singerly paper mills at Elkton are to be be sold at public sale by Messrs. W. T. Warbutton, Albert Constable and John S. Wirt, trustees. No bid is to be received for less than $250,000,000.

Through the strenuous efforts of Dr. Charles M. Ellis, the Cecil County Agricultural Society has been reorganized, and the annual exhibitions will continue.—*Cecil Democrat.*

This is greatly to the credit of Cecil county.

I HAVE now disposed of all my property to my family. There is one thing more I wish I could give them, and that is the Christian religion. If they had that, and I had not given them one shilling, they would have been rich; and if they had not that, and I had given them all the world, they would be poor.—*Patrick Henry.*

"Not a White Man's City."—Senator Geo. L. Wellington made a speech the other night in Baltimore to a Republican audience and said some pretty sharp things. But his address is very likely to have gained votes for "Honest Tom" Hayes. Among other things he scored Ex-Governor Frank Brown for saying that Baltimore is "a white man's city." The Senator also said that the Independents could not run the Republican party and that they would not need the Independents to elect Malster.

The County Commissioners of Queen Anne's have appointed the following road supervisors for the seventh dist., which adjoins Chester bridge:

Samuel Chairs, S. Dewberry, A. P. Hoffecker, Daniel McKee, James Walls, S. A. Wallen, John T. Baxter, John A. Milnor, Burris Subers, John T. Jester, Reese Coleman, S. H. Walls, Philemon Grimm, S. Baxter, Jas. A. Townsend, J. M. Rochester, G. H. Snitcher, Jos. H. Smith, J. E. Higman, John Redman, George Hazell, J. E. Williams, Robert Orem, Morgan Ding. Herman Hendricks, John Green, Geo. M. Vansant, J. W. Blackiston, W. H. Faulkner. The amount to be expended is $633. Total number of miles 60. The total mileage of public roads in county is 580, and the amount to be expended is $7,373.

The Small Boy's Letter.

A small boy was sent to the country to board a short time ago. He promised his mother that he would write a good long letter describing his trip and boarding place, etc. A week went by and his poor mother was nearly distracted, when she got the following interesting letter from him:

"I am here, and I swapped my watch for a pup, and he is the boss pup; and I went in swimmin' fourteen times yesterday, and a fellow stole my pocketbook, and I want some money, and I shall bring the pup home."

ELECTRIC RAILROAD IN TALBOT.

All Parts of the County to be Reached by the System.

The St. Michaels correspondent of the Baltimore American writes to that paper as follows:

A syndicate is being formed here, with a capital stock of $150,000, for the purpose of building an electric railway through several of the remote portions of this county. The matter has been kept a secret, and the meetings have been private and until today not been given out at all. The principal promoters of the project are Herbert S. Carruth and Dr. J. C. D. Davis, of St. Michaels; T. J. Johnson, a large contractor, of Cleveland, O., and several other Eastern capitalists. H. S. Carruth is treasurer, and Major Carrington, of Easton attorney.

The proposed electric line will, it is said, be run from St. Michaels, and possibly to Oxford. A branch will be run from Easton to Trappe district, and still another branch to Tilghman's Island, making a total mileage of about seventy-five miles. The electric plant and powerhouse will, it is understood, be erected between St. Michaels and Easton. The principal object of the movement is to open up and develop some of the heretofore isolated parts of this county, particularly the tidewater section, and give better facilities to the farmers and oystermen for disposing of their products. The line will be used for both passengers and freight. This big scheme is believed to be the outcome of the recent effort of the above named towns to procure for their manufacture communities manufacturing interests, such as will furnish employment to the class of men who follow oystering all winter and remain idle during the summer months.

The railway will be broad guage, and sufficient capacity to properly take care of the traffic that may be offered.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

A GREAT TRUTH.

All organized living things, whether belonging to the animal or vegetable kingdom contain within themselves the germs of death and decay.

Germs of disease are often generated within the human system through imperfect digestion of food, producing various poisons which scientists have denominated *ptomaines*. A stomach weakened by abuse, gorged with over eating or over burdened with hot bread, too rich or greasy foods or those too highly seasoned, becomes weakened and fails to thoroughly digest the food. A heavy, sodden mass is accumulated in the stomach to ferment as the first step in its decay, giving off foul gasses to distend the stomach, and poison the blood, until it becomes thin, weak and lacking in the red corpuscles so necessary to perfect health.

The over distended stomach presses upon the heart, and the latter organ is also disturbed through sympathy, the same system of nerves being distributed to both organs. Thus palpitation and irregular action of the heart with its attendant shortness of breath, result, and in time, disease of the heart itself is established.

The gases and other poisons generated from undigested, fermenting and decaying food in the stomach becloud the brain, causing headaches, and pain in the eyes.

Being absorbed into the blood these poisons reach every part and organ of the system. The kidneys are thereby poisoned, causing Bright's disease and diabetes. Filtering through the skin, troublesome skin diseases often show themselves.

Every organ and every nerve, depending as they do for their nourishment and renewal upon the stomach, weak digestion shows itself not alone in loss of appetite and flesh, but also in nervousness, debility, bad complexion and many other derangements.

Dr. Pierce's Golden Medical Discovery tones and regulates the stomach; stimulates the digestive juices; invigorates the torpid liver; promotes intestinal strength; clears bilious poisons and diseased germs out of the circulation; gives the blood-making glands keen assimilative power, and furnishes Nature with the fresh, abundant nutrition out of which she manufactures firm flesh, strong muscles, clear skin, healthy lung tissue and nerve-fiber, and gives sound, enduring, active energy to the whole system.

Sanitary Plumbing!

Under the old firm name of

WILLIAM T. SUTTON & SON,

CHESTERTOWN, MARYLAND.

the undersigned is doing all work in the line of SANITARY PLUMBING. I had considerable practical experience under my father, and since his death have done a great deal of work, and have yet to hear of any complaint.

I take pleasure in referring to my work at "Normal Hall," Washington College; the new M. P. Parsonage, and other buildings in Chestertown, in which I completed the contracts for water supply.

I keep on hand Plumbing Materials, Closets, Electric Bells and Enunciators, Injectors, Boiler Tubes, &c.

Any message left at my shop on Courtstreet (near office of C. T. Westcott, Esq.,) or at my residence, No. 119 Cannon Street, will receive promptattention.
