STILL POND ITEMS.

The public school will close its doors on Friday, the 30th, for the summer vacation. There are six graduates this year, Misses Alice Hepbron, Beulah Thompson, Florence Rasin, Messrs. Walter Howard and Frank Rasin.

Miss May Pennington, a menber of the seventh grade was taken suddenly ill in the school room some days ago, but we are glad to state is much improved and has again resumed her studies.

Mrs. J. C. Rasin spent a part of last week with her mother in Wyoming, Del.

The evening spins to Betterton and other points are enjoyed by quite a number of the young people. Occasionally one gives out, others break their wheels causing the unfortunate ones to walk in some cases quite a distance.

Mr. James Robinson narrowly averted what might have proven a serious accident one evening this week. He was on his wheel when descending a hill the connecting bar of his wheel broke, throwing Mr. R. a considerable distance and bruising his head, fortunately he was not riding at a very rapid pace or it might have proven more serious.

Mrs. C. B. Krusen is on an extended visit to relatives and friends in Philadelphia, Vineland, N. J., and elsewhere.

Mr. J. B. Krusen, son of Mr. C. B. Krusen, of our town, has located at Smyrna, Del., where he will conduct the undertaking business. Mr. K. has for several years been connected with the large commission firm of Emory Sudler & Co , of Philadelphia.

Miss Mabel Rasin, until recently saleslady in Wm. Medders & Co.'s department store, has taken up a course in a Philadelphia school for trained nurses. Miss Carrie Harding has accepted the place made vacant by the resignation of Miss Rasin.

Mr. Grover Sutton, a seventh grade scholar, is becoming quite an expert in photography. He has taken a large number of pictures that would do credit to a professional. He has a large and varied collection of landscape views, &c.

The Still Pond Council, Jr. O. U. A. M. presented Betterton school with a handsome flag last Friday afternoon. Mr. J. W. Sutton, in an eloquent and forcible speech presented the flag. Rev. E. P. Roberts responded and paid a glowing tribute to the object and working of the organizations. A varied and interesting programme was rendered by the scholars of the school.

Mr. Albert Medders, of Baltimore, is visiting at the home of his son, Mr. Wm. Medders.

Mr. Weldon, of Colora, Cecil county, is visiting relatives in this village.

Mr. Samuel Coleman accompanied by his daughter, Miss Jennie, spent last week with friends in Baltimore county.

Mr. Clifford, one of the genial salesmen in F. H. Harper & Son's large store, has returned to his home in Crumpton, where he has secured a lucrative position. We will miss Clif. as he was so genial and affable.

Rev. Benjamin Price and wife, of Elkton, is visiting the former's sister, Mrs. Dr. W. S. Maxwell. Mr. Price, while advanced in years, is hale and hearty and very active. He is probably the oldest member of the Wilmington Conference.

The Jr. O. U. A. M. are completing arrangements to hold a festival on the square next Friday and Saturday eve.

ROCK HALL HOTEL.

A Fine New Structure to Be Erected At the Kent County Resort.

Plans for the erection of the new three-story $50,000 hotel at Rock Hall, mention of which was made in the NEWS several weeks ago, have been completed by George Haskell, architect. Work on the structure will begin at once.

E. M. Noel has been awarded the contract to erect the building, which will be in the colonial style of architecture. The front facade will be highly ornate, and will include a central loggia running from the first to the third stories. It will be flanked by two large towers, located at end of the structure. A roof garden 64x64 feet in size, will be a feature of the central portion of the building, from which a view can be had for 15 miles down the bay.

The hotel will consist of a main building and three laterial wings. The main structure will be 224 feet long and 40 feet deep. The wings will each be 105 feet long and will run at right angles to the main building. In them will be the dining-room, 35x70 feet in size; the kitchen, serving-room, pantries, storerooms and servants' apartments. The kitchen and the servants' rooms by the arrangement will be entirely seperate from the rest of the hotel.

On the first floor entrance will be made through a large lobby, 35x40 feet in size, on either side of which will be located the office, luggage, writing and reception-rooms. On this floor will also be located a gentlemen's sitting-room, 22x42 feet in size; a smoking department, 13. 2x16 feet in size; 31 bed chambers, two ladies' rooms and four toilet-rooms. Wide corridors, which will run from one end of the house to the other and connect with corridors of the wings, will be a feature of this floor. A large veranda, 20 feet wide, will run completely around the building.

The second and third stories will each include 68 bedrooms and four bathrooms. In the basement will be a bowling alley, billard and poolrooms and the restaurant and cafe. Modern improvements, including electric lighting, steam heat, the latest style of elevators, electric bells, &c., will be installed throughout.

The hotel will be located on a high bluff and will overlook the bay. It will be built of frame and iron. The structure will be built for a syndicate of Baltimore capitalists organized by Calvin Chestnut, who recently acquired 12 acres of ground at Rock Hall. They will also erect bathhouses on the beach, near the hotel, where fine salt-water bathing can be secured.

They are contemplating erecting later a number of cottages on the company's tract fronting upon the bay. The hotel will be fully equipped for business, it is thought by the first of next year.

TOLCHESTER has been the Mecca for thousands this week. On Thursday there were at least 6,000 Baltimoreans on the grounds.
