How Are You, Friend?

When spring comes round, do you feel weak and languid, and are you troubled by biliousness and indigestion, and by a heavy, sluggish, lifeless feeling?

Are you ever troubled with humors or eruptions or pimples?

When you get a cut or scratch, is it slow to heal and apt to fester?

Are you troubled with a thick, muddy complexion, or with blackheads or blotches?

Do you have cold-sores or styes or run-rounds?

Do you ever have boils or abscesses?

Did you ever suffer from a carbuncle?

Or a felon?

Have you had running, open sores or ulcers which would not heal?

Do you have swellings or tumors? Are you of a scrofulous tendency?

Are you subject to chills and fever or any form of malaria?

Are you pale and is your blood thin and watery?

If so, the trouble is in the blood. There is scarcely a family which does not suffer at times in some of these ways; and all, man, woman or child, need to put their blood in good condition by taking

HICKS FOR MARCH.

In his forecast for March Rev. Irl R. Hicks holds out but little hope for pleasant days, but we should be pretty well used to the treatment given us by the storm king during the present months. All wish, however, that the schedule as prepared by the prophet may be only visionary and that he may be laboring under a great misapprehension. However it will not be more than natural that we should have some blustry days in the month whose advent is chronicled by the calmness of the lamb or the boisterousness of the king of beasts.

Rev. Hicks starts off with a "regular storm period"—in fact, nearly all his forecasts begin that way—whic his central on the 3d, and will cover the time from the 1st to the 6th. The month will be ushered in with a falling barometer. This will first be observed in the West. There will be storms of rain, wind and thunder. The whole caboodle will start on a wild skedaddle for the East on the 2d. This will be followed with a grateful change to much warmer with rain and thunder, followed, of course, by snow and sleet and considerably colder weather. To quote the seer's own words: "A decided cold wave for the season will almost certainly sweep south and east from the northwest between the 4th and 8th." The 8th, 9th and 10th are scheduled as a "reactionary storm period," at which time the seer says "the mercury disturbance is added to those of the Earth, Venus and Mars, which is also coincident with the annual magnetic and electric crises." This surely should bring us some kind of weather. The prophet naively remarks that "if the Mars influence does not bring warm, open weather over from February—a thing most unlikely—we may expect some more decided storms of rain, sleet and snow between the 7th and 10th. These storms will be heralded by a high barometer and cold, revolving itself into much colder weather, with a tendency to prolonged cloudiness and threatening aspects. All of this will continue until about the 13th. It will be observed that Rev. Mr. Hicks has given us plenty of rain, which will be welcome news to farmers and crop-producers. Last year this class of our citizens worried their noggins considerably as to whether there would be sufficient fodder left to make gruel for a sick grasshopper.

The seer again gets in a word about a "regular storm period" which is to pay us its respects somewhere between the 12th and 16th, when the full moon, on the equator, will aid in making it a period of decided storm probabilities. Prophet Hicks goes so far as to name Tuesday, Wednesday and Thursday as days of possible violence and danger to the inhabitants of the Southern and Gulf States.

From the 19th to the 21st, which is the period at the center of earth's vernal equinox, when Mercury, Venus and Mars are nearing the end of their perturbing influences, helped out also by the moon being in apogee and near its last quarter, (it must have been on a protracted "jag,") unsettled and threatening conditions will be our portion. However, there are some people who won't believe this statement, and one might as well try to stuff butter in a wild-cat with a hot awl as to get them to believe it.

It seems that while grass grows and water runs we're to have these "regular storm periods," for the seer promises us another, which he says will extend from the 24th to the 28th, followed by falling barometer and change to warmer, and will finally result in snowstorms, but the seer does not say if they will occur where Peary and Cook left the pole after discovering it, or the flakes will make more trouble for the shovelers of this country. New moon falling on the 30th will act as a check on high barometer and colder weather.

JOHN THOMAS MASSEY.

The funeral of John Thomas Massey, who died Thursday morning of last week, after a lingering illness of cancer of the stomach, was held Saturday afternoon at 1 o'clock at Hayden M. P. Church. Rev. Mr. Hepburn, of Kent County, a school-mate of boyhood, assisted by Rev. J. W. Parris, officated. Interment was made in Church Hill Cemetery, and the pall-bearers were: Samuel Roe, Clinton Cook, Joseph Mullikin, George Mullikin, Wm. Story and Edward Clough.

Mr. Massey was born in Kent county, near Still Pond, in 1840, and came to Queen Annes when quite a young man, where he has followed farming ever since. On Jan. 4th, 1870, he was joined in marriage to Miss Mollie Ruth, of Church Hill, and she died about twenty eight years ago. Surviving this union are two children, Mr. Thomas Massey, of Centreville, and Mrs. Harry Richardson, of Kent County.

About eighteen years ago he married Miss India Satterfield who, with four children, survives. Mr. Harrison Massey, of Church Hill, is a brother. Mr. Massey was a good father and kind neighbor and will be greatly missed by all.—*Observer.*

A DENTIST of Dover, Dr. Cahall Sipple, has started a new philanthropic movement, which has been taken up by the church congregations, to bring up a generation of children with clean teeth and correspondingly healthy bodies. D. Sipple has made an offer, in which the churchmen are supporting him, and which was repeated in pulpits, to give two hours of each week and furnish all material, to put in order the teeth of all poor children of his own race who cannot afford to pay for the treatment. Dr. Sipple said that he was in hope that some day the movement would lead to a co-operation of all medical men in a general free dispensary in the interest of public health and happiness.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well.

Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this *non-secret* remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.
