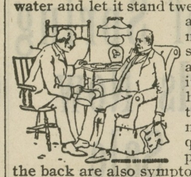
Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.



What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of **Swamp-Root** is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

Home of Swamp-Root.

You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HICKS FOR APRIL.

In his forecast for April, as given in Word and Works, Rev. Irl R. Hiks gives his readers some views of photographs labeled "Hints for late April and May," which make the cold chills play hide and seek over those who view them. But we in this section have been reveling in the early songs of the robin and bluebird, have watched the maples burn red along their naked branches and can say with a certain amount of bravado that the skeleton hand of the past holds no terror for us now. We know that many persons read the wrings of this astrologer, but precious few understand them, albeit they regard our review of Sage Hicks with indignation and view them with alarm, but when all is said and done they would miss their monthly appearance sadly because they are gossipy and good measure for the money.

Seer Hicks begins in his breezy way by stating that a reactionary storm period will be ushered in on the wings of a certain morning—a sort of a left-over from March, as it were I will be composed of wind, rain and thunder. Right here the Union-News pauses just long enough to remark that the Prophet gives us plenty of rain right down the line until he hits the 30th. Oh! you streams, springs and well! clap your hands, for the cattle upon a thousand hills will drink of their fill without overtaxing the hired man's back. The astrologer further enlightens us with the fact that a rising barometer and frosty nights will visit us from the 2n to the 5th, and at the same time old Mother Earth will probably be susceptible to tremors in some parts of her "innards" from March 30 to April 4 or 5, or thereabouts. Sometimes of course, things get a little dull, and these little gymnastics on the part of Mother Earth are given us to cheer our drooping spirits. This will be followed by a "regular storm period," falling barometer; change to much warmer, with growing cloudiness," etc. More rain, wind and thunder will touch most parts of the country from the 6th to the 8th, to be followed by fair weather and cool nights, with possible frosts northward. Too early yet to stow away the blankets and heavy raps in moth-balls so they'll come in pretty handy,

Lower barometer and very high temperature, the Seer says, will mark the 11th and 12th, which will be accompanied by severe thunder rain and hail. This will be a time of tornadoes, which will rack around the globe somewhere about Thursday the 13th. From the 16th to the 21st Prophet Hicks says a "regular storm period" will prevail, and he goes so far as to venture the 18th, 19th and 20th as the crisis of this period, when active April storms and squalls, attended by hail, followed by change to much cooler, may be expected. From the 24th to the 25th a reactionary storm period will visit us, which Rev. Mr. Hicks says may run into a series of daily showers over most parts of the country.

Prophet Hicks knows well how to link together long words from the myriad ramifications of unsounded vocabulary. Hark to his closing lay in his prediction for April: "A regular storm period is central on the 29th, extending from the 26th to May 31. On the 28th, new Moon, or Moon's conjunction with Earth and Sun, is at a total so a eclipse node, within one day of Moon's perigee or closet approach to Earth, on the 29th, From the date of this eclipse of the Sun, the 28th, to the end of April, there is a combination of astronomical causes, which is certain to excite phenomeal disturbances in the atmosphere, and in the terrestrial globe."

Now we know for a certainty why the Democrats in Baltimore are having such a hullabaloo in settling the Mayorality question.

GEORGETOWN is located in Kent county and is connected by bridge with Fredericktown, Cecil county. Georgetown village was established in 1736 and in 1808 it was divided into 142 lots, the average size of each being about half an acre. It contains about 40 houses, a Presbyterian church and a flourishing school. There is a shipyard on the river which has launched many very fine schooners and brigs. The trade and intercourse with Baltimore employs several packets. The British, under Cockburn, set fire to and burned all of the village but two houses in the War of 1812. One contained a sick woman, and Miss Kitty Knight, who lived in the other, acted so bravely in defending the two houses and putting out the fire as fast as it was kindled that she saved her home and the sick woman's also. I think it was in 1814; according to "Johnson's History," it was May 4. It was the same expedition that destroyed Havre de Grace. The villages were defended by Col. T. W. Veazey and a band of militia, which was finally driven into a retreat, leaving the villages to destruction by the British.—*Sun.*

Resolutions Adopted By The Sophomore Class of Washington College.

IN MEMORIAN

HOGANS—In loving remembrance of Florence M. Hogans, who died fifteen years ago today, April 1st, 1896.

She is waiting by the river,
Just across the Silver Stream
Where sweet flowers are ever blooming,
And the banks are always green.

BY DAUGHTER FLORENCE.

Where no cold chill blast of winter,
To turn the roses blossoms fair,
But where all is love and sunshine,
She is waiting for us there.

BY FATHER, MOTHER AND SISTERS.

SEED POTATOES! ONION SETS!
