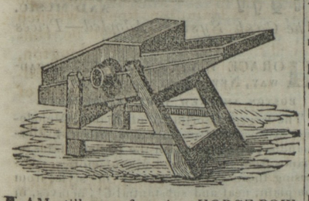
HORSE-POWERS AND GRAIN THRESHERS.



I AM still manufacturing HORSE POWERS, using Sinclair's Pattern, because it is deemed by competent judges to be one of the best in use, and beside, it has the advantage over others of being the Machine generally used by the Farmers of this county. I can therefore be at all times prepared to meet the wants of the majority of our Farmers who may require refitting or even new work.

I have made valuable improvements in the construction of my THRESHERS, which effectually prevent the cracking of the wheat, and save the tender from the uncomfortable and injurious effects of the dust.

All my work is guaranteed to give satisfaction; and any who would be certified of its merits, can easily satisfy themselves by reference to any of those Farmers who have my Machines in use.

I shall keep constantly on hand a good supply of CASTINGS, BELTING, and other materials for repairs.

☞Farmers will bear in mind that harvest is rapidly approaching, and should accordingly send in their orders as early as possible, so as to prevent the accumulation of a heavy press of work just on the eve of the threshing season.

CHESTNUT GROVE WHISKEY C.W.

The enterprising proprietor of CHESTNUT GROVE WHISKEY, (the purest Medicinal Agent ever known,) has furnished the community a stimulant, Pure, Healthful and Invigorating, at the same time a mild, delicious beverage. It is calculated to do away with the vile drugged stuff that is palmed off on the community, and which is injurious to body and mind. In addition to the certificates beneath, he has received a Diploma from the STATE AGRICULTURAL SOCIETY, and additional testimony from Dr. JACKSON, of Boston, who testifies under oath to its absolute purity.

CERTIFICATES:

PHILADELPHIA, Sept. 9, 1858.

We have carefully tested the sample of Chestnut Grove Whiskey which you sent us, and find that it contains none of the poisonous substance known as Fusil Oil, which is the characteristic and injurious ingredient of the whiskeys in general use.

NEW YORK, Sept. 3, 1858.

I have analyzed a sample of Chestnut Grove Whiskey, received from Mr. Charles Wharton, Jr., of Philadelphia, and having carefully tested it, I am pleased to state that it is entirely free from poisonous or deleterious substances. It is an unusually pure and fine flavored quality of whiskey.

JAMES R. CHILTON,
Analytical Chemist.

BOSTON, March 7, 1859.

I have made a chemical analysis of commercial samples of Chestnut Grove Whiskey, which proves to be free from the heavy Fusil Oils, and perfectly pure and unadulterated.—The fine flavor of this Whiskey is derived from the Grain used in manufacturing it. Respectfully,

A. A. HAYES, M. D.,
