We return thanks to those of our friends who have and will take it on themselves to keep us posted on the different occurences in their vicinities.

Any article on Education, Agriculture, &c., will be cheerfully published and thankfully received. Who will be the first to send in an article on either of the above subjects?

Peterson's Magazine.—The February number of this excellent work for the ladies, has been received by us in advance of the month. Peterson publishes a magazine that cannot be equaled for the price—$2 a year. He gives a regular report of the latest Paris fashions for the ladies, as well as other very fine engravings, with a variety of literary reading matter. Those of our lady readers who want a cheap and useful ladies Book subscribe to "Peterson's Ladies National."

Cheap Lumber Yard.—The attention of our readers is directed to the advertisment of Salisbury Willis, & Co., West side Union Dock, Baltimore. It will be seen that they keep constantly on hand a general variety of all kinds of Lumber, which they will sell on very accommodating terms. Mr. Willis, is an Eastern Shoreman, and was raised in this county, which gives him a claim on his old friends and the citizens of the county generally. He respectfully solicits a call from our citizens, and pledges himself to sell a good and cheap article of Lumber. Call and see him.

The Election of U. S. Senator.—On Wednesday last, the Legislature went into the election of U. S. Senator. The Hons. J. A. Pearce, and Albert Constable were put in nomination. A motion was made to postpone the election until Saturday the 4th instant, which was carried.

Mr. McKaig offered a message to be sent to the Senate proposing to go into the election of a State Treasurer at one o'clock on the 14th of February, and nominated J. S. Owens. Mr. Dale nominated D. Claude, Esq. The message was then adopted.

A Lady Soldier.—We clip the following from a correspondent of the Baltimore sun:—There is now before Congress a petition from Mrs. Elizabeth C. Smith, of Missouri, who, in 1846, under the assumed name of "Ben Newman," volunteered in the Mexican war, where she served faithfully for ten months, when her sex was discovered and she was discharged from the service. "Ben" has since married, and now applies for *her* pay and bounty land. As the law applies to *soldiers* and not to men this female soldier may be successful.

Important from Spain. It is said that intelligence has been received at Washington which indicates the preparation of a scheme for a coup d'etate at Madrid, having for its object the dethronement of the Queen, and the placing on the throne of the young Duke de Alba, with the aid of France. The republicans and ultra liberalists of Spain are said to be united in the project, which also contemplates a union of Portugal with Spain under one government. It is thought this change would enable us to purchase Cuba from Spain.

Louisiana.—It appears from the message of the Governor of this State that the receipts into the treasury last year were $2,148,467, and the expenditures $1,340,443. The State debt amounts to $3,281,809. The Governor refers to the position of Cuba, and the course of recent politcal events in that Island, in regard to which he invites a legislative expression of the sentiments of the State.

The Susquehanna Bridge.—We understand that the Philadelphia, Wilmington and Baltimore railroad company have purchased a stone quarry near Port Deposit, from Judge Constable, and have already commenced working it, in order to procure the necessary stone to be used in the construction of the bridge across the Susquehanna.

County Seat of Prince George's.—The citizens of Prince George's county, Md., it appears, are becoming as excited about the removal of their county seat as our friends in Baltimore county. A public meeting has been held in the Bladensburg district, and resolutions adopted declaring "Long Old Fields" the most eligible location, and urging their senator and delegates in the legislature to take the necessary measures for its removal thither. "Laurel" and various other locations are mentioned, but the Marlboro' Gazette says the most sensible proposition comes from the renowned village of Brandywine. A wealthy gentleman thereabouts proposes to give to the county a lot on which to build the court-house and jail, as much timber as may be necessary for their construction, and as much fire-wood as the court-house and jail can use in twenty years. He will also give to the clerk and register their fire wood for 15 years, and to each family in the village its fire wood for five years. This is truly a magnificent offer, and casts into the shade all other proposals. If the removal be intended for a speculation it is to be presumed that the Brandywine offer is most likely to be accepted.

The Testimonials to the Rescuers.—The New York committee, having in hand the "testimonials" for the captains and crews who rescued the passengers of the steamer San Francisco, had another meeting on Wednesday to inspect the medals prepared for the officers and crew of the three rescuing vessels. Capt. Creighton and his officers, of the Three Bells, and Capt. Pendleton, of the Lucy Thompson, were present, and were loudly cheered. The treasurer was ordered to pay Capt. C. $2,500. The same amount of money for Capt. Low, of the bark Kilby, is subject to his order. The captain and crew of the Antarctic are to have there share when the vessel returns to port. The crew of the Three Bells are to receive their pay, in gold, from Capt. C. on their return to Glasgow. The total amount contributed to the fund in New York is $19,077. Some of the contributors are raising a row because the whole amount was not distributed to the officers and crews of the three rescuing vessels. They object to giving any of it to the officers of the San Francisco.

The Funeral of Mr. Bodisco, the late Russian Minister, on Wednesday, in Georgetown, D. C., furnished strong testimony of the respect and regard entertained for the deceased by all ranks and classes of persons amongst us. The National Intelligencer says:

"The array of carriages was unsually large, even for the funeral of high official position, and great numbers of private citizens identified themselves with the occasion. The body was conveyed in an open hearse in a coffin of the best material, but plain and unornamental, followed on foot by Mrs. Bodisco, her children, and the remaining members of the family and suite of the deceased, all the way from the residence on Second street to the cemetery on the Heights. This circumstance was peculiarly touching and appropriate, following, as it did, the affectionate example of Mr. Bodisco himself, on a very recent occasion, at the funeral of a near relative of his wife."

Judah Touro, whose death at New Orleans we have already recorded, was a native of Boston, and resided there till 1800. The Transcript says he was born in Hanover street, on the site of the old Hancock school-house, then known as the Hayes' estate. His parents and relatives were of the Hebrew faith, and he adhered to the religion of fathers through his life, though he contributed liberal sums for many Christian enterprises. He was drawn as a soldier during the war of 1812, and served under Gen. Jackson in the battle of New Orleans. He was wounded in that engagement by a cannon ball, from the effects of which he never entirely recovered. He has sustained in New Orleans, for half a century, the character of an honorable and liberal merchant, and during the past thirty years has been distinguished for his benevolence.

The Coup de Etat in Spain.—The Washington correspondent of the Philadelphia American says it is believed our government is fully informed of every thing in relation to the contemplated *coup de etat* at Madrid. This scheme, it is said will recieve, and *does* receive, the countenance and support of Louis Napoleon, who is desirous of seeing his brother-in-law elevated to the Spanish throne, not because a more liberal system of government will be adopted thereby, but because it will be, in many respects, advantageous to him to have his near relative established as the ruler of Spain. It is a part of his plan to unite Portugal into one kingdom with Spain.

Sad End of an Exile.—Mr. Patrick O'Donohoe, one of the Irish exiles who made his escape from Van Dieman's Land, and arrived in this country a few months since, died on Sunday last at his lodgings in Brooklyn, of dysentery. It is said he died almost alone, and was buried on Monday at Greenwood Cemetery by a few friends of the cause for which he was banished his native land. The family of the deceased (wife and daughter) arrived in New York on Saturday last, but did not find his whereabouts until after his death.

Appointment of Inspectors.—We learn from Annapolis that the Governor will not appoint any inspectors until the legislature shall have acted upon the subject of abolishing inspections, now before them.

Material Aid for Turkey.—A vessel cleared from New York last week for Constantinople, having as part of her cargo 975 *barrels of rum!*

The Tomb of Webster.—It has been proposed to hold a fair next summer in the Winslow House, on the estate of the late Daniel Webster, for the purpose of raising funds to put an iron fence around the "Winslow Burying Ground," which contains the remains of the departed statesman.

Pennsylvania State Fair.—The executive committee of the Pennsylvania Agricultural Society have invited propositions for the location of the next State Fair, which will be held on the 26th, 27th, 28th and 29th of September next.

STATE TEMPERANCE CONVENTION.

Annapolis, Jan. 19th. 1854.

This body assembled in the M. E. Church at noon, and temporarily organized by appointing R. J. Grabill chairman, and John W. Selby and J. H. Bond, secretaries. Upon calling for lists of delegates, it appeared that delegates were in attendance from all the counties, except St. Mary's, Charles, Prince George's and Somerset.

Messrs Frazier, Keener and Addison were appointed a committee to confer with a like committee appointed by the Grand Division, S. of T., (also in session here to-day,) and so arrange the session of the two bodies as they shall not conflict with each other:

A committee of one from each county represented and Baltimore city, was appionted to report permanent officers for the convention, who reported the following:

President—W. W. McKaig, of Allegany county.

Vice Presidents—R. W Williams, of Worcester; E. Wilmer, of Cecil; Rev. A. B. Cross, of Baltimore city; Dr. J. C. Orrick, da; Dr. Crooks, Washington county; R. J. Crabb, of Anne Arundel county.

Secretaries—J W. Selby and Jas. H. Bond, of Baltimore city.

A committee was then appointed to prepare business for the action of the convention, as follows:—H. W. Hoffman, C. Keener, R. J. Crabb, Wm. Frazier and W. Kerr Bowie.

After which they adjourned to meet at Temperance Hall at 3½ o'clock.

The Convention again met at 3½ o'clock in the Temperance Hall. The committee on business reported rules for the government of the Convention similar to those of the House of Delegates; also a rule that all resolutions shall be referred without debate to the committee on business, which, after considerable debate, was rejected, ayes 30 nays 50, the members voted by counties, according to the basis of representation in the two houses of the Legislature. Mr. Hoffman, of Allegany, chairman of the business committee, reported resolutions setting forth the objects of the Convention, stating that public sentiment demanded that a prohibitory liquor law should be immediately passed by the Legislature now in session, and calling upon the Legislature to pass such a law.

Mr. Bouic, of Montgomery county, made a minority report, less stringent in its provisions, proposing to abolis traffick in liquor, and asking the Legislature to pass a prohibitory liquor, law, to go into effect thirty days after the meeting of the next Legislature in 1856. Mr. Bouic apvocated the resolutions offered by himself, as expressing the sentiment of his county, though he was personally in favor of immediate prohibition. He held himself bound to represent the views of his county. It having been decided to be unconstitutional to pass a a law subject to the popular vote, it was now necessary, in order to obtain an expresion of the popular voice upon that subject, to postpone its operation until after the next Legislature, so that representatives could be elected to repeal the law, if it did not meet popular approbation.

The report offered by Mr. Bouic was opposed by Messrs. Cross and Wilmer, and rejected. The following resolutions was then unanimously adopted:

Resolved, That the great object of this Convention, and the friends of temperance in this State, is to secure a law which shall effectually put a stop to the traffick in intoxicating drinks as a beverage.

Resolved, That it is the unanimous opinion of this Convention that the public mind is fully prepared for a prohibitory law against intoxicating drinks as a beverage, and that it is recommended to the Delegates representing the several counties and Baltimore city in the General Assembly forthwith to pass such a law.

January 20th 1854. A resolution was adopted appointing a committee of one from each county and Baltimore city, to present the above resolutions to the Senate and House of Delegates, and request them to pass such a law as will carry the same into effect.

A resolution was adopted to appoint an executive committee composed of five from Baltimore city and two from each county, and empowering the committee in Baltimore to call the Convention together in said city, and the committee in the counties to do the same in the counties, whenever, in their judgment, the case may seem to demand it.

After the passage of the usual resolutions of thanks to the officers and proprietors of the Hall in which the sessions were held, the Convention adjourned *sine die*.

True.—Calico is a great promoter of laziness. If young men wish to accomplish anything of moment, either with head or hand, they must keep clear of the institution entirely. A pair of sweet lips, a pink waist, and a pressure or two of delicate hands, will as much unhinge a man as three fevers, the measles, a large-sized whooping cough, a pair of lock-jaws, several hydrophobias, and the doctor's bill. So says an Exchange.

A Capital Idea.—It is proposed, on some of the Western railroads, to furnish "Baby cars" for the convenience of those travelling with these appendages, as well as for the comfort of travellers generally. The cars will be commodious and well supplied with cradles, baby jumpers, rattles, sugar candy, milk, paregoric, and other sedatives and conveniences; an experienced matron, with both wet and dry nurses, will be always in attendance. Babies will be *checked through*, and parents may rely upon every attention being paid to their comfort. In case of loss, the company bind themselves to get another as good in its place, in such cases the stockholders being individually liable.

Vienna improving—Division Sons of Temperance—Debating Society—Building Vessels in the Spring—Fast sailors—operations of the Messrs Larabee, &c.

Vienna, Jan. 19th 1854.

Dear Sir:—Seeing in your paper, an invitation to contribute, to its columns; I thought I would send you a few lines, filled with as important matter as I could collect, in this town.

Vienna, is if I mistake not, improving, not only in population and appearance, but intellectually also, many of our citizens are members of the "Vienna Division of the Sons of Temperance," who weekly improve their minds by meeting and speaking together, whether, their bodies derive any advantage from their temperate course, or otherwise, I leave it to the public. The Organization of the above mentioned "Division" certainly had one good effect, it has incited the young men to attempt the formation of a "Debating Society," I shall be happy to see both in full tide of success.

Some two or three enterprising individuals are making active preparations for building Vessels in the Spring; of the regular Nanticoke model—a model, seldom if ever surpassed on the Eastern Shore of Maryland, at least so far as I have ever seen; the schooners from the other rivers of this shore, seldom combine the graceful and at the same-time fast-sailing qualities of the Nanticokers.

Among other things worthy of notice is the operation of these men below; I speak of the men in the employ of Larabee & Bros., who are slaying the *monarchs* of the forest in every direction; it is intended to work some of the timber up, in such a manner, as to have it already to put up, in the shape of vessels, when hauled to the water. The Messrs. Larabee, are well known, enterprising citizens of Baltimore, I believe.

Should I find anything worthy of a place in your columns, I shall with your permission have the honor of transmitting it, to you.

DORSET.

LEGISLATIVE.

In the House the bill to adnit as witnesses persons interested in the controversy, was rejected.

The bill to authorize the Orphans' Courts of the State to accept one guardian's bond for several wards, where the same person is guardian for wards entitled to the same estate, was passed.

Mr. Wallace presented an order that the judiciary committee inquire into the propriety of repealing the law authorizing the Comptroller to employ counsel in cases of appeal from the commissioners of tax. [It being considered by the committee on claims an unconstitutional law.]

Mr. Hutchins presented resolutions of thanks to Captain Creighton and others, for heroic conduct in rescuing the passengers of the San Francisco steamship, which were adopted.

The bill to amend the act of 1852, chapter 340, to limit attachments, &c., as follows;—"That no attachment of the wages or hire of a laborer or other employee in the hands of the employer, private individuals or bodies corporate, shall affect any salary or wages of the debtor which are not actually due at the date of the attachment;" to take effect April 1st, was passed by ayes 39, noes 10, and is now a law. Mr. McKaig favored the object of the bill, but objected that it was not efiectual except where employees were paid by the week.

Leave was obtained to report a bill to give Justices of the Peace jurisdiction to try cases of assault and battery and impose fines therefor—by Mr. Phillips, a bill to authorize the Commissinners of Kent county to publish the levy list of said county in the newspapers of the county.

In the Senate the bill to prescribe the forms of oath and before whom to be taken in certain cases, was amended as to make the refusal or neglect of a party to take the required oath within 30 days from the day when the commission has been received at the clerk's office, equivalent to a refusal to accept office, was passed.

Mr. Miller offered a resolution requesting the Senators and Representatives of this State in Congress to urge upon the U. S. government the necessity of such arrangement with the government of Peru as will abolish the present monopoly in guano, and that the governor transmit copies of the resolution to our Senators and Representatives.

Mr. Longwell obtained leave to report a bill to the Senate to make the agricultural chemist and assistant, inspectors of guano at 30 cts. per ton, in lieu of their present duties, and to abolish the office of guano inspector.

Mr. Mitchell's Position on the Slavery Question.—The following explicit announcement appears in the second number of John Mitchell's paper—*The Citizen:*

"We are not abolitionists—no more abolitionists than Moses, or Socrates, or Jesus Christ. We deny that it is a crime, or a wrong or even a pecadillo, to hold slaves, to buy slaves, to sell slaves, to keep slaves to their work by flogging or other needful coercion. 'By your silence,' says Mr. Haughton, 'you will become a participator in their wrongs.' But we will not be silent when occasion calls for speech; and as for being a participator in the wrongs, *we, for our part, we had a good plantation well stocked with healthy negroes in Alabama.*"

The Maine Law in Michigan.—A correspondent at Grand Rapids gives us the following information:

"The law is vigorously enforced, and succeeds well, in some parts of our States; while in other parts the people are awaiting the decision of the Bench of Judges, now sitting to decide upon its constitutionality. There are defects in the law doubtless, which it will take several sessions of our Legislature to remove entirely, *but it must and will be done.*"

Mammoth Bridal Cakes.—At a wedding celebrated at Louisville, a short time since, between a lady of that city and a gentleman of Cincinnati, the bridal cake prepared for the occasion, was nine feet in height, and cost two hundred and fifty dollars. This was flanked on either side by two lesser ones, constructed at a price of seventy-five dollars each. The other "creature comforts," provided for the feast, were in the same proportion."

Birth at Mt. Vernon.—The first male child ever born in Washington Mansion, was born on Saturday night last. The lady of John Augustus Washington prescuted her husband with a son. The mansion at Mt. Vernon was built, except the wings, in the year 1646, by Laurence Washington, who left it to the General. It is consequently 108 years old.

☞Miss Julia Dean is playing a brilliant engagement at the St. Charles Theatre, New Orleans.

☞Miss Lucy Stone, it is said, realized $100 a night for her lectures in St. Louis.

☞Major W. B. Morris, one of the pioneers of Memphis, Tenn., died on the 9th ult.

☞Gov. McRae, of Miss., was inaugurated on the 10th ult.

☞Curtis Bates has been nominated by the Democrats for Governor of Iowa.

☞Gen. Cadwalader is named as the whig candidate for Governor of Pennsylvania.

THE

BEST MAGAZINE.

THE ECLECTIC MAGAZINE

OF FOREIGN LITERATURE.

IN literary merit and sterling worth, is without question the best Magazine published.—It is such, because it comprises, in moderate compass and convenient form, the excellences—the choicest articles—the cream, so to speak, of all the leading Foreign Quarterlies and Magazines, and the productions of their most gifted pens. In this respect, the Eclectic has a decided advantage over all other Magazines. Omitting articles of mere local interest and minor importance to the American reader, its pages offer to its patrons a large amount of literary wealth, of permanent value, at a small price.

The Eclectic is published in monthly numbers of 144 pages each, making three large volumes a year, and nearly 1,800 pages, richly embellished with 12 splendid portraits of distinguished persons or historical subjects. The price is $5 a year. The January number begins a new volume. Now is a good time to subscribe. Orders for the work are solicited. It will be sent promptly by mail to all who order it. Address

W. H. BIDWELL,
No. 120 Nassau street, New York.

☞Sets of the work, in 9 volumes, for the last three years, neatly bound, lettered, and numbered, may be had at the office of publication, and sent to any part of the country.
