THE RECIPROCITY TREATY IN ENGLAND. The English papers express adverse opini n the Reciprocity Treaty with the Uni States. The Times rejoices in its ratificat y the Senate, etc., but the Tory Morn Herald condemns it wholesale with nearly ther matters in the U. States, including C a, Russian possessions, and Greytown mo ents. The British Cabinet comes in for hare. As for the treaty, says the Herald, ery few words will show what and whose a ntages are likely to prove adverse:

"The American Government concedes to turn for the finest fishing ground in t orld, the right of attempting to catch f on their coasts, down to the 36th degree orth latitude—on which line no fish of t hallest value are to be found, except she h, oysters, &c., and these we *may not tak* e give to America the right of navigati eely our rivers and canals, and in return g *nothing*. Mississippi already laughs at o ards. We take their sugar, rum and mola s, rice, cotton, agricultural implements, a racite coal and hides—carried from Sout merica—all free. Our colonies return tim r, cattle, agricultural produce and soft coa Yaneee vessel may pick up coal at Cap eton and sell it at Montreal, (both ports b within the limits of our colonies) while via-Scotian ship cannot break bulk at Ne rk and San Francisco. We have throw en our coasting trade; but the Yankee keep to himself—like a wise man. Again, ssau man (Bahamas) may buy a Yankee tt ship, and *register her anew* as British; but ugh $10 per ton cheaper, a New York ma *not* buy and get a register for a ship built a John's or Quebec."

HOGS FOR PACKING.—The anticipated short s of the corn crop is making some sti ong the packers of pork at Louisville. The rier says:

a corroboration of the change wrought by scarcity of corn on the prices of hogs we will mention instances that of late have en under our observation; in which parties drovers who last winter contracted to sell ves 600, 800 and 1,400 hogs to packers here 3 net, and all along thought their business d, have recently proffered sums varying from 00 to $2,500 to be released from their con ts. In addition, we learn that buyers are ly offering $5 net for hogs, to be delivered in the packing season, and that large quan s have been bought throughout Indiana. re corn looks well, and where they are to ain to be fatted until the packing season mences.

THE IRISH POTATO ROT.—The condition o potato in Ireland is a topic of serious dis ion. The Dublin Advocate says:

The accounts are so exceedingly conflict from every district that, without persona ection, it is difficult to form an opinion on subject. This much, however, is manifest l, that the old disease has made its appear in all parts of the country; the extent o avages, and at what point its progress may ayed, are questions beyond our reach to e. The nature of this disease, and the e it has made, up to the present, in some icts we have carefully examined, creates us apprehensions that the amount of dam already done far exceeds that of last year, may prove, from its present type, equally tal as it did in 1847. The breadth of land r potatoes being so much greater than in year since 1847, leads us to hope that we yet have spared sufficient to leave the equal in quantity to the produce of last n."

NAVAL BOARD ON THE MACHINERY AND S FOR THE SIX NEW STEAMSHIPS.—On esday, according to orders, this board ned at the Washington Navy Yard. They examine the various plans and estimates sed by the bidders for the machinery of new steamships, and to adopt such as conceive to be in all respects best for the interest.—*Star.*

WASHINGTON MONUMENT.—It is believed ny that the blocks of marble presented Washington Monument Association ma- aid in the erection of the monument. llowing statement furnished, the Globe, rve to disabuse the minds of many of pression:

average cost of each block sent by the is about $2,000, exclusive of freight, ttees to bring them on, &c., &c. The te for the thirty-one stones, $62,000. e cost of the obelisk per foot, about $1,- nsequently the $62,000 which the blocks ed by the States cost, would put sixty- t on the obelisk. The thirty-one stones equal to one-quarter of a foot in the and as aid to the monument would to only about $250, if the material of good quality; but as it is not all suit- the work, its value is proportionately The addtional expense of raising blocks, that furnished by New York city, is 1,000.

CORN CROP PANIC.—A correspondent Cincinnatti Gazette ridicules the ex- nt stories that have been in circulation on to the failure of the corn crop, and

hear such melancholy accounts of the ps that the country is up in arms, and o doubt the farmer thinks that *his* crop ly one in the country, all others having I will admit in some sections the gath- ill be small, in others one-half and rth, and so on; then if you please add k of old corn now in the country to nt crop, you have more than an aver- is not guess work, but thorough in- on. I am not any way interested in corn, but merely in my travels this have made personal examinations, and ause of alarm, only to speculators and livers."

ARRIVAL OF THE AFRICA.

3 Days Later from Europe.

PROGRESS OF THE WAR.

CAPTURE OF BOMERSUND.

The British mail steamer Africa has arrived at New York, bringing dates from Liverpool to the 26th ult.

E. D Davenport, the tragedian, bearer of dispatches from Mr. Buchanan, with 100 other passengers came in the Africa.

The steamer Indiana arrived out on the 23d ult., and the Alps on the 24th.

There had been no further operations in the Baltic, and none in the Black Sea.

The Crimea expedition had not sailed, but preparations had been renewed.

On the 20th of August the Austrian army of occupation entered Wallachia—the whole of Wallachia and perhaps Moldavia would be occupied.

The Russians were still concentrated on the Pruth and the Turks at Bucharest. No immediate battle was expected.

The Turks met with terrible defeat at Kars—lost 2,000 prisoners.

Spain subsiding into quietness.

The British Government has completed contracts for hemp at 65s a £67. Very large contracts are advertised for Beef and Pork, which has caused a large speculative demand. The contracts were to be closed on the 2nd of October.

Orders have been despatched to Plymouth, to prepare the ship Caledonia to receive the Russian prisoners.

PROGRESS OF THE WAR.

It is said that the troops at Bomersund will be re-embarked for service elsewhere; that a negotiation is on foot for the occupation of the Aland Islands by 20,000 Swedish troops, and that if not successful the fortification were to be blown up on the 1st of September.

A fire at Varna had destroyed one-third of the town, and it is said that two Russian emissaries have been arrested charged with being the incendiaries.

Sir Edward Lyons has sailed into the Black Sea with his division. Destination unknown.

The correspondent of the London News and Chronicle have been arrested by the Turks at Bucharest, and have been ordered to retire to Girugero in thirty-six hours. The cause of their arrest is not stated.

A late despatch from Vienna says that Prince Gortschakoff, it is understood, has received an intimation from the Czar to make no reply to the last proposition of Austria, but would demand to know Austria's intententions.

The French troops at Bomersund were suffering terribly from cholera. They would probably immediately re-embark.

[From the Frederick (Md.) Citizen.]

SHALL THE CONSTITUTION PREVAIL:

The present constitution of Maryland was adopted by the free people of the State on the first Wednesday of June, 1851. To this constitution—the supreme law of the State—was prefixed what is called a "*declaration of rights.*" This declaration was intended to contain a full enumeration of the fundamental rights to which *all* the people of the State are entitled.

The preamble to this bill of rights says:

"We, the people of the State of Maryland, grateful to Almighty God for our civil and religious liberty, and taking into our serious consideration the best means of establishing a good constitution in this State, for the sure foundation and more permament security thereof, declare," &c.

It will be observed that the very first paragraph agreed upon by that wise and patriotic body who framed the bill of rights and constitution under which we live contains an acknowledgment of *gratitude "to Almighty God for our civil and religious liberty."* Did the framers of that declaration of rights imagine that in three short years a secret, political, *oath-bound* organization would exist in Maryland, one of whose objects would be to make this declaration of rights, as well as the constitution, *a mockery or a lie?* No, they did not dream that a political party would, so soon after the termination of their patriotic labors, spring up, which would aim to strike down a large number of the free white, local citizens of the State, merely on account of their religious opinions, when it was the most anxious desire, of the convention to guard and protect all in the full enjoyment and free exercise of their religious convictions. They no doubt thought that they had placed each and every denomination and sect on the same broad platform of civil and political equality.

VERMONT ELECTION.

BOSTON, Sept. 7.—We have returns of the vote for Governor in 59 towns of Vermont, which stand as follows:—Boyce, whig, 7,959; Clark, dem., 5,021; scattering, 1,059.

As far as heard from, 30 whigs, 16 democrats, and 17 freesoilers have been chosen representatives.

The returns of the Congressional vote are as follows:—First distirict, five tows, Meachem, whig, 516; Jewell, democrat 332. Second district, thirty towns heard from, Merrill, w., 3,663; Parker, dem., 3,088. Third district, fifteen towns, Saline, whig, 1,619; Hayward, dem., 823.

INDIANA ELECTION.—The Democratic candidates for Congress in Indiana at the ensuing election are thus stated by the Washington Union:—1st district, Smith Miller; 2d, William H. English; 3d, C. L. Dunham; 4th, William S. Holman; 4th, Joseph H. Buckles; 6th, Thos. A. Hendricks; 7th, John G. Davis; 8th, James Davis; 9th, Norman Eddy; 11th, James R. Slock. The candidates in the 1st, 2d, 3d, 6th, 7th and 9th districts are members of the present Congress, and voted for the Nebraska bill, of which measure, the Union says, all the others are also in favor. So in Indiana, the issue is a straight out open tug for and against the principle involved in that measure.

DEMOCRATIC NOMINATIONS.—The democratic convention of Dauphin county, Pa., met at Harrisburg on Monday, 4th inst., when the following ticket was nominated: Congress—Geo. M. Lauman. Assembly—Dr. Johh A. Stehley, Simon Sallade. Sheriff—James W. Morgan. Recorder—John Henry. Commissioner—Peter Hocker. Auditor—Saml. Glossbenner. Resolutions were adopted endorsing the Nebraska bill and denouncing the Know-Nothings.

ANOTHER MUSICAL STAR.—The steemship Pacific brought over one of the most distin tinguished notabilities in the British musical world, Miss Louisa Pyne, accompained by her sister and Mr. Harrison, a tenor, who are all to appear in October, at the Broadway, N. Y., in English Opera. Miss Pyne is boasted of by the British public as their sweetest warbler.

NEW POLITICAL TERMS.—The Democrats in the State of Maine are divided into three general divisions of the "Wild Cats," "Woolly Heads," and "Liberals." The Whigs have as aliases the terms—"Simon Pure," "Regulars," and "Morrill Democrats." Inside these party lines, new divisions have arisen under the novel rallying cries of the "Haddocks" and the "Hook and Ladder Democracy."

THE CHOLERA IN NAPLES AND GENOA, ITALY.—There were 305 deaths from cholera at Naples on the 6th ult., and for several days previous the deaths averaged over 200 per day. At Genoa, for the week ending the 7th ult., there were 1,512 cases and 696 deaths. Among the victims were Count Revel, the Sardinian Minister to Austria, and about fifty officers and soldiers of the garrison. The King of Sardinia, in addition to making a donation of 10,000 francs for the relief of the distressed, had been personally assisting the sick and visiting the hospitals and the houses of the poor.—Count Tarino, of Turin, had also made a donation of 50,000 francs to the charity hospitals.

DEEPEST WELL IN THE WORLD.—For six years past, Messrs. Belcher & Brother, of St. Louis, have been boring an artesian well on their premises. It it no *twenty-two hundred feet* in depth, being deeper by one hundred feet than one in France. At the distance of seven hundred feet, a vein of salt water was struck, and at 1,500 feet an immense vein of sulphur water, in all respects like that of the Blue Lick Springs, burst forth.

LATER FROM TEXAS.—Advices from Galvesston to the 27th ult., represent the yellow fever to be less virulent, yielding readily to prompt treatment. Rev. Thomas Chilton, pastor of the Baptist church at Houston, is dead. Valuable deposits of Cannel coal have been discovered in Hill county. A branch of the American Bible society has been organized at San Antonio. The corn and potato crops of the State, it is stated, have seldom been equalled, but the cotton is suffering from the drought.

ENGLAND AND THE GREYTOWN AFFAIR.—The report by the last arrival that a powerful British ship was to be sent to San Juan is confirmed. The Liverpool Journal of the 19th ult., says:

The Boscawen, 70, Captain Glanville, having received a number of hands from the steam sloop Spiteful, Commander Kynaston, which arrived on the night of Sunday from the Thames, got under way from Spithead, with a fine breeze, yesterday noon, and sailed for Greytown.

LOW NECKED DRESSES.—The Albany Transcript says: Such a dress is not exactly the thing to be admired on a mother, wife or sister. It is almost impossible, now this rakish French mede is in vogue, to distinguish a respectable woman from the fancy. Should our good moral ladies, who will persist in donning the flashing low-necked garb, be taken for their frailer sisters, they must blame themselves, and doff such attire, only befitting people of free and easy morals. Even old matrons of sixty may be seen daily with this rakish rig.

☞Three children of Mrs. Brown, residing in Pine-street, St. Louis, Missouri, by a most remarkable coincidence were scrofulously inclined, the eldest, (Jane) most particularly so, and the mother finding such to be the case, did all in her power to relieve the sufferer, but in vain; she became worse, the blood of the others was equally impure, and they all three were so bad at last, as to become quite an object of horror to their friends. The mother, about eight weeks ago, put them through a course of Holloway's Pills and Ointment, and strange, yet true it is, that their blood became thoroughly purified, and the scrofulous symptoms disappeared. They are now all three in excellent health, to the astonishment and delight of their affectionate parents.

The waters may fall from the sea,
But never thy fountains of Love;
O teach us thy will to obey
And sing with one heart and accord,
He gave and he taketh away
And praised be the name of the Lord."

Thus in the space of 24 hours, an uncomon healthy and promising child, has sickened and died, and the hopes of its fond Parents are crushed and blighted

"But he, now rising from the tomb,
With lustre brighter far shall shine,

Safe from diseases and decline.

Let sickness blast, let death devour,
If Heaven must recompense our pains;

If firm the word of God remains.
