My Dear Margaret

Mr Bosley has just called and requested me to write for him and say that his Brother arrived a few days ago and will be very glad to place his two Boys with your Brother immediately. She will be obliged to you to write as soon as you get this and say when he can receive them and if he will say what is to be paid in advance for them and she will send the money by the boys, she wishes to know if they can get all the way to your house in the Stage and if not - then they had best go she will send a servant with them, and would like if possible to send them next week Major Moore is still a great sufferer and little hope of his being better I do not yet know what they intend doing with the little girl for I have only seen her for a moment

I saw Rogers for a moment when he was in Town we been in the battle of running a Tea Party some of Mr Stevenson's friends from West River and here and before I had fixed them all and had an opening
