Comments on this table seem almost superfluous. It presents the most absolute refutation of the statements so freely made by the Democrats that under the McKinley bill the cost of articles of this character, as well as everything else, would be increased to the purchaser. It shows that in not a single item of the list has this been the case, but, on the contrary, nearly every article mentioned has been reduced in price, in some instances very materially, and in the others very appreciably.

The Volume of Circulation.

Those who insist on inflating the currency of the country by the unlimited coinage of silver, alleging that the volume of the circulating medium has been curtailed and restricted, should study the figures of a statement prepared by the Treasury Department at Washington and made public a day or two ago. The statement shows the circulation of all kinds of money in 1860, 1865, 1885, and 1891, as follows; 1860, for each inhabitant, $13.85; 1865, $20.82; 1885, $23.02; 1891, August 1, $23.37. It is thus seen that notwithstanding the large increase of population the volume of circulation per capita has been more than maintained since 1865, when the ...urrency was very largely inflated. ...ow Long Will They Consent to be Duped?

A convention of Democratic editors at Topeka, Kansas, last week, adopted an address urging the party to organize in every county and nominate and support full Democratic tickets, and to resist earnestly "the idiotic theories of the Farmers' Alliance." Last year the Democrats coalesced to a considerable extent with the Alliance, and the theories now so radically denounced were then considered good enough as a basis for the fusion. But the farmers took a large part of the spoils for which their Democratic allies were hungering, and this is doubtless the cause of the alienation of the latter from the combination.

It may be, however, that the Democrats now regard the Alliance as an established fact and the rent in the Republican ranks by its organization as sufficiently pronounced to be beyond the hope of healing, thus opening the way to Democratic success. Whether this be so, or not, Republicans who were led into the Alliance should begin to realize that the disruption of the Republican party was the sole motive of the Democratic politicians, in extending help to the new organization. The course of Southern Alliance men is confirmation of this idea. They accepted the most extreme theories and voted in the Ocala convention for the Sub-Treasury and Warehouse scheme which they are now denouncing unreservedly.

It cannot be expected that the mere politicians, who have ridden into office through the farmers' organization, will admit that they and their followers have been duped by pretended Democratic sympathy for their plans and purposes, but the rank and file can hardly remain long ignorant of a fact so patent to the rest of the world. How long they will adhere to a hopeless purpose remains to be seen.

Democratic War in Wicomico.

There is a rupture in the ranks of the Democratic party in Wicomico county, the bone of contention being the county clerkship. Gov. Jackson is involved in the unpleasantness, having espoused the cause of Mr. James H. Truitt, who received the nomination over Dr. Todd and Dr. Slemson. A call has been issued for a mass meeting of the dissatisfied Democrats, with the presumable purpose of putting another ticket in the field. The call is couched in this spicy language:

"Democrats of Wicomico county, who believe and feel that their best interests and dearest rights as freemen and citizens have been trampled on and wrested from them through fraud, bribery and corruption by irresponsible parties—many of whom were not even citizens—seeking to bolster up the waning fortunes of the plutocratic one-man power, are earnestly requested to assemble in mass-meeting in the court-house at Salisbury, Md., on Tuesday, August 11, 1891, at the hour of 1 o'clock, for the purpose of taking meanss to redres their grievances.

"Come one! come all! who love their country and good government. By order of citizens."

If the Democrats in the other counties of the State who dislike the "plutocratic one-man power" business were to imitate their Wicomico brethren, there would be a good many independent tickets in the field.

A letter in the Baltimore *American* from its Frederick correspondent, under date of the 6th inst., says: "The large bank barn on the farm of S. C. Linton Cramer, one mile west of Johnsville, this county, was struck by lightning last night and destroyed, with all its contents. The farm is tenanted by Charles G. Cramer, who, with several farm hands, was at the barn when the bolt struck it. Alf Kearney, one of the men, received a shock that nearly proved fatal. The barn contained eight hundred bushels of wheat, fifty tons of hay and the season's crop of oats, &c. The stock was gotten out safely, but everything else was destroyed. The loss is about $3,000, partially covered by insurance in the American, of Philadelphia."

Sixteen years ago Albert Moliter, treasurer of Presque Isle county, Mich., and his clerk, Ed. Sullivan, were murdered. The deed was supposed to have been committed because of Moliter's arbitrary conduct in office, and a wealthy farmer named William Kepke was suspected of complicity in the crime, but no convicting evidence could be found against him. Recently, however, he made a confession, criminating himself and implicating twelve or fifteen other leading citizens in the crime. Warrants are out for their arrest.

A special train on a branch of the Chicago and North-western Railroad, consisting of an engine and one coach, carrying officials of the road, while running through a cut near Rollo, Ill., on Wednesday, rushed into a buggy containing three persons, resulting in the almost instant death of Blanche Marble, aged seven years. John Kirk seventy-one years old, was seriously injured, and Joan Passmer, an eleven-year-old girl, was slightly bruised.

Little Annie Kirkland, of Durham, N. C., who was poisoned by her nurse several months ago, died Tuesday. The girl poisoned the child by administering concentrated lye to it. She was sentenced to the penitentiary before the child's death.

As a result of the recent election in Kentucky the farmers of all parties will control the next Legislature of the State. John Young Brown's (dem.) plurality for Governor is between 25,000 and 30,000. This is not more than the usual Democratic majority in that State.

Rev. Mr. Williams, a retired Congregational minister, was burned to death on Monday, and his body charred beyond recognition, by a fire that destroyed the Weeks House, in which he was a guest, at Palmer, Mass.

The physicians at the county hospital in Chicago have come to the conclusion that Martin Gaelick, an inmate of the institution, is afflicted with leprosy. The patient will continue to be treated as an inmate of the institution.

Jackson Donnelly, a wealthy farmer living five miles east of Arkansas City, Kansas, and his wife were found murdered at noon on Monday. The supposed motive was robbery.

James Flynn, a young man, was violently taken with hydrophobia at Malden, Mass., Wednesday from a dog bite received a year ago, and died Thursday.

National Encampment, G. A. R.

Tuesday was a great day in Detroit, Michigan. The members of the G. A. R., in attendance on the National Encampment, to the number of more than forty thousand, paraded the streets of that city and were reviewed by Commander-in-Chief Veazey, Secretary of War Proctor, Gen. Alger, Gen. Miles, and others. The procession was in motion six hours. Many interesting incidents occurred along the line of march. Immense crowds of people thronged the streets to witness the parade. The Maryland line was under the command of Col. Joseph C. Hill in the sixteenth division. It was formed with Wilson Post Band at the head; then came the Department of Maryland, Wilson Post Guard, under Captain A. J. Crockett; Wilson Post, Commander J. H. Downs, one hundred and fifty-five men; Dushane Fife and Drum Corps and the post, Commander Frank Nolan, sixty-one men, supporting the old brigade headquarters flag of the Fifth Brigade, Second Division, Fifth Corps; Dodge Post, No. 13, under Capt. Alexander M. Briscoe, thirteen men. Scattering delegations from other Posts, including Burns, of this city, were included in the organizations named. They were heartily cheered along the line, and the people recognized them by their bands playing "My Maryland." When the Maryland boys reached the reviewing stand of Commander-in-Chief Veazey their band played "Marching Through Georgia" and "My Maryland." All the others played "Hail to the Chief."

The sessions of the Encampment have been of an interesting character. The everlasting race question came up for discussion, the Louisiana Posts objecting to the admission of colored representatives to the Encampment.

After a long and lively discussion in relation to the next place of meeting, Washington, D. C., was selected by a majority of 27 over Lincoln, Nebraska.

The Commander-in-Chief, in his address, recommended the creation of a provisional department for the colored men, but when the committee on the address came to consider the matter a division of sentiment on the subject was found to exist and two reports were made, the majority taking ground against Gen. Veazey's proposition and the minority favoring it. After a long and heated discussion the majority report was adopted. The white representatives from some of the Southern States were very sore over the result.

The following were elected officers for the ensuing year: Commander-in Chief, Capt. John W. Palmer, of New York; Senior Vice-Commander, Henry M. Duffield, of Michigan; Junior Vice-Commander, T. S. Clarkson, of Nebraska; Chaplain, S. B. Payne, of Florida; Surgeon-General, Benjamin T. Stevenson, of Connecticut.

The house of a wealthy man named Brumfield, in Wayne county, West Virginia, was attacked on Friday night of last week by a band of fifty drunken Italian laborers and he, his wife and five children were murdered. Mr. Brumfield had been at one time a county commissioner of Wayne county, and incurred much bitter animosity by opposing the erection of a new court house. It is supposed that his enemies plied the Italians with liquor and set them on to do their dreadful work.

The Chicago and St. Louis limited express train on the West Shore Railroad ran into a freight train near Syracuse early on Thursday morning. The day coach and the smoking car were telescoped and ten Italians were killed. The fireman of the express train was killed at his post of duty. Many persons were hurt. The wreck caught fire and was burned.

Short Sermon in Figures.

Under this caption the New York *Press* says: "The contest between Mr. Claus Spreckels and the sugar trust has emphasized the benefits that the people of the United States enjoy from the free sugar clause of the McKinley bill. Granulated sugar is selling to-day from the Spreckels refineries at 4 cents per pound, with two per cent. off for cash, making the price really 3.92 cents. The trust has closely followed the Spreckels price. In August, 1889, granulated sugar was selliing at 81-3 cents. When the McKinley bill went into effect it was selling at 6 1-2 cents.

For the fiscal year ending June 30, 1890, we imported nearly 3,000,000,000 pounds of sugar. The difference of 2 1-2 cents in price represents a yearly saving to the American people of $75,000,000.

Every housekeeper in America saves a small part of this enormous sum. The tariff on sugar was purely a revenue tariff. It was levied not for protection, but for income. The Republican party promised to reduce the serplus revenue, and its greatest cut was made on this prime necessity of life. The sugar trust, as well as every Democratic organ in the country, opposed it. The Mills bill, as passed by the Democratic House of Represenatives, retained the high tariff on sugar. Ask your Democratic neighbor which party he now thinks was right."

The Liberty of the Press.

Most of the New York daily newspapers have been indicted for violating the law of that State prohibiting the publication of the details of electrical executions. Some of these papers hold that the law itself violated the Constitution of the State which declares that "no law shall be passed to restr in or abridge the liberty of the press."

"The liberty of the press" is a term of general meaning, occasionally very difficult of application. Liberty cannot be construed to mean license, and no newspaper would claim the privilege under it to give details, in plain, unvarnished language, of every event that comes to its knowledge. Many things occur that will not admit of publication in detail, and there can be no doubt of the right of the State to restrain such publications. Anything that has a corrupting tendency or that operates to lower the tone of morality among the people, may be fairly classed in this category. Whether the law in question will come within the scope of this principle remains to be seen.

The courts before whom the cases are to be tried will probably not find it an easy matter to decide upon some of the nice distinctions that may arise during the progress of the trials. While it is plain that the liberty of the press cannot be abridged by statute, it may appear that the publication of the details of the executions by electricity was detrimental to morality and corrupting in its effect, and the law therefore valid as providing a mere police regulation for the good of society generally. There is reason to suspect at least the evil effect of such publications, even if the fact cannot be demonstrated. They engender morbid sentiments of compassion for the criminals; lower the tone of morality and have a certain debasing influence that should be prevented, if possible, and we believe it would be, in some measure, a public misfortune, if the courts of New York were to decide that the Legislature of that State transcended its constitutional authority by passing the law in question, as the newspapers under indictment expect will be the case.

Wages and Low Tariff.

Mrs. Helen M. Gougar, of Indiana, a lecturer for the Prohibition party, proposes to follow Major McKinley in his canvass of Ohio and talk "low tariff and increased wages for the workingmen." It is very clear that Mrs. Gougar is profoundly ignorant of the subject upon which she proposes to discourse. A low tariff has never been conducive to high wages. A comparison of the condition of workingmen and their families under the two systems, honestly made, would convince Mrs. Gougar that her propositions are utterly inconsistent. Perhaps she is not old enough to remember the time when, under a tariff for revenue only, the floors of the workingmen's homes were generally uncarpeted and the best dresses of their wives and daughters were ordinary prints. This condition of things was changed by the introduction of the protective principle in the revenue laws of the country, and labor now commands a hundred per cent. better wages than in the good old low tariff days for which people like Mrs. Gougar are sighing. And while this is true, it is also true that the purchasing power of a dollar is, on the whole, greater than it was before the days of protection. The best granulated sugar sells at about the low-tariff-time price of the darkest of brown sugar. Prints are fifty per cent. less and other things in proportion. Tariff reformers who imagine that this conditon of things would be improved by going back to the system under which the laborer was able only to earn the scantiest living for himself and family, have very little respect for the logic of facts, or any other logic, for that matter.

Our mother now has gone to rest,
Beneath the tree of life
She leans upon the Saviour's breast,
So free from pain and strife.

Our mother's troubles now are past,
Her pain disturbs no more;
But Jesus, in His arms, at last
Bore her to the heavenly shore.

Mother, how can we give thee up?
It seems to us unjust
To lay thee in the cold damp ground
To moulder into dust,

BY HER DAUGHTER, MRS. LYDIA A. MYERS.

At Wakefield Station, July 21st, 1891, Joseph Hoover, aged 74 years, 1 month and 15 days.

A precious father from us has gone,
A voice we loved is stilled,
His chair is vacant in our home
Which never can be filled.

We saw his suffering, heard his sighs
With throbbing hearts and weeping eyes,
But now he calmly sleeps at last,
All pain, all grief, all suffering past.

Cease to weep for tears are vain,
A father dear is out of pain;
Father is not dead, but only asleep
From whence he will never wake to weep.

WINFIELD, MD., JULY 23RD, 1891.

H. S. ROBERTS & CO.—SIRS:—I threshed yesterday from a scant nine acre field, sowed with 300lbs. to the acre of your "BIG GUN AND PRIDE FERTILIZERS," 380 BUSHELS OF WHEAT, averaging about 42⅓ BUSHELS TO THE ACRE. I sowed 1½ bushels of seed to the acre. These are facts that it seems to me the people ought to know. If any one doubts it, I am willing to substantiate it with my oath, and other proof if necessary.

A Five Minutes Talk
TO FARMERS.

It may seem early to call attention to

FERTILIZER
FOR FALL SEEDING,

but there are farmers who have in former years given their orders for fertilizer before consulting us. To them we especially wish to talk.

DON'T BE HUMBUGGED

by misleading statements made by those who are interested in the results of misleading farmers. Remember that our fertilizer has been sold for years—long before many of the different brands that are sold to day were thought of; and remember we will not be undersold. The general business that we have gives us a great advantage over our competitors. This advantage we are willing to share with the farmer. For years farmers who have used our fertilizer have had the most flattering results and we are more thoroughly convinced than ever that

OUR BRANDS

are especialy adapted to the soil of our county. This was our aim, and the results have proven out success. Another year has just passed with the best of results from our fertilizer from all over the county. Here is what one of the many say of our fertilizer:

Messrs. N. I. Gorsuch & Son: Gentlemen.—I used you dissolved raw bone fertilizer last fall, putting 167 pounds to the acre. I have just threshed 440 bushels of wheat from 11 acres, of excellent quality. I used other fertilizers, but yours was by far the best. I would have made money if I had used all of your fertilizer.
Respectfully,
DAVID J. BROWN,
Cranberry.

Remember if you want cheap, but good fertilizers, see us, or our representives, who are:

Frank Brown, Silver Run.
N. D. Norris, Eldersburg.
D. W. Richards, Hampstead.
Wm. J. Brown, Arcadia.

Respectfully,

N. I. GORSUCH & SON,
