Pending the hearing of the charge under which he was held a jury *de lunatico inquirendo* was summoned by Sheriff Wickert, on Friday of last week, and after hearing testimony in the case declared him an insane pauper. He was thereupon committed, by Judge Bond, to be confined in the Maryland Hospital for the Insane at Spring Grove, until his recovery, at the expense of Carroll county. A Bean Auction.

A very pleasant entertainment was given on Tuesday evening to the children at Winchester Place and a few of their little friends from Westminster. The idea originated with Miss Hough, of Baltimore, who finds much pleasure herself in giving pleasure to the children. The entertainment consisted of a bean auction, Mr. F. W. Koch, of Baltimore, acting as auctioneer and Mr. Burtt as assistant. Miss Barnett, of Baltimore, assisted Miss Hough in distributing the "bean money," which was put up in packages of one hundred, each bean representing one dollar.

The articles sold were all tied up in paper so that the buyer was ignorant of his purchase until it was made. The bidding was spirited and good humored amongst the little folks, and much amusement was created by the opening of the packages. The auction lasted from seven until half-past eight, P. M., when all the packages were disposed of and the little people said "good night" to Miss Hough and the other ladies and gentlemen who had contributed so much to their enjoyment.

Notes from the Forest and Stream Club.

The club has been singularly unfortunate this year, muddy waters and rainy weather having prevailed during our first two weeks of camp life. The climax was reached on Wednesday morning, 5th inst., twenty minutes before three o'clock. We were awakened by a freight train crossing the bridge at the Monocay. The president was first at the tent entrance, as he thought he heard the swish of oars near the landing. John soon had his boots on and was at the river bank to behold, not some one trying to get away with the bait, but the mad river trying to get away with everything in its path. The rope across the river soon parted and we were relieved to find had broken on the Frederick county side and the boat was safe. We soon had things in shape preparatory to moving. How eagerly we wished for daylight. All the lamps and lanterns in camp were lighted and we began clearing out the cook's tent, the one nearest the river. This was soon accomplished, but before we could get the tent down and away the river had risen eight feet, and some of the guy-rope had to be cut as the water was too deep to get at the pegs. The tents were moved a hundred and fifty yards to high ground and the good work went on. There was the old reliable, big Charley; George, the President; Washington, the one always ready; John, the commissary; Winter, the medicine man, and Mitchell, of hedge fence fame, beside the cooks, Jade and Smith. By seven o'clock the river had risen fifteen feet but we were safe, with three tents up and ready for breakfast, to which all did full justice. After breakfast the camp was completed and ready for visitors. The river began falling about eight o'clock and by twelve had fallen ten feet, and at this writing is running in its usual channel. We have had quite a number of visitors, among them the Rev. Will Seabrook, of Kansas, once vice-president of the club.

Next week the King's Sons, fifteen in number, with their pastor, Rev. Wyllys Reid, will visit the camp and remain from the 10th to the 14th, inclusive.

The river is full of black bass and good fishing may be expected during the coming week. There is some talk among the members of continuing the camp another week, from the 17th to the 22nd.

Reported for the SENTINEL.

Carroll County Sunday School Convention.

The Carroll County Sunday School Convention, under the auspices of the Maryland Sunday School Union, was held at Taneytown, beginning Friday night, July 31st, and closing on the following Sunday night. A fine audience assembled at the first meeting and the interest then awakened increased with each session until the close on Sunday night, when fully 600 people were present, and only the threatening weather prevented an overflow.

The convention was formally organized on Saturday morning by the election of Rev. Pedro Riosecco, president; Miss Grace Hochensmith, secretary, and Mr. G. H. Birnie, treasurer.

The address of welcome was delivered by Mr. G. H. Birnie. The following subjects were discussed during the convention: "The worth and work of Sunday School Conventions," by State Organizer, G. H. Nock; "The Cheerful Sunday School Teacher," by Miss Grace Hochensmith; "The Teacher's Life," by Miss Sarah Snyder; "The Model Teacher," by Dr. C. Birnie. Dr. Birnie also discussed the question, "How can we maintain a supply of teachers?" "How can we retain the young men in the Sunday School?" was discussed by Mr. Charles Culp. There was a number of themes from the question box which elicited much interesting and spicy discussion.

The Sunday services were largely attended. It was thought impracticable to hold a union service on Sunday morning as no one church would have held the audience; so services were held in both the Lutheran and Reformed churches. The children's mass meeting in the afternoon and the general meeting at night taxed the seating capacity of the large edifice.

Among the other speakers at the convention were the pastors of the town, Rev. H. Ditzler, of the Reformed Church; Rev. Geo. W. McSherry, of the Lutheran and Rev. Pedro Riosecco, of the Presbyterian. Also Rev. Wm. C. Brian, of the Middleburg M. E. Church. These gentlemen did excellent service in the discussions.

A special feature of the convention was the organization of the "Carroll County Sunday School Association," auxiliary to the State Association. Though but few of the remote schools were represented it was thought advisable to make a beginning, with the hope that a general enthusiasm will be awakened in the work. It is proposed to follow the county convention with a series of district conventions and institutes.

A constitution was adopted and the following officers elected for the ensuing year: President, Dr. J. W. Hering; Secretary, Edward Reisler; Assistant Secretary, N. H. Baile; Treasurer, G. H. Birnie; Executive Committee, Dr. J. J. Weaver, E. O. Grimes, and Calvin L. Fringer.

Resolutions were adopted as the sense of the convention that schools should keep open the entire year; that every member of the Church should be a member of the Sunday School, either as teacher or pupil, or at least, if prevented from attending, should give helpful sympathy and prayers to the movement.

In point of attendance, interest and enthusiasm the convention was a success, and the convention next year will doubtless have a large representation.

Entertainment at Winchester Place.

The Rev. Wyllys Rede, Rector of Ascension Church, this city, will give an illustrated lecture at Winchester Place on Saturday evening of this week, at 8 o'clock. His subject will be the Cathedral Churches of England, and the lecture, which has been heard before by some of our people, will no doubt attract a goodly number of our residents and summer visitors. The beautiful views of the cathedrals illuminated by a stereoptican are always admired. The lecture is given for the benefit of the surpliced choir of Ascension Church and its proceeds will be applied towards the expenses of the first annual Summer Camp of the Choristers, which is to be held at the well-known fishing grounds upon the Monocacy river next week. The prices of admission will be as usual.

Taneytown Items.

The grasshoppers have destroyed, a great deal of oats in this section. Some farmers say their oats is not worth threshing. The rainy weather operated against housing it and the grasshoppers continued their work even after it was in shocks, so that there is now very little of the grain in the straw. These insects have now commenced destroying garden vegetables and also the corn.

St. Joseph's (Catholic) pic nic will be held in the grove of Mr. H. M. Clabaugh, next Wednesday, 12th.

The game of base ball played last Thursday by the Rocky Ridge Club and the Eclipse Club of this place stood 6 to 12 in favor of the home club, the latter not playing in the last inning.

Messrs. John Nau and Nicholas Huff, of Littlestown, Pa., were in town last Tuesday making arrangements for a Red Men's pic nic, to be held here on the 29th of August, by the Tribes of Littlestown, Pa., Emmittsburg and Uniontown, Md. They intend to give a street parade in connection with the pic nic and to have other secret orders participate in the procession.

The beautiful weather on Friday so encouraged those interested in the musical festival and pic nic that extensive preparations were made for the same. The grove was cleared of undergrowth and fitted up with a stand and seats to accommodate a large crowd of people, while the preparations for the event among the many families were quite generous, all expecting to have a nice time in the woods. But the gray dawn of Saturday morning was anything but pleasant. As the morning advanced old Sol, after many efforts, put in his appearance through the sombre clouds, and for a time the prospects were more cheerful. The Carroll County Reed Band arrived about 9, A. M., and was received by the members of the home band at the square. About 9.30 the procession of the Sunday Schools was formed, headed by the visiting band, and marched to the grove on the York Hill. Soon after the Eberg choir, in a large neatly trimmed wagon, arrived and about the same time the Lineboro choir also drove into the grove. The exercises were then opened with prayer by Rev. C. M. Eyster. Music, by the band, was followed by singing by the Lutheran and then by the Reformed Sunday Schools. Rev. N. J. Miller was then introduced and delivered an interesting address upon the subject of music. Singing by the schools and music by the bands concluded the morning exercises, and soon the woods was dotted with white cloths laden with good things for the inner man, which were heartily enjoyed by all. About this time the gathering clouds and a light sprinkling of rain somewhat disturbed the serenity of the diners and brought umbrellas into requisition and created apprehensions of heavier showers later on. Notwithstanding the threatening clouds, however, those who had retired to their homes for dinner began to return and the crowd in the grove was being rapidly augmented by new arrivals, when, suddenly, rain commenced falling and gradually increased in volume until it had attained a perfect downpour. A general stampede ensued, and York Hill was like a second Bull Run in the confusion of vehicles dashing to and fro with their living freight, with whom they were filled beyond their capacity; people with umbrellas wading through the mud, and others still more unfortunate, without protection of any kind, facing the driving rain, drenched and dripping, yet in the best humor, while still others stood their ground and waited an hour or more until the storm abated. Among these were the members of the Eberg choir, who took shelter in a large covered wagon and, when the rain ceased, entertained others who remained, by singing four of their finest selections in a most admirable manner. They were led by Prof. Grimm, of Beckleysville, and deserved and received much praise for their excellent performance, which was perfect in time and charming in melody.

The committee which had charge of the festival found themselves with a lot of perishable refreshments on hand, which they promptly transferred to the Odd Fellows' Hall in this place and disposed of during the evening, so that little or no loss was incurred by the enterprise.

On Sunday evening another heavy rain visited us and continuad several hours. We doubt whether the rainfall at any time during the summer was heavier than this shower. The streets, fields and roads were badly washed in many places.

Dr. R. L. Hoffmeier and wife have again returned to town and are the guests of Dr. Jno. F. B. Weaver. The Dr. has improved very much in health. He informs us that his home is quite near to the part of St. Joseph threatened by the overflow of the Missouri river, which gives them trouble during freshets from its peculiar course in and about the city.

Mr. Richard L. Simpers, who has been quite a sufferer from kidney disease for some months, is still quite ill and gradually growing weaker. Dr. Newton Simpers, his son, who is located in Harford county, was home recently and is much encouraged by his success in building up a large practice.

Miss Celia Shower and Miss Maggie Clingan are visiting in Baltimore. Misses Flora and Millie Lippy, and Miss Mary Masenheimer are home from their visit to Philadelphia, Long Branch and Cape May. Va., and Miss Lizzie Herr, of Westminster, in Baltimore, from which point they have taken a trip to Watkins Glen, Niagara Falls and Chautauqua. They will be at the latter place on the 18th inst., graduation day.

Mr. Calvin Lippy slipped and fell while entering his huckster wagon, on Wednesday last, striking his left knee against an iron, dislocating the knee cap and causing great pain. Mr. Loats being present aided him in putting it in place and he proceeded to Greenmount and the thence by train to Baltimore to attend to selling his load of produce. Since then he has been unable to get about without the aid of crutch and cane.

Mrs. J. H. LaMotte is still unable to make any use of her foot and ankle, sprained some weeks ago.

Sketch of Prof. James A. Diffenbaugh.

The efforts of Prof. James A. Diffenbaugh, the Examiner of the public schools of this county, in behalf of public education, have given him an enviable reputation in his own State and gained him many friends among the leading educators of the country. The estimation in which he is held among his co-laborers in this great work is very happily shown by a sketch of his life, published in the August number of *The American School Board Journal*, a periodical of large circulation and wide influence, published in New York, Chicago and Milwaukee. The sketch, which is as follows, is illustrated with an excellent likeness of its subject:

> County Examiner (Superintendent) of public schools, member of the State Board of Education, Trustee of the State Normal School, and President of the State Teachers' Association, Prof. James A. Diffenbaugh, of Carroll county, Maryland, is well known and highly esteemed by the school people of many States, not a few of whom have most pleasant recollections of his elegant bachelor home, with its fine library, wealth of creature comforts and bounteous hospitality, at Westminster, the county seat, where he was born February 3, 1854.
>
> He was educated in the public schools and at Western Maryland College in his native city, having graduated a Bachelor of Arts in 1874, receiving the Master's degree three years later.
>
> While teaching in the public schools of the county he studied law and was admitted to the bar in 1878.
>
> He was clerk of the Committee on Accounts of the U. S. House of Representatives during the 44th, 45th, and 46th Congresses. Upon retiring from that position in 1881, he was appointed deputy clerk of the Circuit Court for Carroll County, and so continued until he was elected County School Examiner in January, 1884. He was re-elected in '86, '88, and '90, his superior fitness for the place and the value of his services being so generally conceded that he has never had a competitor.
>
> During his tenure he has superintended the erection of some thirty-six school houses, embracing forty four rooms. In Maryland the County Superintendent is at the same time the financial and executive officer of the School Board, a condition which does not obtain in any other State. Besides visiting and supervising the schools, directing the course of study, examining teachers, and performing such other duties as usually devolve upon county superintendents, he is obliged to conduct all the correspondence and financial operations of the board, pay the teachers' salaries, superintend the erection and furnishing of school-houses and distribute the text books to all the schools in the county.
>
> In May, 1888, Prof. Diffenbaugh was appointed by the Governor one of the five members of the State Board of Education, and trustee of the State Normal School. At the request of the State Board he prepared for publication a codification of the State school law, which has recently been issued in a neat pamphlet.
>
> One year ago he was elected chairman of the Executive Committee of the State Teachers' Association, and was thus charged with the arrangements for the annual meeting of this year. As this was to be the twenty-fifth anniversary of the organizaion of the Association, he determined to make it surpass all former meetings, both in numbers attending and the character of the exercises. The meeting was held at Ocean City, July 7, 8 and 9, and was the largest, the most interesting and the most enthusiastic the Association ever had. While he doubtless received valuable assistance from his colleagues on the committee, the credit for the unprecedented success is due mainly to his energy and skill in the management, and as a reward for his services he was elected to the presidency with entire unanimity and great enthusiasm.
>
> Being a fine scholar, a fluent writer and speaker, a man of great executive ability, and a gentleman of refined manners and cultivated taste, it need not be said that he has filled the various offices to which he has been called with great credit to himself and advantage to the State.

Prof. Diffenbaugh, it is said, has under consideration the acceptance of one of many flattering offers of educational positions in other States.

The Walnut Grove Society met on August 4, at the residence of Mr. L. M. Bushey, with a full attendance of members. The president, Mr. A. H. Wallace, called the meeting to order, after which the following program was read by the secretary, the various members responding with suitable selections of reading or music: Instrumental music, "The Johnstown Flood," by Miss Milly Bushey, was a most difficult musical selection and was finely rendered; chorus, "Over the Tide;" reading, "When I was a Kid,' by John Bushey; solo, "The Gypsey's Warning," Miss Bushey; reading, "My Loves," Mr. Benny Wilson; chorus, "Sad and Alone;" reading, "At the Play," Miss Florence Clark; solo, "A Hundred years to Come," Mr. G. W. Hess; reading, "The Old Man's Daughter," by Walter Condon; chorus "A Welcome Song;" reading, "Caleb's Courtship," Miss J. R. Ways; chorus, "Ever Present." At the close of the program the president ordered a business meeting of the society at which it was decided to hold a festival, in the grove near the residence of Mr. L. M. Bushey on the afternoon and evening of August 18th. If the weather should be unfavorable on that day, it will be the next fair day. Refreshments will be sold on the grounds, and music and recitations furnished by the members of the society. The public are invited to be present. There were present as visitors on Tuesday evening: Miss Georgia Cullison, Miss Minnie Allen, Miss Lizzie Wallace, Mr. Will Cullison, Miss Amanda Dorsey and Mr. LeGourge. Several committes were appointed by the president to make arrangements for the festival. The society then adjourned to meet again on August 11th, to prepare a program for August 18th. The festival promises to be a success socially, and the members extend a cordial invitation to all.

Notwithstanding the inclement weather, the festival at the Lutheran Church near Porter's, on the 1st inst., was well attended, and all appeared to enjoy themselves.

Work on the bridge upon the Washington Road, across Little Morgan Run, is being rapidly pushed by masons Crapster and Hawkins, and travel can soon be resumed again. The walls are now about completed.

The three Misses Richardson, of Woodberry, Md., who had been visiting friends in the vicinity of Porter's returned home on the 3rd inst. They are charming handsome and vivacious young ladies, and made hosts of friends and admirers during their short visit here, and no doubt left many severe wounds upon susceptible hearts which will take a long time to heal.

A curious cablegram under date of London, July 28th, was published in the daily newspapers of the United States on Thursday—curious in that, while it contained repeated assertions that English tin plate manufacturers are not seriously afraid of American competition, the less sauguine think "the Americans will eventually succeed in establishing a trade, especially as they will be able to adopt labor-saving appliances," which the workers have always persistently resented in Wales. Another point in the cablegram is that "it is feared that employers will be forced to consider the advisability of transferring their business to America." Notwithstanding their strong disclaimers, therefore, it is evident that the tin plate manufacturers on the other side of the water realize the probability of American success, under existing law, in the industry.

Reports are being industriously circulated to the effect that the "yellows" or peach blight is rapidly spreading over the Peninsula of Delaware and the Eastern Shore of Maryland. Six weeks ago it was anticipated that six millions of baskets would be gathered. Now, it is said, the crop will be less than a million baskets. While there is undoubtedly a basis for these reports, they should be received with some degree of allowance, as prompted, in a measure at least, by a desire to maintain better prices than could be obtained with the possibility of an overwhelming supply of the fruit.

The Western Maryland Company will in a few days days put a force of hands at work in erecting a freight transfer house at the junction of this road with tracks of the Norfolk and Western and Cumberland Valley Roads at Hagerstown. The accommodations will be similar to those at Brunswick, and are made necessary by the big business brought to the Western Maryland Road by the Reading connection.

The court-house of Winston county, Ala., was burned Tuesday morning with all the records. Nothing was saved. The fire is believed to have been incendiary. The loss on the building is about $7,000.

FARMERS'

Fertilizer Bulletin

The Farmers' Fertilizer Company of Carroll County is not a misnamed corporation. It is an organization for the benefit of the Farmer and no one else; whatever profit may occur in an economical administration of its business, after payment of expenses, goes to the purchaser of its goods. That is one of the reasons why, after several years of trial, it is able to say in

1891

that, notwithstanding the advance in prices of certain material, unlike other firms, there will be

No Advance in Prices of its Goods.

A careful observation of the market will enable one to purchase in advance of a rise, and that is another reason why the Farmers' Fertilizer Company is able to

Undersell the Incautious.

Grade for grade on certain leading brands of any house or firm in Carroll county, its goods are from $4 to $6 per ton cheaper; and this is confirmed by the analysis made by the State chemist of Maryland as per report of February, 1891. That kind of testimony is unanswerable.

DON'T BE MISLED.

The announcement that extraordinary results have been obtained from isolated fields from certain liberally advertised brands of fertilizer is intended for the unwary. The best test of the virtues of any fertilizer is the result per acre from an entire farm. These same fertilizers, boomed into prominence, have been known this year on a full farm test to produce but from 18½ to 21 bushels per acre; not so in any instance, yet learned, has this been the case with our goods.

From 28 to 44 Bushels

per acre have been the result when the Farmers' Fertilizer Material has been used. We employ no agent, we sell nothing but absolutely

PURE MATERIAL.

We buy our goods before an advance in prices, we exercise the strictest economy in the management, and we therefore assert, now as heretofore, that if you want to be perfectly satisfied, give our goods a trial. In addition, if this company can be of service to any of its patrons in furnishing them with formulas, it will do so with pleasure and without charge. An allowance of $1.00 per ton will be made to those bringing their sacks with them, and a discount of 2 per cent. will be made on all cash sales.

Respectfully,

The Farmers' Fertilizer Co.,

E. M. BISH, SUPT.
