The New York *Evening Post* advances the absurd proposition that "the nearer the farm has been to the factory the worse generally speaking, it has been off." The fact is directly the reverse.

J. Sloat Fassett, the Republican nominee for Governor of the great State of New York, is not yet thirty-eight years old. But then he is a man of great-ability with none of the qualities of a picayune politician about him.

While Mr. Cleveland in his proper person takes no part in the Ohio campaign, his utterances on the silver question are a powerful weapon in the hands of Major McKinley, who quotes him daily on that subject.

All wool six pound blankets are advertised at $3.50 retail in some of the large cities. The import duty on a blanket of that sort is about $3.70, so that the retail price is actually less than that duty. Mr. Cleveland oracularly declared, in substance, that tariff duties are always added to the price of an article upon which they are imposed. In this case the price is less than the duty, but then these are American-made blankets.

Lieutenant-Governor Jones, of New York, in an open letter to Ex-President Cleveland, warns that gentleman that his interests do not lie with the movement to make Roswell P. Flower the Democratic candidate for Governor of that State. Mr. Cleveland is probably as well aware of that fact as is the Lieut-Governor. Mr. Flower is Governor Hill's candidate, unless that gentleman is playing a deeper game than appears on the surface.

The Republicans of this State have been much exercised during the past week by the threatened consequences of the election of Mr. Charles T. Wescott, of Kent county, as chairman of the State Central Commitee. His acceptance involved the withdrawal of Col. Vannort from the head of the State ticket, as the latter could not, with self-respect, have remained in that position with a chairman who had been opposed to his own candidacy. The difficulties have, however, been compromised. Mr. Wescott declines the chairmanship and Col. Vannort and his friends will recommend the election of Mr. Harry M. Clabaugh, of this county, to the position.

One of the largest Liverpool exporters of tin plates recently said? "If the McKinley bill is sustained after the coming election (in '92) the English trade must be impaired." Does not the assertion furnish a strong reason for sustaining the law as it now stands? English trade in tin plates can only be impaired by their production in the United States, and this English importer tacitly admits that this will be done if the McKinley bill is sustained. This means the employment of thousands of American workmen at double the wages paid to the laborers of Wales. Can Americans be so short sighted as to divest themselves of the advantages gained by this legislation.

The Republican Primaries.

No feature of the system of party government prevalent in this and other States is more important than the primary meeting. At this point in the movement of the party machinery each individual member or voter in the party organization is afforded an opportunity to express his will concerning party action, and to vote for representatives to carry that will into effect. It is the point at which government by the people really begins. This being the case, it is matter of great regret that, as a rule, but a small portion of the voters exhibit sufficient interest in party government to take part in these primary proceedings. Only an extraordinary occasion brings to the meetings more than a very small fraction of those entitled to participate in them; and the delegates chosen at them often meet in convention knowing little or nothing of the wishes of the people whom they are supposed to represent, and sometimes without any intention or desire to obey that will, even if known to them. Voters are committing a serious error in this neglect of an important privilege, not to say duty, and we hope the Republicans of this county will "turn a new leaf" in the matter, at the primaries to be held on Saturday next, 19th inst.

The Republicans of Carroll have held together with remarkable tenacity, and presented a united front to a victorious foe through twenty-five years of almost entirely unsuccessful effort. Only the thorough conviction that the principles they advocate are sound and true could have kept them faithful through the long conflict. Their fidelity to principle has merited victory, but something more than mere passive adherance to political doctrines is necessary to insure success. The ring government of the Democratic party of the State has been guilty of the grossest maladministration of the public affairs, according to Democratic testimony. We publish on the first page of the SENTINEL, to-day, an article from the *Baltimorean*, a Democratic paper, which tells the story in plain, unvarnished language; but the Republicans have not wrought deliverance for the Commonwealth from this misgovernment because, we believe, the great mass of the Republican voters has been content to leave the inception of party plans and measures in a few hands.

There has never been a time in the history of the party when this condition of things should have existed. There has been no time in that history, in this county, when it was more important that it should have ceased to exist, than it is just now. The common enemy, flushed with a national victory gained upon false pretenses last year has, in almost every convention in the State, expressed admiration of the achievements of the arch-boss of the Democratic party, under whose leadership the ballot-box has been polluted and the State Treasury plundered; and it is boastfully proclaimed that the Republicans will not carry a single county in the State. Let the Republicans of Carroll, as one man, determine that, whether the boast shall be made good or not, they will at least do their duty; and commencing at the primary meetings, will, to a man, exert their energies to secure proper representation in the party councils, nominate a strong and worthy county ticket, and give it hearty, united and energetic support. Let us have a full vote at every primary in the county.

Another of the Amendments.

The following proposed amendment of Article 3, Section, 48 of the Constitution of the State, is the second of the series proposed at the last session of the Legislature for submission to the voters at the next election in November. Its manifest purpose is to bring under taxation the property of corporations, now exempt by the terms of their charters, under penalty of withholding all future beneficial legislation. There is a possibility that even this unique method may fail to accomplish the object designed, although there will be many chances to the contrary in the event of its adoption. Still it seems worthy of the effort, and it may be advantageous to the interests of those who are bearing the burdens of direct taxation, as well as the recognition of a just principle, to make it a part of the organic law. It is submitted to the readers of the SENTINEL for their careful examination and action. It reads thus:

Section 48. Corporations may be formed under general laws, but shall not be created by special act, except for municipal purposes and except in cases where no general laws exist, providing for the creation of corporations of the same general character, as the corporations proposed to be created, and any act of incorporation passed in violation of this section shall be void, all charters granted, or adopted in pursuance of this section, and all charters heretofore granted and created, subject to repeal or modificatien, may be altered, from time to time, or be repealed; provided nothing herein contained shall be construed to extend to Banks, or the incorporation thereof. The General Assembly shall not alter or amend the charter of any corporation existing at the time of the adoption of this article, or pass any other general or special law for the benefit of such corporation, except upon the condition that such corporation shall surrender all claim to exemption from taxation or from the repeal or modification of its charter, and that such corporation shall thereafter hold its charter subject to the provisions of this constitution; and any corporation chartered by this State which shall except, use, enjoy, or in anywise avail itself of any rights, privileges or advantages that may hereafter be granted or conferred by any general or special act, shall be conclusively presumed to have thereby surrendered any exmption from taxation to which it may be entitled under its charter and shall be thereafter subject to taxation as if no such exemption had been granted by its charter.

That the purpose of the Democratic party to tinker with the tariff is not universally popular with the members of that organization, even in the South, is manifest from the tone of the Atlanta, Ga., *Constitution* on the subject. The New York *Press* quotes the *Constitution* as saying that "it will be time enough a year hence, when merchants and manufacturers have had opportunity to adjust their business to the new conditions, to speculate about permanent results." The *Constitution* is probably observing the increasing prosperity of the country under the new tariff law.

The State Campaign.

Now that the differences concerning the chairmanship of the Republican State Central Committee have been adjusted, the party enters upon the State canvass under circumstances calculated to inspire a vigorous and active campaign, with the prospect of the happiest results. An ably conducted State campaign can scarcely fail to bring cheering news to the Republicans from the returns in November.

We reproduce below a table prepared for and published in the SENTINEL after the presidential election of 1888, with the result of the election of 1889 added, which exhibits a uniform increase in the percentage of the Republican vote of the State, over that of the Democratic party. Taking this table as a criterion the time has come when the Republicans may expect by united, active and persistent work to reach the very threshold of victory. Nay, under the peculiar circumstances of the case, they should pass the threshold and achieve a glorious triumph.

The history of the State government under Democratic administration during the last four years has been humilating to every citizen of Maryland. With inefficiency and incompetency at the fountain-head of the executive department; with the treasury plundered by the chairman of the Democratic State Committee; with all sorts of jobbery in the legislative department, as outlined by an article, from a Democratic source, published on the first page of the SENTINEL to day, it should not be a difficult task to overthrow the Democratic oligarchy, that has wrought so much evil in the State, and plant the Republican banner in triumph on the ramparts of the State government. Let timid Republicans read and analyze the table below and they will realize that this is not mere political buncome. A properly conducted, efficient and energetic campaign will have great results. Let us have it by all means. Here is the table above referred to:

The Agricultural College.

A great change has occurred in the condition and prospects of this Institution. Instead of being barely able to exist, with land and buildings run down and burdened with debt, as was the case a few years ago, Congressional grants now insure it a comfortable income, the debt has been mostly paid, the buildings well repaired, and the farm is being improved as fast as possible with such soil.

For the first time in the history of the College it has a full corps of ten professors, besides special instructors and lecturers, and is prepared to give thorough instruction in all "those branches of learning relating to agriculture." Every department is in charge of a competent specialist, secured by a fair salary, and supplied with the latest and best appliances to faciliate instruction. Within a year several thousand dollars have been expended for models and apparatus of the most approved patterns.

The greater part of the income from the U. S. Treasury can be expended under the law "only for instruction and facilities for instruction," so that while these important parts of the college work are well supported, the aid of the State is still necessary to maintain the property and meet the general expenses of administration.

The regular report of the College for the last year and the announcements for the next year have been lately issued. They give the facts above and also show the institution to be gaining in number of students and in many ways substantially improved, and prepared better than ever before to do well the work for which it was established. The new year opens the 15th of September. Particulars can be obtained by addressing the President, at College Park, Prince George's County, Md.

The following despatch, under date of Oswego, N. Y., September 9, indicates the status of the Cleveland-Hill fight in that State: "The democrats of the first Oswego district held their convention to elect delegates to the State convention today. The Cleveland men had the organization but the Hill men held the delegates. It was a furious time, and the two conventions were held in the same hall at the same time. The Hill men elected C. N. Bulgar, J. R. O'Gorman and John Sharpe delegates to the State convention; indorsed Flower's candidacy and that of C. N. Bulgar for attorney-general. The Cleveland men elected Patrick Gray, C. J. Scully and J. D. Kehoe State delegates. They also indorsed Flower."

Judge Thomas M. Cooley, chairman of the interstate commission, has resigned on account of ill-health.

Worthy of Imitation.

Speaking of Andrew D. White, of Syracuse, N. Y., whose name was prominently mentioned in connection with the Republican nomination for Governor of that State, but whose name was withdrawn at his own request because he believed some other candidate would be stronger, the New York *Press* says: "The manly letter of Hon. Andrew D. White, by which his name was withdrawn from consideration at Rochester, is entirely in keeping with the dignified position occupied by him throughout the entire period in which he was prominently mentioned for the Governorship. At no time did he indicate that he was anxious for the nomination, at no time that he would shirk the duty imposed on him, and at all times he insisted that if in the judgment of the convention, a candidate could be found to poll even 100 votes more than himself, that was the Republican to nominate. The Republican party is fortunate in the possession of patriots of the stamp and genius of Mr. White."

Mr. White's unselfishness might be imitated with advantage to the party organization in Maryland.

New York Nominations.

The Republican State Convention of New York, held on Wednesday last, nominated Hon. J. Sloat Fassett for Governor, by a unanimous vote. Several other names were in nomination, but it was soon discovered that Mr. Fassett would have a decided majority over all, and the names of the other candidates were promptly withdrawn and every vote cast for the nominee. Mr. Fassett is the Collector of customs in New York City, having been appointed a short time ago. He is a man of high character and marked ability and the unanimity displayed in his nomination indicates that he will receive the united support of the New York Republicans. The full State ticket, which is regarded as an exceptionally strong one, is as follows:

For Governor—J. Sloat Fassett.

Lieutenent Governor—John W. Vrooman.

Secretary of State—Eugene F. O'Connor.

State Treasurer—Ira M. Hedges.

Comptroller—A. C. Wade.

Attorney-General—W. E. Sutherland.

State Engineer—Verplanck Colvin.

The platform adopted by the convention approves Protection and Reciprocity and commends the silver act of July 14, 1890, which "provides for the purchase of the silver product of American mines and issuing of the new treasury note, protected by the reserve of one hundred cent's worth of silver for every dollar issued."

The Odd Fellows' of Baltimore are considerably exercised concerning an order for the speedy demolition of their building on Gay street, in that city, which has been condemned for the opening of Douglass street. They have not been able to procure other quarters and some time must necessarily elapse before a new building can be erected for their accommodation. Over forty different bodies, lodges and encampments, meet in the Gay street building every week, and it contains a library of 22,500 volumes. It would be a great hardship to require the prompt abandonment of the building, and some method should be adopted to relieve the fraternity of that necessity.

The Republicans of Montgomery county have nominated the following ticket: House of Delegates—William E. Brown, C. F. Purdum, J. V. Lewis; clerk of the Circuit Court, no nomination; register of wills, no nomination; states attorney, no nomination; sheriff, David E. Charlton; county commissioners, George L. Crawford, William R. Windsor, Duvall J. Williard, W. T. Lynch, Asa M. Stabler; Judge of the Orphans' Court, Roger B. Farquhar; county surveyor, no nomination. The county committee was authorized to fill blanks.

Hazel Hantham, aged six, fell into the river Wednesday afternoon at Astoria, Oregon, and Charles Strom jumped in after her. He struck his head on something, was rendered unconscious and both drowned. When the bodies were found the girl's arms were clasped tightly around Strom's neck.

A large number of wealthy farmers met at St. Paul, Minn., on Wednesday and incorporated the Grain Growers' Association, with a capital stock of $100,000. One of the farmers present at the meeting stated that they are determined to upset the monopoly of the elevator companies by building and operating their own elevators.

His little crib is empty now,
His little clothes laid by;
A mother's hope a father's pride
In death's cold arms doth lie.

Go little Bradley to thy home
On yonder blissful shore;
We miss thee here, but soon we'll come,
Where thou hast gone before.

BY HIS PARENTS.

Go to thy rest little Bradley,
Go to thy lonely and dreamless bed,
Gentle and meek and mild,
With blessings on thy head;
Fresh roses in thy hand,
Flowers on thy casket laid,
Haste from this blighted land Bradley,
Where flowers so soon fade.

Because thy smile was so fair,
Thy lip and eye so bright;
Because thy cradle song,
Was such a mother's delight,
Shall love with weak embrace,
Thy heavenward flight detain?
No, little Bradley, seek thy place
Amid yon cherub train.

FARMERS!
Lend Us Your Ears.

It is an indisputable fact that the

HOME MANUFACTURE

of Fertilizer in this county has reduced the cost of it to the farmer from

Three to Five Dollars Per Ton

and saved to them

Thousands of Dollars,

Therefore, is it not wisdom on your part to encourage us while we are trying to save you money, and bring you nearer to the manufacturer? We desire to deal as directly with you as possible, thereby saving to you all extra commissions. We therefore invite all farmers, farmers' clubs and grange organizations to call on us before purchasing elsewhere. We manufacture all of our own brands of goods and guarantee them as represented. They are drier, have less acid and moisture than the usual city mixture and will drill perfectly. We guarantee them free from shoddy or any inactive material, and will

Guarantee them under Forfeiture of the Purchaser's Bill

to produce as good results in a crop contest as any other for the same money, and challenge competition. We are having reports of from 38 to 44 bushels per acre having been raised this year, from the use of our Phosphate. Besides the above guarantee we are offering

SPECIAL PREMIUMS

to wheat growers using our grades, as follows:

$10 for the largest yield per acre on one acre or more.

$30 for the largest yield per acre on five acres or more.

$60 for the largest yield per acre on ten acres or more.

See circulars for further description.

Our premiums last year were won by David Cover, of Winfield, and R. F. Cook, of Warfieldsburg

The Biggest Yield of Wheat in Carroll County.

The following letter from Mr. Jno. H. Stem, one of the most reputable farmers in the county, is submitted for the benefit of our patrons and all those interested:

WINFIELD, MD., JULY 23RD, 1891.

H. S. ROBERTS & CO.—SIRS:—I threshed yesterday from a scant nine acre field, sowed with 300lbs. to the acre of your "BIG GUN AND PRIDE FERTILIZERS," 380 BUSHELS OF WHEAT, averaging about 42¼ BUSHELS TO THE ACRE. I sowed 1½ bushels of seed to the acre. These are facts that it seems to me the people ought to know. If any one doubts it, I am willing to substantiate it with my oath, and other proof if necessary.

FARMERS'
Fertilizer Bulletin

The Farmers' Fertilizer Company of Carroll County is not a misnamed corporation. It is an organization for the benefit of the Farmer and no one else; whatever profit may occur in an economical administration of its business, after payment of expenses, goes to the purchaser of its goods. That is one of the reasons why, after several years of trial, it is able to say in

1891

that, notwithstanding the advance in prices of certain material, unlike other firms, there will be

No Advance in Prices of its Goods.

A careful observation of the market will enable one to purchase in advance of a rise, and that is another reason why the Farmers' Fertilizer Company is able to

Undersell the Incautious.

Grade for grade on certain leading brands of any house or firm in Carroll county, its goods are from $4 to $6 per ton cheaper; and this is confirmed by the analysis made by the State chemist of Maryland as per report of February, 1891. That kind of testimony is unanswerable.

DON'T BE MISLED.

The announcement that extraordinary results have been obtained from isolated fields from certain liberally advertised brands of fertilizer is intended for the unwary. The best test of the virtues of any fertilizer is the result per acre from an entire farm. These same fertilizers, boomed into prominence, have been known this year on a full farm test to produce but from 18¾ to 21 bushels per acre; not so in any instance, yet learned, has this been the case with our goods.

From 28 to 44 Bushels

per acre have been the result when the Farmers' Fertilizer Material has been used. We employ no agent, we sell nothing but absolutely

PURE MATERIAL.

We buy our goods before an advance in prices, we exercise the strictest economy in the management, and we therefore assert, now as heretofore, that if you want to be perfectly satisfied, give our goods a trial. In addition, if this company can be of service to any of its patrons in furnishing them with formulas, it will do so with pleasure and without charge. An allowance of $1.00 per ton will be made to those bringing their sacks with them, and a discount of 2 per cent. will be made on all cash sales.

Respectfully,

The Farmers' Fertilizer Co.,

LeGore's
Improved Combination of Lime

is superior to all common grades of lime.

By this system and process, a full combination of the salts of lime are furnished, and as a cheap and powerful agent it beats bone. It has no equal. The choicest carbonates of lime exist here, perhaps, as no where else. We use from three different strata or deposits, burn in separate furnaces, and then mix and proportion it so as to act on all kinds of soil and crops. This has never been attempted by any other manufacturer. Our rock and improved facilities exceed any in the State. Farmers will not need a pound of bone where this lime is used. Don't be deceived or imposed upon any longer. Be sure you are right and get Legore's combination, and be convinced how easy, quick, and cheap land can be improved and full crops grown. Furnished in car load lots to suit. Farmers can order their own lime. Guarantee a genuine article or no pay. Send for testimonials, prices, etc. Address

SALE BILLS, and all kinds of Job Printing done at this office, on resonable terms.

TO OUR
CUSTOMERS!

The rush of business in Wheat, Straw and Phosphate will prevent us from calling to see you personally and we adopt this means of saying to you that the largest yields of Wheat and Rye in this county have been produced from the use of our WELL KNOWN BRANDS OF PHOSPHATE—

Our Pure Dissolved Raw Bone Phosphate and Royal Compound,

and we fully expect you to reserve your order for us or our representatives.

Notwithstanding the great advance in Phosphatic Materials, our contract having been given some time before the advance we propose giving our customers the advantage of our foresight by

Not Advancing the Price of our Goods.

Our general business gives us a great advantage over many of our competitors, and, although they make great CLAIMS, remember it is money in their pockets to do so. We have marked our goods away down in price, considering the quality, and we propose to maintain the former High Standard of our
